

Appleton Only Coated While Midwest Pelted By Prolonged Blizzard

Sections of Minnesota, Iowa Paralyzed by Snow, Ice Storms

While Appleton received snow storms virtually paralyzed some barely covering the sidewalks, sections of Minnesota and Iowa. sections of the Midwest today were blasted by one of winter's most prolonged and damaging storms.

Tuesday showed a 40 degree high here and low of 31, while rain and snow fell during the night. Forecast is for more rain and freezing drizzle tonight.

But previously hard hit sections of the country again are being severely stricken.

Blizzards whipped parts of Minnesota for the third straight day and lashed the eastern Dakotas. The severe snow and ice

Schools Closed

Hundreds of schools remained closed in the storm belt. Travelers were stranded and hundreds of cars were abandoned. Air, rail and highway travel was seriously disrupted. Colder weather eased flood conditions.

The snow covering at St. Cloud, some 70 miles north of Minneapolis, measured 28 inches, the heaviest amount throughout the storm area. The storm dumped 18 inches of snow Monday and Tuesday. Strong winds disrupted snow removal operations and scores of roads were blocked by huge drifts in many areas.

In Iowa, about 150 trucks and 400 cars jammed up on icy highways northwest of Davenport after freezing rain hit the area. Six semitrailers and several cars slipped off the shoulders of one highway and backed up traffic for four miles. Wreckers worked for three hours to untangle the tieup.

Sleet Peltings

Sleet and freezing rain pelted areas in eastern Iowa, Wisconsin, Missouri and Arkansas. Rain fell in parts of Illinois and lower Michigan and fog shrouded sections of northern Illinois. Visibility was reduced to zero at Chicago's Midway Airport. The rain belt extended from Michigan to the Carolinas. Thunder-showers were heavy in parts of Florida.

Snow fell in sections of southwestern Texas with one inch reported at Midland and San Angelo. Snow flurries flecked areas in the Rockies.

Clear skies were reported in the far Northeast and Pacific Coast with temperatures mostly above seasonal levels. Colder weather prevailed in interior sections of the West. One of the low marks was 3 below zero at Glasgow, Mont. The early morning high was 77 at Key West, Fla.

The forecast came from Sen. Walter Hollander of Rosendale, Republican, who said that he is prepared to make some effort to trim back the governor's proposed spending program.

Hollander said the Democrats in control of the finance committee and of the Wisconsin assembly will probably make a

Little Change Is Forecast for State Budget

Assembly May Settle for Tax Extensions Posed

BY JOHN WYNGAARD

Opposition Imminent

Congress Pledges To Act on Housing

WASHINGTON (AP) — Key members of Congress pledged today to get to work promptly on President Johnson's housing recommendations. Some of the proposals appear to face strong opposition.

The program will be split into two parts at the Capitol, with the housing programs going to the Banking Committees and the proposal for a new Cabinet department of housing and urban development to Government Operations.

The Senate appeared likely to take the lead on both.

Sen. Abraham A. Ribicoff, D-Conn., who will conduct the hearings on the proposed new department, said this legislation "will be given the highest priority."

Hearings Soon

Sen. John Sparkman, D-Ala., Housing subcommittee chair-

Continued Rain, Cool Temperature

Fox Cities — Cloudy with temperature steady near the freezing mark. Occasional light rain and freezing drizzle with a little snow tonight and Thursday. Light easterly winds.

Appleton — Observations at 10 a.m. today. Temperatures for the 24 hours: High, 40, low, 31. Wind: 5 miles an hour out of the northeast. Barometer: 30.10 and steady. Relative humidity: 100. Dew point: 32. Temperature: 32. Skies are cloudy. Precipitation: .06.

Road Report — The Wisconsin Highway Patrol reported at 6:30 a.m. today that about one-half inch of new snow had created hazardous driving conditions in the northern third of the state.

Fog, mist and light freezing rain in the southern part of the state made driving in that area hazardous, too. In some sections visibility was cut to 200 feet.

Interstate roads were reported in fair winter driving condition, although some were wet.

Sun sets at 5:44 p.m., rises Thursday at 6:27 a.m.

Targets of U.S. Bomber Mission Are Kept Secret

Stunned by Bombing of N. Viet Nam

Kremlin Appears 'Sitting Tight'

BY WILLIAM L. RYAN

AP Special Correspondent

American bombs that fell on North Viet Nam seem to have shaken far-off Moscow. What is happening in Viet Nam could cause new trouble inside the Kremlin.

Moscow's reaction to the bombing has been one of nervousness. Its response suggests that the present Soviet regime is trying to sit tight, watch and wait, and perhaps seize an opportunity if one presents itself, to take a hand in Southeast Asia. But the restraint of Soviet protests indicates the regime hopes it will not have to do anything desperate.

Kremlin Stunned

The Kremlin seems a little stunned by it all. The regime— notably elements of the Communist party represented by First Secretary Leonid I. Brezhnev — reflects anxiety to avoid being too deeply involved at a time when it has little control over events in Asia. Perhaps it is hoping a situation will evolve which will give the Soviet Union more control.

Moscow denounces the U.S. raids angrily. It must do so, since the attacks are against a country ruled by communism. It makes threatening noises but gives no hint of readiness to do much else at this time.

However, the developments can supply ammunition to hard-line conservatives in the Soviet party and military who disliked the idea of "peaceful coexistence" to begin with, because it implied cutbacks in military expenditures. These elements

now can apply pressure to step up military outlay at the expense of Brezhnev's program to raise Soviet living standards.

The bombs fell while Communists from 18 nations met with Soviet party members to consider

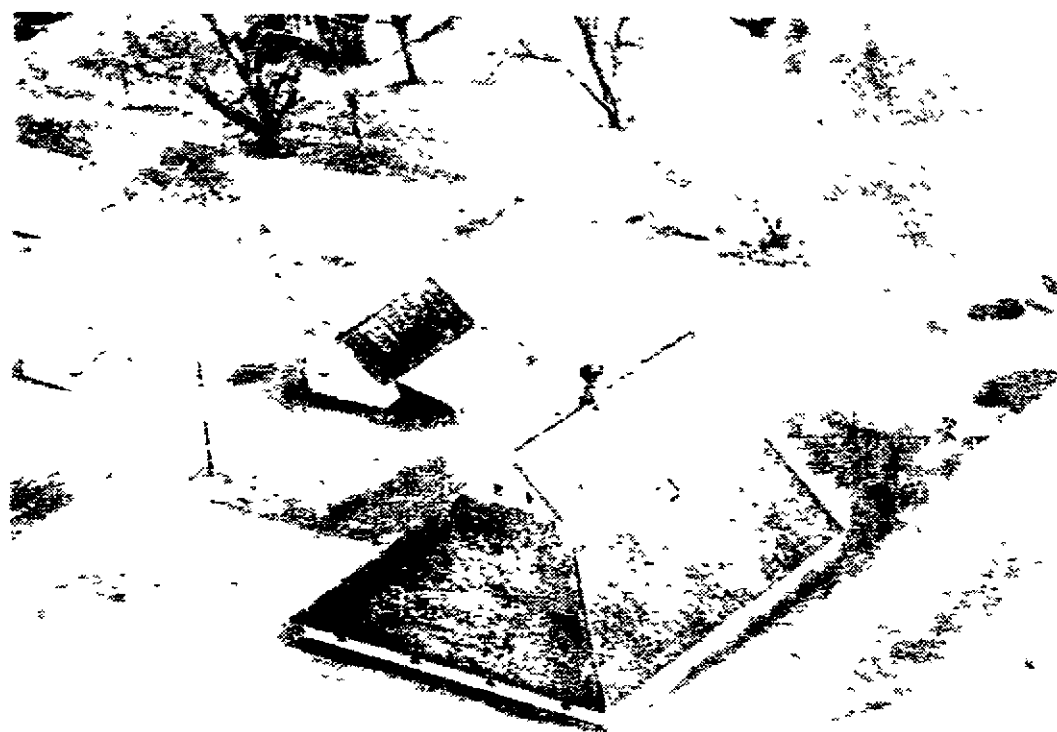

Israeli Planes Dogfight With Egyptian Craft

TEL AVIV, Israel (AP) — Israeli Mirage planes drove off a number of Egyptian MIGs after an air battle over Israel's southern Negev Desert today, an Israeli army spokesman announced.

The spokesman said the Egyptian planes crossed into Israeli air space at Nitzana, on the Sinai border, and Israeli planes engaged them and forced them back.

"All our planes returned safely to their base," the Israeli spokesman said.

Reports from the scene said four Egyptian planes crossed the border.

Concession to Steel Workers Union

Can Companies' Strike Talks Are Transferred to Pittsburgh

PITTSBURGH (AP) — Negotiations to settle a strike against Pittsburgh with federal mediators at 10 a.m. Thursday. It will be the first session since an apparently fruitless one Monday, the day 32,000 steelworkers struck the American and Continental Can companies' plants in this country, Canada and Puerto Rico. The strike involves a dispute over pay and other benefits in a new contract.

William E. Simkin, director of the Federal Mediation and Conciliation Service, announced Tuesday the talks would be transferred from New York.

He didn't say so, but it apparently is a concession to the United Steelworkers Union which, with nearly a million members, is the nation's third largest union.

Strike Deadline The USW, however, appears to be spreading itself pretty thin with one strike already on against the can companies, a strike deadline racing nearer in basic steel, and negotiations upcoming in the fabricating, mining and independent steel industries.

On top of it all the union is torn by an internal struggle that already has been blamed for the can strike.

Simkin said both sides in that

strike have agreed to meet in Pittsburgh with federal mediators at 10 a.m. Thursday.

Key Figure in Canadian Bribe Scandal Sought

MONTREAL (AP) — An international search was under way today for Lucien Rivard, a key figure in a bribe scandal that has rocked the Canadian government.

Rivard, 49, of Montreal, escaped Tuesday night from Boreaux jail with another prisoner. He is wanted in Texas as the alleged kingpin in a multimillion-dollar heroin smuggling ring.

Prison officials said Rivard and Andre Durocher slugged a guard and escaped through a boiler room. They commandeered a car from a passing motorist and abandoned it three miles from the prison.

The finding was announced today in a report by the Civil Aeronautics Board on the crash of a Pan American World Airways plane near Elkton, Md., Dec. 8, 1963. Eighty-one persons were killed.

Lightning ignited the mixture of fuel and air in the No. 1 reserve fuel tank at the tip of the left wing of the Boeing 707-121, the board said. The result was an "explosive disintegration of the left outer wing and loss of control."

Miscellaneous Spending, for Example

Many Odd Facts Revealed in Senate Report

WASHINGTON (AP) — Many odd, unrelated and fascinating facts about the Senate came to light today with the publication of a six-month report by its secretary, Felton M. Johnson.

The Senate spent \$2.66 million on "miscellaneous" items, which is more than the \$2,471,000 the members and the vice president draw in pay.

It costs \$58,370 to transport members from Washington to their homes twice a session.

Last July the Senate bought 72 whiskbrooms for \$38.88 and spent \$11.88 having its service knives sharpened and \$25.85 repairing its sewing machine.

Unaccountably, it also invested \$27.90 in alpaca coats and \$449.05 in 25 blankets in that steaming month.

RFK Denies Trying to Plant Article in Life

Tells Subcommittee Did Nothing Wrong As Attorney General

WASHINGTON (AP) — Sen. Robert F. Kennedy, D-N.Y., hotly told a Senate Judiciary subcommittee today he resented what he termed its false implication he had done something improper as attorney general.

Kennedy appeared before the subcommittee at his request to deny that he had sought to plant magazine articles against persons under investigation by the Justice Department when he was its head.

In a sharp exchange with the subcommittee chairman and counsel, he suggested that perhaps its own practices might well be studied.

Made Statement

But when the subcommittee sought to go further into Kennedy's role in connection with the magazine articles, he told it icily:

"I have made my statement on this. I have given you full information."

The subcommittee was told Tuesday that Kennedy, shortly after he became attorney general, tried to instigate a magazine expose of Teamsters Union President James R. Hoffa at a time Hoffa was under indictment.

The testimony came from Thomas A. Bolan, New York attorney, who presented a "personal and confidential" memo from Life magazine's files which he said bore out his charge.

Lightning Listed as Possible Cause of Jet Airliner's Crash

WASHINGTON (AP) — For the first time in the history of American aviation, the government has listed lightning as a probable cause of an airliner crash.

The finding was announced today in a report by the Civil Aeronautics Board on the crash of a Pan American World Airways plane near Elkton, Md., Dec. 8, 1963. Eighty-one persons were killed.

Lightning ignited the mixture of fuel and air in the No. 1 reserve fuel tank at the tip of the left wing of the Boeing 707-121, the board said. The result was an "explosive disintegration of the left outer wing and loss of control."

Red Positions In Laos May Have Been Hit

SAIGON, South Viet Nam (AP) — More than 30 U.S. Air Force jets flew a mystery strike today from Da Nang air base. It was believed they hit at Communist positions in Laos.

Officials at Da Nang, 100 miles south of the border with Viet Nam, would not disclose the targets of the strike.

American officials in Saigon said there had been no strike against North Viet Nam today, but they refused to say whether raids had been made elsewhere outside South Viet Nam.

American jets have been hitting Communist targets in Laos fairly regularly for the past few months.

Communist Targets

A high Vietnamese source at Da Nang said the strike was against Communist targets either in North Viet Nam or in Laos. He declined to say which.

He said regular attacks against Communist targets in both countries could be expected in the future.

The American F100 and F105 fighter-bombers were heavily loaded with bombs and rockets. No Vietnamese planes took part in the mission.

President Johnson said in Washington Tuesday night that six jet planes were shot down in Tuesday's massive air raid against Red military targets in North Viet Nam and that five of the pilots had been rescued.

U.S. officials in Saigon said four Americans and one Vietnamese were rescued and one American pilot was still missing. A U.S. spokesman refused to say whether he was down in North Viet Nam.

Moscow radio said "one pilot

Egypt Appears Mounting New Anti-U. S. Attack

CAIRO (AP) — The Egyptian government appeared today to be mounting a new anti-American campaign because of the possibility that the United States may supply arms to Israel.

Cairo's government-controlled press and radio swung their verbal guns from Bonn, target of most of their attacks in the last few weeks, to Washington.

Editorials and commentaries attacked W. Averell Harriman, who Monday concluded five days of talks in Jerusalem as a special envoy from President Johnson. Johnson sent him there after West Germany stopped shipments of arms to Israel in a vain attempt to get U.A.R. President Gamal Abdel Nasser to cancel East German President Walter Ulbricht's visit to Cairo.

The finding was announced today in a report by the Civil Aeronautics Board on the crash of a Pan American World Airways plane near Elkton, Md., Dec. 8, 1963. Eighty-one persons were killed.

Lightning ignited the mixture of fuel and air in the No. 1 reserve fuel tank at the tip of the left wing of the Boeing 707-121, the board said. The result was an "explosive disintegration of the left outer wing and loss of control."

It's Here—The Hottest Want-Ad Buy in the Valley

Post-Crescent **WEEKENDER** Want-Ads

3 LINES **2** DAYS **\$1**

Please Follow These ABC's

When Placing Your WEEKENDER

A A call to any of the numbers listed below . . . Ask for the classified department. Tell the ad taker you want to place a "Weekender."

B Bring your "Weekender" ad into our Neenah or Appleton office. Help write your own ad with the assistance of one of our experienced classified department staff members.

C Check your attic, garage and storage spaces today for articles. Sell them with a "Weekender."

* This is a cash price and represents a discount of 20% from the 'charge' rate. Payment within 7 days qualifies you for this discount price. The 'charge' rate will apply on any payments after the 7-day 'cash' rate period.

Here's How The WEEKENDER WORKS

1. Your ad will run Saturday and Sunday only.
2. Minimum charge—3 lines (approximately 12 words).
3. Must be articles for sale from private parties. Rentals, lost and found, services and ads from business firms do not qualify.
4. Each article must sell for \$25 or less.
5. Copy must contain price of item. Also must contain phone number or address of advertiser. No 'box number' ads accepted.
6. "Weekenders" will be accepted all week for Saturday & Sunday insertion until 12 Noon Fridays.
7. No cancellations.
8. Ads over three lines will be charged at the "Weekender" rate for the first three lines and 16¢ cash and 20¢ charge for each extra line over three.
9. Ads renewed after 2 days will take the regular classified rate.

Science Fair Scheduled at Fox Valley High

10th Annual Event Set March 12, 13 in Building's New Wing

The 10th annual science fair at the Fox Valley Lutheran High School will be held from 6 to 10 p.m. Friday, March 12, and from 10 a.m. to 9 p.m. Saturday, March 13.

This year the exhibits will be displayed throughout the newly constructed science facilities on the north end of the school. Visitors will be able to tour the laboratories, science lecture room, the observatory, and the plant and animal room.

The club's president, senior James Koschmann of Neenah, will display the unusual collection of animals he has mounted with a taxidermist's skill acquired as a project last year. Other individual exhibits will vary from regeneration studies in animals to plant growth stimulators. Various sections of the club will display their projects and also recruit for more members to share in the completing of the projects.

Teaching Aids
The science teacher section has some new teaching aids in the building. The astronomy section showing will be dependent on the weather.

The four students who will receive scholarships to the Trees For Tomorrow Camp will be announced. The scholarships are made possible by the Wisconsin Michigan Power Co.

Luncheon Guests

To give recognition to the 10th anniversary, a luncheon will be held Saturday noon for the exhibitors, past and present officers of the FVL Science Club, and alumni fair winners. This year the judges are FVL graduates who were outstanding science students. Both are now employed in the area.

Students will give their research reports in the science lecture room during the fair on March 13.

Employment Office in City Closes March 11

KAUKAUNA — Council members were informed Tuesday night, the Wisconsin State Employment Service would close its office effective March 11.

The Employment agency utilized a room in the municipal building one-half day per week enabling citizens to file unemployment or compensation claims. A letter from the state director indicated, employment picture is such in Kaukauna that the few claims could be handled through the central office at Appleton.

In filing the notice, Mayor Joseph Bayorgeon informed the council he would object, by letter, to the closing of the office as it was a service and convenience for city residents.

Fire, Possibly From Short Circuit, Damages Appleton Residence

Fire damaged a bed, mattress and bedside table at the home of Mrs. Woodrow Diedrick, 724 W. Third St., about 6:30 p.m. Tuesday. Appleton firemen said the fire may have been caused by a short circuit in a nearby radio.

The fire damaged portions of the bedroom wall and there was considerable smoke damage to the second floor of the home.

Appleton firemen were also called about 3 p.m. Tuesday to the 300 block of E. College Avenue where a car fire had been reported. The fire had been extinguished by the car owner, Gary Sampson, 1564 Plank Road, Menasha, when firemen arrived. A backfire caused the blaze.

James Murphy of the Junior Chamber of Commerce presents awards to winners of the "My True Security" essay contest sponsored by the Jaycees. From left are Murphy, Karen McDermott, Xavier High School, 'B' division winner; Sue Verhagen, St. Mary School, Menasha 2nd place 'B' division; Gayle

Burt, Kimberly, 'A' division winner, and Cindy Freund, St. Mary School, Menasha, 2nd place 'A' division. Murphy was contest committee chairman. Absent from the picture is Kathy Davis, St. Mary School, Menasha, who tied for 2nd place in the 'A' division. (Post-Crescent Photo)

Young Scientists to Show Skills at Lawrence 'Fair'

Winners at April Program Will Present Papers at UW in May

Young scientists in high schools in a 13-county north-eastern Wisconsin area will have a chance to prove their skills in a science fair April 24 at Casper E. Youngchild Hall of Science auditorium on the Lawrence University campus.

Smaller Parish Considered by Diocese Official

If Bishop Grellinger Left Oshkosh, He Would Keep Position

OSHKOSH — Most Rev. John B. Grellinger, auxiliary bishop of the Green Bay Diocese and pastor of St. Mary Catholic

Grellinger

Church here, announced today he is contemplating a transfer to a smaller parish in June.

This does not involve a change in his duties as auxiliary bishop of the Green Bay Catholic Diocese, he added.

Bishop Grellinger, who is 65 years old, came to St. Mary Building Inspector Charles A. Magnette said he discussed the "Church here 11 years ago to serve one of the largest parishes in the diocese. He opposed today he would like the opportunity to serve a smaller parish.

Milwaukee Native

A native of Milwaukee, Bishop Grellinger came here from Oconto where he had served St. Joseph's parish for five years.

He was at St. Francis Seminary, Milwaukee, before the Oconto appointment.

He attended St. Francis Seminary in Milwaukee for eight years before going to American College in Rome for eight years. He then returned in 1932 to St. Francis Seminary as an instructor and went from there to Oconto.

Bishop Grellinger is in his 36th year in the priesthood.

No Grounds for Action On Lindy's Ambulance

Building Inspector Declares Operation Is From Site Zoned for Local Business

No grounds exist for legal action against Lindy's Ambulance Service with regard to an alleged zoning violation, the Appleton Board of Public Works was informed Tuesday.

In a letter to the board, Building Inspector Charles A. Magnette said he discussed the matter with City Atty. Frederick E. Froehlich.

Ald. Al C. Fischer (15th) introduced a resolution some time ago asking the city to take action against Lindy's Service. He claimed the service is being operated from a residence in violation of the zoning ordinance.

Fischer cited that Larry's Ambulance Service was taken to court recently by the city for allegedly violating the ordinance. The decision in the case is pending.

Fischer's contention was that Lindy's Service, also known as City Ambulance Service, was doing business out of 1825 S. Oneida St., a residence.

Magnette said the garage where the vehicles are stored is at 1335 S. Oneida St., which is zoned local business.

Nothing that the matter was referred to him with the recommendation that whatever action deemed necessary be taken, Magnette declared.

"The matter was discussed with the city attorney on Feb. 24 and it was decided there are no grounds for any legal action."

Magnette said he previously told the owner of the ambulance service, Harold Linzmeier, it is not permissible under the law to use his residence as a business headquarters.

Car With Guard Rail Stuck in Grill Makes Policeman Suspicious

An automobile which was stalled in the middle of an Appleton intersection while its driver was examining a two-foot piece of guard railing stuck in the grill, aroused the suspicions of an Appleton policeman early today.

The driver, Ronald Hahn, 2721 N. Bennett St., told the policeman he collided with a bridge railing on U.S. 41 at Lake Butte des Morts. He said he was driving from Oshkosh to Appleton when the accident occurred.

The Appleton policeman turned the information over to Winnebago County authorities who are investigating.

Giddings-Lewis Sets 15-Cent Dividend

Directors of Giddings & Lewis Machine Tool Co. have declared a dividend of 15 cents per share to be paid on March 30 to stockholders of record March 15. The firm operates a division at Kaukauna.

The firm earned \$1,048,228 on total shipments of \$29,933,890 for 1964. This compares to earnings of \$766,331 on shipments of \$24,459,823 during 1963. Earnings per share for 1964 were \$2.14, city would attempt to secure easements from property owner for proposed sanitary sewer installation.

A special assessment of \$2.50 per running foot would be made. The city would agree to remove

North Central Can Continue Using Old Outagamie Port

Civil Aeronautics Board Refuses County Request to 'Clarify' Ruling, Forcing Move to New Facility

Special to The Post-Crescent Jan. 21 "status quo" ruling by the board.

WASHINGTON—North Central Airlines does not have to serve the Fox Cities at the new Outagamie County Airport.

The Civil Aeronautics Board (CAB) Tuesday refused Outagamie County's request to "clarify" its Jan. 21 order on North Central service and, in effect, to approve commercial use of the new \$3.8 million airport in the Town of Greenville, west of Appleton.

As a result, if Outagamie County wishes to continue receiving commercial airline service from North Central, the county must continue to operate its old airport in the Town of Grand Chute.

The county's new airport is ready for use. It was completed in mid-January and its main runway, 5,200 feet long, is to be completed. Also available at the new airport are hangars, a terminal building and navigational aids.

Status Quo
Tuesday's CAB action was a denial of Outagamie's Feb. 8 petition for clarification of the

Appleton Woman Cited By Manpower Firm

For outstanding Public Relations efforts in behalf of Manpower, Inc., during 1964, Mrs. Nancy Greene, manager of the firm's Appleton office, was cited during the organization's area management conference held at the Red Carpet Inn in Milwaukee Feb. 26-28. She received her award from Elmer L. Winter, president of the international temporary help company.

Even in the Reserve, special occasions call for inspections and the occasion is the 50th birthday today of the United States Naval Reserve. The inspection was Monday night at the Reserve Armory on Ballard Road. In the left background are Clifford Hagens, Kimberly, electrician third class, and Daniel Laird, Hortonville,

Appleton Planning Major Annexation Of 95-Acre Tract

Council Authorized \$145,000 for Land Immediately North of City

Appleton's first major annexation in two years is the 95-acre tract just north of the city, purchased recently by the city council.

It was obtained from Mr. and Mrs. Carl Langedyke for \$145,000. The board of public works, meeting at the city hall Tuesday, decided to contact other property owners in that area before starting annexation proceedings.

Property Owners
Mayor Clarence Mitchell was authorized to send a letter to property owners surrounding the city-owned land to see if they would like to annex to Appleton at this time.

The entire area is presently in the Town of Grand Chute. The property involved is the 95-acre tract just north of the city, purchased recently by the city council.

Property owners coming into the city under one major annexation proceeding would be eligible for municipal services.

Public Works Director Robert W. Bues told the board he thought the scheduling of a meeting for all interested parties would be "most informative."

As a result, the board set next Thursday at 7:30 p.m. as the time in the council chambers of the city hall.

Property owners neighboring the Langedyke property will get a letter sometime this week informing them of the meeting. "Before commencing the legal proceedings for annexation, we encourage and welcome your attendance at a meeting being scheduled to answer any questions you may wish to ask regarding the proposed annexation," the proposed letter says.

Subjects to be covered will be extension of sewers and water mains, extension of Capitol Drive, service roads, other streets, costs of assessments and other matters.

Mayor Mitchell emphasized today that next meeting "will be informational only so city officials can answer questions of its neighbors."

After conducting its regular business, the board went to look at the Langedyke property.

Naval Reserve Marks Birthday

50th Anniversary; Open House Planned At Center in April

More than 100 Fox Cities Naval Reservists are joining half a million others associated with the service in observing the 50th birthday of the United States Naval Reserve today.

Lt. Comdr. Dean J. Hewitt, commanding officer of the Naval Reserve training facility at 1824 Ballard Road, said today a public open house at the Naval Reserve training facilities in the Armed Forces Reserve Center is scheduled in April. It is part of a year-long series of national and local special events to commemorate the anniversary.

Two Fox Cities reservists will participate in a special all-Wisconsin training cruise March 14. Adrian Van Der Burgt, Combined Locks, radioman first class, and Donald Daleiden, Appleton, seaman apprentice, have been assigned to the two-week cruise from New Orleans to Norfolk, Va., on a reserve destroyer.

The Naval Reserve was established as a federal organization in 1915. There currently are 550,000 persons associated with Naval Reserve with 50 Naval Reserve training ships and 226 Naval Air Reserve squadrons.

Jet Plane Isn't Best Shelter for Runaway Youths

Three 14-year-old runaways are back in a Green Bay home for children after spending a cold and wet night in a jet airplane near Appleton Tuesday.

Appleton police said two of the youths were taken to the police station early this morning after they were found waiting along city streets.

The third youth came to the police station about 7:30 a.m. and turned himself in.

The youths, who had run away from the St. Joseph Home for children about 7 p.m. Tuesday, hitchhiked to Appleton and spent a major share of the night huddled in the fuselage of the jet airplane, on display at the American Legion clubhouse, 3220 W. College Ave., west of Appleton.

Two of the youths became cold, they said, and walked into Appleton where they were seen, Roberts: Milton Neshek, picked up by police. The third Elkhorn; Robert L. Pierce, said he left the jet plane sometime after 1 a.m. and spent the remainder of the night in a gasoline station restroom.

Police said all three youths were covered with mud and their clothes were damp.

Dr. Gerald McMurtry, nationally known expert on Lincoln lore, addressed Appleton Northside Kiwanis Club Tuesday. Here McMurtry, third from left, talks with Myrl Leadon, president; Raymond Parkinson, program chairman,

and Joseph J. Ott, Appleton Lincoln National Life Insurance representative. The insurance company sponsored McMurtry's appearance here. (Post-Crescent Photo)

Mental Retardation Tests

Valley Doctors Questioning Cost of Administering Health Care Plan

NEENAH — The cost and reasons for setting up the PKU to keep records and inform performance of tests in a laboratory approved by the state board of health provision in the Senate Bill 92 which, if passed, will make mandatory tests for phenylketonuria (PKU) and other causes of mental retardation may be the two factors which will defeat the bill.

Members of the Fox Valley medical profession are asking, based on interviews, why the bill will cost \$46,096 from July 1, 1965 to Dec. 31, 1965 and \$76,826 annually thereafter if enacted.

The second major concern is why the tests to be performed "shall be determined by the state board of health and shall be performed in a state laboratory and such other laboratories as the state board of health approves for this purpose," as provided in Senate Bill 92.

The bill is now in Senator Chester E. Dempsey's Committee on Public Welfare and Senator Dempsey was not available to determine when the bill will be presented to the legislature for action.

Services Listed For 3 Churches In Kaukauna

Catholics Opening Lenten Season With Masses, Ashes

KAUKAUNA—Special Lenten services have been scheduled at the three Catholic churches in the city with distribution of ashes today to make the opening of the penitential season.

At Holy Cross Church an evening mass will be read at 7 p.m. on Mondays, Wednesdays, Thursdays and Fridays and a 6:30 p.m. mass on Tuesdays and Saturdays.

Perpetual Help devotions will be discontinued for lent and stations of the Cross will be recited on Sunday afternoons with times to be announced in the parish bulletin. Ashes will be distributed after the 7 p.m. mass tonight.

Schedule Changed

St. Mary Church has changed the mass schedule to 6, 7 and 8 a.m. during lent. Ashes will be distributed following the 7:30 p.m. stations tonight. Stations will be recited at 7:30 p.m. on Fridays.

St. Aloysius parish will have lenten masses at 6 p.m. on Wednesdays, Thursdays and Fridays throughout lent with a 15-minute sermon on Wednesday. Stations will be at 2 p.m. Sundays and 3 p.m. Fridays. Ashes will be distributed after the 6 p.m. mass today.

Auditions Set For Lions Club Variety Show

KAUKAUNA — Over 30 acts have signified interest in participating in the Lions Club sponsored Variety Show to be presented in the Civic Auditorium March 27 and 28.

Auditions for the acts will be held at 8 p.m. Thursday and 2 p.m. Sunday in the Kaukauna High School auditorium. Acts which have not signed to participate, but would be interested in participating, can attend either audition. Acts from Kaukauna are asked to report Thursday if possible.

Judging the acts will be Mrs. Kenneth Roloff and Mrs. Howard Sprenger. Groups from Neenah, Kimberly, Little Chute, Appleton and Kaukauna have signed for auditions. Proceeds from the show will be for Lions charities.

Effects of Alcoholism Topic for K of C

The Rev. Gerald Falk of St. Mary Catholic Church will discuss the effects of alcoholism at a lecturer's night meeting of the Council 607, Knights of Columbus Thursday.

Father Falk studied alcoholism and its effect on faith and morals while a student at St. Paul Seminary, St. Paul, Minn. He has been at St. Mary for 5 1/2 years.

Demonstrator Ordered To California Jail For Contempt of Court

BERKELEY, Calif. (AP) — Mario Savio, leader of a University of California political advocacy sit-in Dec. 23 that drew 60 arrests, was ordered to jail Tuesday for contempt by a judge Savio said was guilty of shameful hypocrisy.

Savio was among 442 persons, mostly students, who waived their right to jury trials before Judge Rupert Crittenden in municipal court. Two students demanded trial by jury.

When Savio's turn came up and he waived jury trial, the judge asked Savio if he understood what he was doing. The 2-year-old philosophy major from New York City replied: "I fully understand the shameful hypocrisy to which his court is now reduced."

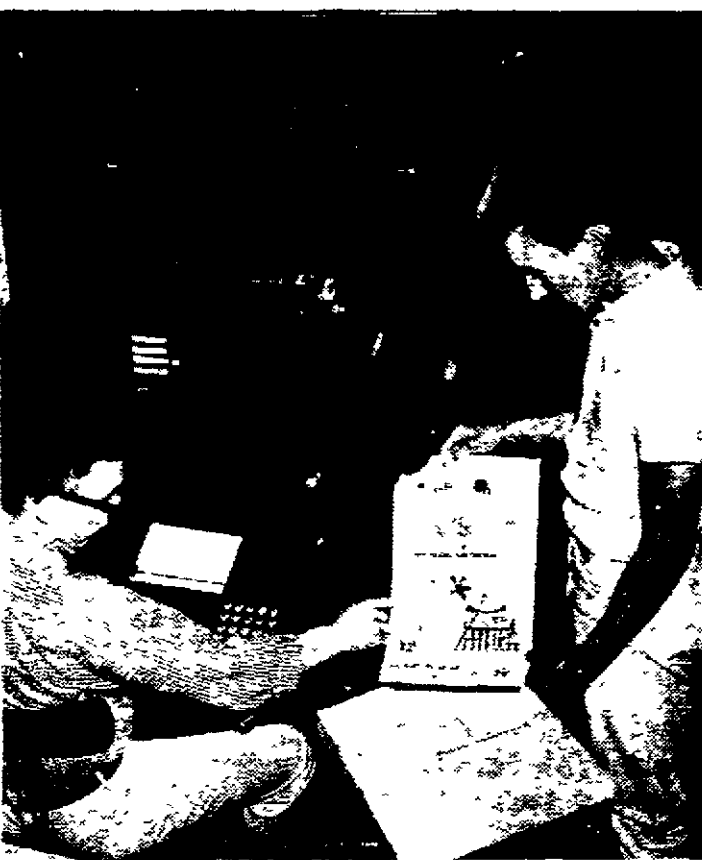

Housewives Happy With Choice of Mayor

CITERNA, Italy (AP) — Housewives in this central Italian town are convinced that they made the right choice in electing a woman, Flora Volpin, as mayor.

Her first official act Tuesday was to install four new washing machines in a public site tree to all. Many of Citerna's housewives have done their washing along the banks of streams.

Fifty Men From the Fox Cities area attended the Plumbing Institute Tuesday night at Menasha Vocational and Adult School. William A. Lally, director of field service engineering, hydro-mechanics division of Zurn Industries, Inc., Erie, Pa. was the speaker and conducted the demonstration. From left are Lally; Fred J. Barr, vice president of Zurn Industries, Inc., Chicago, Ill.; John Casey, Zurn Industries, Inc., Milwaukee, and James Packer, circuit instructor for plumbers, Wisconsin Vocational Schools, Sheboygan. Has 97 Patents Inventor Wants Regard Given His Profession

BY PHILIP J. KEUPER

NEW YORK (AP) — Inventor shouldn't be regarded as a profession?

Theodore A. Rich, who has 97 as a profession? patents, says it's time that invention was regarded as a profession instead of a joke.

"People think of an inventor as a kind of nut who sits in his attic dreaming up gadgets," Rich says. "A professional inventor doesn't even rate a title as such in industry."

Rich, a senior engineer at General Electric Co. advanced technology laboratories at Schenectady, N.Y., is one of the most prolific inventors in the company's history.

In addition to patents already granted, he has about 12 more pending. Now 59, Rich has averaged more than two patentable inventions a year since he was a 12.50-a-week technician at GE's Lynn, Mass., laboratory in 1926.

His inventions have ranged from a World War II submarine detector to a device for keeping electric clocks on time. Most have been complex measuring devices for gauging radiation, its electric current and the size and electrical charge of air particles. His work with air particles, he says, has gained him wide recognition years I've had a job for which I was trained," he says. "The Rich said in an interview that he feels industry should encourage development of more ideas like himself — researchers who are essentially inventors rewarded rather than technical experts. Like all inventors, Rich has while invention in industry of tried his hand at household gadget heading of research and development, he feels there is too much emphasis on putting down facts together.

Inventors' Business

"In a company like ours," Rich says, "about one-third of our products weren't even thought of 15 years ago. Now if hard it broke the glass," said that much of our business Rich.

Fasting Begins Today Catholics Start Lent With Ashes Imposition

Catholic churches in the Fox Villages have scheduled special Lenten services and distribution days of ashes to mark the opening of the Lenten season today.

At St. John Catholic Church, the Lenten season today. Combined Locks, will have masses at 7:30 a.m. and 4 p.m. Little Chute, ashes will be distributed at 3 p.m. and after throughout Lent and at 7:30 special devotions at 7:30 p.m. The 7:30 p.m. Wednesday services will continue throughout the season. Stations of the Cross will be recited after the 8 a.m. mass on Friday and at 11 a.m. Friday throughout Lent.

Distribution of ashes at Holy Name Catholic Church, Kimberly, will be held after the 4 p.m. stations today and the 7:30 p.m. mass this evening. Stations will be recited throughout Lent at 4 p.m. Wednesdays and at 2:30 and 7:30 p.m. Fridays.

A 4:30 p.m. mass will be recited Mondays, Tuesdays, Wednesdays, and Fridays during Lenten season today.

Stations will be said at 7 p.m. Wednesdays followed by a series of demonstration masses by the Rev. Hilary Smits. Ashes will be distributed before and after masses and stations today.

Underground Blast Planned

NEVADA TEST SITE, Nev. (AP) — The Atomic Energy Commission planned today to touch off the largest underground nuclear explosion ever fired in the United States.

Officials described the test as one of "intermediate yield," meaning between 200 and 1,000 kilotons.

The largest previous underground test in this country was a hydrogen bomb detonated Sept. 13, 1963 with a yield of 200 kilotons, the AFC reported.

Club secretaries are invited to call or write the reference department of the library (Regent 4-7171) and tell the names of the club officers, the regular meeting date, and the time of year when officers are elected.

It is hoped that once a sizeable file of such information is collected it will be possible to schedule organization meetings with some certainty that the best possible date, from the point of view of avoiding conflicts, has been chosen.

All types of organizations are invited to submit information. Bebeau stated, in order to make the final result as inclusive as possible.

Strong Explosion In Siberia Noted

UPPSALA, Sweden (AP) — A strong explosion in the Semipalatinsk area of Siberia was registered by the Seismological Institute today.

The registration at 7:21 a.m. pointed to an underground explosion about 2,400 miles due east of here. The magnitude was only slightly less than that of Soviet nuclear tests made last year at the Semipalatinsk test site.

That means not over 100 kilotons of TNT. A kiloton is 1,000 tons.

FDA Restricts Sale of Nasal Inhalers; Misuse for 'Kicks'

WASHINGTON (AP) — Methamphetamine inhalers, that in 1959 FDA received reports of only six cases involving misuse of methamphetamine, now are restricted to sale by prescription only, the Food and Drug Administration announced.

FDA said the action was taken because of widespread abuse of the products by persons who extract the active ingredient from the inhaler "wick" and use it for the amphetamine-like effect — to get a kick.

The restriction was made effective in a policy statement published in the Federal Register Feb. 10. A previous policy in February 1959 placed similar inhalers containing amphetamine on the prescription list because of widespread abuse.

George P. Larrick, commissioner of food and drugs, said that in 1959 FDA received reports of only six cases involving misuse of methamphetamine, now are restricted to sale by prescription only, the Food and Drug Administration announced.

Reports of misuse, he said, came from Colorado, Illinois, Iowa, Kentucky, Kansas, Missouri, Nebraska, Oklahoma, and Texas and Indiana.

Larrick pointed out that amphetamine tablets — also called "pills" — are sold legally by prescription only but that there Memominee County face.

"In addition to whatever help can be obtained from the Office of Economic Opportunity, there is a definite need for Congress to enact legislation to provide full use of the powers it already declared.

Menominee Aid Bill Set

Congressman Laird, Sen. Nelson to Join On Fund Proposal

BY FRANCES McKUSICK

WASHINGTON — Legislation providing funds for raising the health and education standards of Menominee County will be introduced on both sides of the capital in the near future, Rep. Melvin R. Laird, R., Marshfield predicted today.

The congressman said that he and Senator Gaylord Nelson have been working together on the development of legislation which will "assist the Menominees through their difficult transitional period by appropriating funds for the Department of Health, Education and Welfare to be transferred to the State of Wisconsin for aid to Menominee County."

Although amendments to the Appalachia bill which will be offered on the House floor today which would have extended benefits of that measure past the boundary lines of the Eastern Appalachian territory to include economically hard-pressed counties such as Menominee County, it is virtually certain these amendments will be defeated.

Special Legislation

Stating that he would support these amendments, Laird added that since they probably will be defeated, "Senator Nelson and I will push vigorously for passage of the special legislation we have developed to aid Menominee County."

Laird also explained that the efforts of the Office of Economic Opportunity in sending a team to Menominee County this week to assist the county board in submitting a formal application for federal assistance through the poverty program was a "beginning," but that it didn't touch the "heart of the problem which the citizens of Menominee County face."

"In addition to whatever help can be obtained from the Office of Economic Opportunity, there is a definite need for Congress to enact legislation to provide full use of the powers it already declared.

Stock Market Rise Irregular
 6 Million Share Pace Attained in Morning Trading

NEW YORK (AP) — Selective strength in airlines and electronics highlighted an irregularly rising stock market early this afternoon. Trading was heavy.
 It looked as if volume for the day would go well over six million shares, judging by the pace in the morning.
 Buying was concentrated in a relatively few favored issues, however, and there was evidence of considerable profit taking as the barely interrupted uptrend of the past couple of weeks continued.
 Makers of color television sets were spurred by a published report of booming sales in that field.
 Traders again were attracted to some airlines, both on the basis of rising profits and on a technical basis.
 Farm implements, electrical equipments and utilities showed a slightly higher trend but most major groups were thoroughly mixed.
 The Associated Press average of 60 stocks at noon was up .6 at 335.4 with industrials up .5, rails up .2 and utilities up .6.
 The Dow Jones industrial average at noon was off .24 at 901.67.
 The averages were braked by a 1-point loss of Du Pont and fractional declines among such stocks as General Motors, Eastman Kodak (ex dividend) and Sears, Roebuck.
 Many leaders were unchanged.
 Thiokol added more than a point in further response to success of a rocket engine and to its price chart breakout.
 Among the color TV makers, Zenith climbed nearly 2, Motorola well over a point.
 IBM lost 1. Xerox rose 2.
 Prices were generally higher in active trading on the American Stock Exchange.
 Corporate bonds were mixed. U.S. government bonds firmed.

Patrolman Is House Mother
 Parents in Crash, Policeman Gets Boys Fed, Off to School

Outagamie County Traffic Patrol Capt. Ronald Decker today was "mother" for three grade school boys whose parents were injured in a two-car accident in Kimberly.
 While Kimberly police investigated the accident, Decker was sent to the home of Mr. and Mrs. Kenneth Hoffman, 5421 N. Richmond St., to supervise feeding and clothing of the three boys who were awaiting their mother's return before getting ready to go to school.
 Decker said Mr. Hoffman was taking her husband to work in Kimberly when she was involved in the accident on the Kimberly bridge. She is being treated for injuries at St. Elizabeth Hospital. Her husband was treated and released this morning.
 With the help of neighbors, Decker said the three grade school boys were fed and dressed in time for their ride to the St. Edward School in Mackville.
 Decker said he also made a routine check to see if the furnace was fired and the gas on the stove was turned off before he left the home. He then contacted Mrs. Hoffman at the hospital to inform her the children were on the way to school.
 The Hoffman car was involved in a collision with a car being driven by Mrs. Clarence Roemer, 316 E. First St., Kimberly. All were taken to the hospital by Larry's Ambulance Service.

Plan Subdivision With Airport Tie-in

OXNARD, Calif. (AP) — Developers plan a space-age subdivision here for flying businessmen.
 Besides the usual garage, each home will have an attached aircraft hangar. There'll be taxi strips leading to Ventura County Airport just south of the luxury development.

The averages were braked by a 1-point loss of Du Pont and fractional declines among such stocks as General Motors, Eastman Kodak (ex dividend) and Sears, Roebuck.
 Many leaders were unchanged.

 Hogs — 25 cents high. Butchers weighing 200-240 lbs. 16.25 to 17.75, top 18; sows 11.50 to 14.75; boars and stags 10.25 to 11.50.

Correction

Ash Wednesday services with communion will be at 7 p.m. today at Riverview Lutheran Church (Wisconsin Synod), 136 W. Seymour St., rather than 7:30 p.m. as stated in Tuesday's Post-Crescent.

KVS Driver Education Class Set for Adults

KAUKAUNA — A class in driver education for adults will get underway at 7 p.m. March 16 at the Vocational and Adult School, according to Dominic Bordini, school director.
 Classroom phase of the school will run for eight weeks on consecutive Tuesdays. Behind-the-wheel training will be scheduled individually. Persons wishing to enroll or seeking information on the class are to call the school office.

In making the announcement Tuesday, the CAB said it "saw no need" to clarify its Jan. 21 order.

Both North Central and Winnebago County vigorously objected to Outagamie County's appeal to the CAB for permission to operate the new airport for commercial service.

Forced to Open
 Supv. Mark Catlin, an Appleton attorney and county board supervisor who is chairman of the county airport committee, said earlier this week that if the CAB's decision is adverse, Outagamie County may be forced to open the new airport anyway.

The third-level operation would not come under CAB control, since its planes would be under 12,500 pounds gross weight. However, the airline would be bound by the same Federal Aviation Agency (FAA) safety requirements that apply to regular trunk and feeder airlines.

Outagamie County can keep its new 3.8 million airport closed and continue to operate the old airport. This way North Central service would be continued at least until the U.S. District Court makes its decision.

The loss of North Central service.

In a related matter, a group of Appleton businessmen is rapidly progressing in their plans to begin operations of a new third-level airline which would link the Fox Cities with Milwaukee and Chicago and in addition provide service to other Wisconsin communities such as Clintonville, Fond du Lac and Sheboygan.

The third-level operation would not come under CAB control, since its planes would be under 12,500 pounds gross weight. However, the airline would be bound by the same Federal Aviation Agency (FAA) safety requirements that apply to regular trunk and feeder airlines.

North Central Can Continue Using Old Port

CONTINUED FROM PAGE 1

ceased passenger and freight usage.

But Tuesday's CAB ruling denies Outagamie County that right.

Present Situation

As matters now stand, Outagamie County can open its new airport and close the old airport. This means no North Central Airlines service; or

—The county can operate both airports — the new airport for general aviation and the old airport just for North Central.

Outagamie County can keep its new 3.8 million airport closed and continue to operate the old airport. This way North Central service would be continued at least until the U.S. District Court makes its decision.

In making the announcement Tuesday, the CAB said it "saw no need" to clarify its Jan. 21 order.

Both North Central and Winnebago County vigorously objected to Outagamie County's appeal to the CAB for permission to operate the new airport for commercial service.

Forced to Open
 Supv. Mark Catlin, an Appleton attorney and county board supervisor who is chairman of the county airport committee, said earlier this week that if the CAB's decision is adverse, Outagamie County may be forced to open the new airport anyway.

The third-level operation would not come under CAB control, since its planes would be under 12,500 pounds gross weight. However, the airline would be bound by the same Federal Aviation Agency (FAA) safety requirements that apply to regular trunk and feeder airlines.

Kaye Spoofs String Music In Ensemble

BY TV SCOUT
9-10 (Channel 2) — The Knockwurst String Ensemble, playing 18th-century chamber music as it never has been performed before, is the starting opening for The Danny Kaye Show. A wild spoof, with Danny as a cellist whose socks keep falling down, it's a devastating prelude to the zany things to come.

6-30-8 (Channel 5) — Fans of Randy Boone on The Virginian better get their handkerchiefs ready for the "Legend for a Lawman." The poor boy seems destined for a fate far worse than that of Tom Dooley. Not only are the gallows awaiting him after he is duped into aiding some nasty critters rob a bank, but also his reputation for being an honest, square shooter is fleeing, too. Only the Virginian (James Drury) is on his side. (Color)

7-7:30 (Channel 2) — My Living Doll has another routine session in which Julie Newmar gets an opportunity to be something else besides a robot. This time, and quite fittingly, she turns up as a mannequin to replace Peter's girl in a high-style Paris fashion show.

7-7:30 (Channel 11) — "Will The Real Sammy Davis Please Hang Up" on The Patty Duke Show is another episode in which Patty surprises her Brooklyn Heights school chums with her ability to swing a swinging star into performing at the Junior Prom.

7-30-8:30 (Channel 11) — Shindig is at its rollicking, noisy best again. Emphasis is still on the British sound with the shaggy, scruffy Rolling Stones as the headliners. Others: Freddie and the Dreamers, Bobby Sherman, Little Eva, John Andrea, Suzy Kaye, Roy Clark, Joe Tex and Johnny Tillotson.

8-8:30 (Channel 2) — Parents especially will be amused by The Dick Van Dyke Show which exploits an all-too-familiar problem: what do you do with your son when he gets beat up by a little girl?

8-10 (Channel 4-5) — "Fancy Pants" on Wednesday Night at the Movies is a deft, screwball comedy designed for the particular talents of its stars — Bob Hope and Lucille Ball. A 1950 Paramount release. (Color)

8-30-9:30 (Channel 11) — Burke's Law comes up with one of its typical outings with "Who Killed Mr. Colby in Ladies' Arcangelo Corelli: 'Sonatina for Violin and Harpsichord' by Walter Piston: 'Sonata in G Major, Op. 30, No. 3 for violin and Piano,' by Beethoven; and 'Sonata Op. 11 for Violin and

Richard McComb and Joyce Henry of the Milwaukee Skylight Theatre sing a clever little ditty from the Gilbert and Sullivan operetta "Pirates of Penzance," coming to Appleton Friday and Saturday. The two performances will be at 8:30 p.m. Friday and 2 p.m. Saturday at Madison Junior High School.

Lawrence Couple to Give Sunday Recital

Kenneth, Barbara Byler to Share Stage in Violin, Harpsichord-Piano Program

Kenneth Byler, Lawrence Piano (1949)," by Gottfried University associate professor Einem. Byler joined the faculty in 1948 after teaching at Kansas Wesleyan University and Kent State University.

He earned a B.M. degree at the American Conservatory, Chicago, and an M.M. degree at the University of Michigan. He also studied at the Julliard School of Music.

His violin teachers were Scott Willis, Edouard Dethier and Max Rostal. His study with Rostal came in 1962 while on a Lawrence faculty research leave. It included both private and international master classes. He also studied composition and orchestration with Leo Sowerby, and conducting with Edgar Schenkman and Thor Johnson.

Heads 2 Orchestras Byler is conductor of the Lawrence Symphony and Chamber orchestras. The Symphony was last heard in a program commemorating the opening of the remodeled Lawrence Chapel in November. The Chamber Orchestra performed in February with a group of string players from the Appleton Public Schools.

Byler is particularly active in music education circles. The Chamber Orchestra concert was the culmination of a string-advisory program he had undertaken with the school musicians. He is a member of the Wisconsin Music Teachers Association, and has served as its secretary, vice president and president.

A member of the American String Teachers Association, he served as publications chairman for eight years, and helped organize its Wisconsin association. He was the state group's first president. He also holds membership in the Music Teachers National Association.

Peninsula Group For 12 of the last 13 summers, he has been a member of the Peninsula Music Festival Orchestra, Ephraim, under Thor Johnson. Last spring he played the premiere of a 1963 "Concerto for Viola and Orchestra," composed and dedicated to him by a former student, Eloy Fomina. The performance was given with the Twin City Symphony of Monroe, La.

Byler last played here in February, 1964, when he appeared as soloist with the Chamber Orchestra in a memorial performance of the "Music of Mourning for Viola and Strings," by Paul Hindemith.

Mrs. Byler received a B.M. degree from Oberlin, and did advanced study at Julliard. She taught at both schools while studying, and was on the faculties of a conservatory at Grand Island, Neb., and Kent State. While in New York, she played extensively with chamber music groups and as an accompanist.

Organizations Both the performers are members of Pi Kappa Lambda, national honorary music group. Mrs. Byler has also been a patroness of the Lawrence chapter of Sigma Alpha Iota, women's national professional music sorority.

Byler describes the opening Corelli sonata as "a summary of the composer's various technical devices" for the violin. Corelli's use of the harpsichord, as in the Piston sonatina, is comparatively unique in string sonata literature.

Piston describes the effect as "comparable to an etching in that it is concerned with expression through line and design," rather than through the more romantic tonality achieved by the piano's use.

'Champagne' Sonata The Beethoven sonata, one of a set of three written in 1802

Movie Times
Appleton—(now playing) The Girl With the Green Eyes at 6:10, 8 p.m. and 9:45.

Promise, Achievement Share Artists Concert

BY JAY JOSLYN
Post-Crescent Staff Writer

Promise and achievement split the second annual Fox Valley Artists Concert at the University of Wisconsin Fox Valley Center Tuesday night.

The promise was represented by the young Neenah High School string ensemble and the Harold Keen Family of Neenah. The achievement was demonstrated by the Fox Valley Madrigal singers and the Lucy Heoerg quartet.

Franklin Doverspike, head of the center music department, explained in the program, "In every community there are musicians who meet regularly to play or sing for the joy of making good music and to keep alive their own musical ability and appreciation. Since many of these groups are non-professionals, at least in the sense that they do not earn their livelihood from their music, they often do not have an opportunity to share their talents in a concert situation." That situation was provided by the Center's Fine Arts Club.

The young string ensemble made up of Kathy Angermeyer, Linda Schubert, Pat Schroeder and Alice Dunwiddie, violins; Judy Erickson, viola; Kris Peterson, cello, and Nancy Corr, bass, featured Nancy Howe on piano in "Dream of Olwen" by Charles Williams and oboist Lauri Anderson in Handel's Oboe Concerto No. 3 in G Minor. The Cesar Frank "Gothic Suite" concluded their section of the program. The youngsters must be the pride of

their teachers. Their development is remarkable.

The Keen family sang three religious songs and the popular "Dominique." Mrs. Keen was the accompanist and Keen and plates remain in force as long as his three daughters, Sue, Kathy and Janet, provided the singing. The obvious fun the family had in its presentation should encourage similar activity in other families.

Doverspike's madrigal singers included himself, Marcia Laflin, Sue-Ann Captain, Frances Boltz, Karen Sather, Robert Klapper and Bud Falk. The ensemble is well trained and its presentation of ancient songs revealed the beauty of this musical literature.

Concluding the program, the popular and exceptionally gifted string quartet revealed continuing growth in excellence in its exposition of the Samuel Barber "Opus 11" whose molto adagio movement demonstrated the unity of voice which is the goal of all string ensembles.

The valley is particularly lucky to have such an ensemble whose achievement also contains promise of even finer accomplishments. The quartet is composed of Mrs. Heiberg Peterson, cello, and Mrs. Evelyn E. Wilke, violins; Mrs. Lucile R. Orbison, viola, and Mrs. Virginia M. Smith, cello.

Bobby Baker Case Testimony Called Not Believable

WASHINGTON (AP) — Democratic senators have stamped "unworthy of belief" the secret testimony of a key witness in the Bobby Baker investigation — and made that the epitaph of their long and stormy inquiry.

That judgment was based on a Justice Department report of all sorts of congressional odds and ends which had accumulated over the 20 years Byrnes has served in the House.

The congressman during that time had one room for himself, while the second one doubled in as a reception room, a research laboratory, library and secretarial offices. His top Administrative Assistant, William M. Gage, could only be reached through the use of a road map which directed one through a labyrinth of room dividers in the form of book cases, filing cabinets, desks, and stacks of papers to a small cubby-hole cage called his office home.

Now located at Suite 2206, Byrnes and his staff have charged investigation be sent to lavatory rooms, including a reception room, and one for the congressman.

Ask Change In Licensing Of Bicycles

KAUKAUNA — The police department Tuesday asked council members to eliminate the necessity of replacing bicycle licenses every two years.

Harold Engerson, chief of police, proposed existing license plates remain in force as long as the licenses are in good, eligible condition and the bicycle is not sold. Undated licenses would be issued hereafter.

Engerson felt this would eliminate much added work for the police department every two years for a service which brought no revenue into the city. He also proposed bicycles be registered in parent's names.

He felt the department then could pick up faculty bicycles and hold parents responsible for putting them in good running condition. Under present conditions, the department cannot take bicycles from youngsters and expect them to repair the vehicles, noted the chief.

A bicycle that was sold would require a new license plate and new registration. His proposal was referred to the public protection and safety committee for study.

Byrnes Moves His Office to New Rayburn Building

Post-Crescent Washington Bureau

WASHINGTON — It is morning today for Rep. John W. Byrnes, R., Green Bay, and his staff.

Much to the surprise of the congressman and his aides, the move from his quarters in the old building to the brand-new Rayburn Building came much sooner than they had dared to hope.

As with most moving ventures, all was confusion for a while.

After all, the congressman's two-room office in the old Cannon Building was stacked with files, papers, records and all sorts of congressional odds and ends which had accumulated over the 20 years Byrnes has served in the House.

The congressman during that time had one room for himself, while the second one doubled in as a reception room, a research laboratory, library and secretarial offices. His top Administrative Assistant, William M. Gage, could only be reached through the use of a road map which directed one through a labyrinth of room dividers in the form of book cases, filing cabinets, desks, and stacks of papers to a small cubby-hole cage called his office home.

Now located at Suite 2206, Byrnes and his staff have charged investigation be sent to lavatory rooms, including a reception room, and one for the congressman.

Let's EXPLORE YOUR MIND

By Sylvanus M. Duvall, Ph.D. and Evelyn M. Duvall, Ph.D.

No, most of them are becoming today's youth? We would like to hear your views.

An open letter in a campus paper says in part, "We are in revolt against the line of the 'new morality'... Sex, violence, lust and godlessness are taking over the nation. When venerable rule by control over the minds of the young American rises 130 per cent between 1956 and 1961, when 13 million complete control dictatorships homes, who is responsible? We some dictatorships (such as the children come from broken cannot long endure. Actually more mature responsibility for many years without such pioneer.

Drivers Hurt Slightly As Auto Collides With Bus at Intersection

Two persons received minor injuries in a car-bus collision Monday afternoon on Franklin at Douglas streets. Police are still investigating the accident.

Appleton police said a car driven by Mrs. Rosanna Doering, 835 E. Atlantic St., heading south on Douglas, was involved in the collision with a Fox River Co. passenger bus driven by Sylvester J. Gregorius, 46, 116 W. Atlantic St.

Mrs. Doering received bruises

and cuts and Gregorius complained of a pain in the left arm. Neither were hospitalized.

Police said the bus went off the street after the collision and hit a power pole and fire hydrant. The Appleton Fire Department was called to stand by while emergency power lines were restored.

The accident occurred about 4:15 p.m. Police did not estimate how many persons were on the bus, and a company spokesman did not know.

Appleton Youth on Ripon Dean's List

Steven A. Hubin, son of Mr. and Mrs. A. S. Hubin, 2343 W. Prospect Ave., a freshman at Ripon College, Ripon, was named to the Dean's List for the first semester. He is one of four students and the only freshman to achieve a 4.00 average for the semester. He is a National Merit Scholar.

Baked Salmon-Rice Salad

Cheese Baked Swordfish

Lake Perch Sandwich

Dapper Dandies of the Deep

By
Lillian
Mackesy

Post-Crescent Food Editor

Some unusually delicious fish dishes for the Lenten season have come this week from the Bureau of Commercial Fisheries of the United States Department of the Interior. This bureau is one of the many busy facets of the federal department . . . its members are all dedicated to the proposition that fish is an excellent food and that commercial fishing as an industry is important to the American economy . . . and ultimately, of course, important to the housewife consumer.

When the home economists of this agency suggest a certain recipe or a specific fish use, it's a reliable nudge to use more fish to its best taste-treat advantage. The fish species have been researched up and down from sea to inland lake and river and back . . . the recipes have been tested and experimented upon from the standpoint of taste, economy and quality.

So here we are today with a large pieces. Combine rice, celery, parsley, olives and salmon. Combine mayonnaise, French dressing, lemon juice and curry powder. Add mayonnaise mixture to salmon mixture; toss lightly. Place in six well-greased 6-ounce casseroles or custard cups. Top each with a teaspoon of mayonnaise. Sprinkle with paprika. Bake in a hot oven, 400 degrees, for 15 to 20 minutes or until heated.

There's the submarine swash-buckler, the swordfish, which cuts a mighty handsome caper when baked under a crunchy cheese topping . . . there's the popular canned salmon dressed up with a rice base, the celery, parsley and ripe olives contributing a touch of color. There's a recipe for Creole Style Haddock, a deliciously different dish. Then there are two perch recipes . . . one featuring ocean perch found in the North Atlantic and caught by New England fishermen and the other the big fat fellows from our own lakes. We call them lake perch . . . featured today in the newest food craze, and a tasty one, the hot fish sandwich.

BAKED SALMON-RICE SALAD

- 1 can (1 pound) salmon
- 2 cups cooked rice
- 1 cup thinly sliced celery
- 1/2 cup chopped parsley
- 1/4 cup sliced pitted ripe olives
- 1/2 cup mayonnaise or salad dressing
- 2 tablespoons French dressing
- 2 tablespoons lemon juice
- 1 teaspoon curry powder
- 2 tablespoons mayonnaise or salad dressing
- Paprika

Drain and break salmon into

- Dash pepper
- 1 cup grated Swiss cheese
- 1/2 cup dry bread crumbs
- 2 tablespoons chopped parsley
- 1 tablespoon melted fat or oil
- Paprika

Thaw frozen steaks. Cut into serving-size portions. Place steaks in a well-greased baking dish. Sprinkle steaks with lemon juice, salt, thyme and pepper. Bake in 350-degree oven for 20 minutes. Remove fish from oven. Combine cheese, crumbs, and parsley. Cover fish with cheese mixture. Drizzle fat over top and sprinkle with paprika. Bake 10 to 15 minutes longer or until fish flakes easily when tested with a fork and topping is lightly browned.

HOT LAKE PERCH SANDWICH

- 1 1/2 pounds lake perch fillets or other small fish fillets, fresh or frozen
- 2 eggs, beaten
- 1/2 teaspoon salt
- Dash pepper

Creole Style Haddock

- 1 1/4 cups dry bread crumbs
- 6 individual Italian rolls
- 1 cup chopped onion
- 1/2 cup mayonnaise or salad dressing
- 1/4 cup drained pickle relish
- 2 tablespoons prepared mustard
- 6 slices tomato, cut in half
- 1/4 teaspoon salt
- Dash pepper

Thaw frozen fillets. Combine egg, salt, and pepper. Dip fish in egg and roll in crumbs. Fry in hot fat at moderate heat until brown on one side. Turn carefully and brown the other side. Cooking time approximately 8 to 10 minutes, depending on thickness of fish. Drain on absorbent paper. Cut off tops of rolls and remove some of the soft center to form a basket. Combine onion, mayonnaise, relish, and mustard; spread on rolls. Place fish in rolls, top with tomatoes, and sprinkle with salt and pepper. Replace tops of rolls. Wrap each roll in waxed paper and place on a cookie sheet 15x12 inches.

'Solo Parents' Program Outlines Purpose, Plans

"A good start" was the phrase used to describe the organizational meeting of a Solo Parents Club recently. There were 17 men and women from Appleton, Neenah, Menasha, Kimberly and Kaukauna on hand for the first session, held at Butte des Moris Junior High School, Menasha. When the meeting was over, some admitted they had come reluctantly, but had acquired enthusiasm as the program was discussed.

The group, affiliated with the YWCA of Neenah-Menasha, which had two representatives at the meeting, discussed purposes and plans at its first meeting, and decided not to elect officers until members were better acquainted.

Solo Parents is open to any single men and women who are rearing children or have visiting privileges, whether they be widowed, separated, divorced or unwed mothers. The program is designed to help teach such men

and women to adjust to their roles and obligations as solo parents; to help them give their children a sense of security in spite of living with only one parent; to help them handle their own emotions, control grief, handle an outside job while maintaining a home, and keep their children feeling loved, cared for and wanted.

Program Plans

To fill this basic outline, the club will have informational and educational programs by people who have knowledge of special problems. These may be guidance counselors, family or marriage counselors or members of the legal and medical professions. It is designed along non-demonstrational lines.

Mrs. Leola Mehlberg, who has been instrumental in working toward the club's organization, asserts the need for such a group. A person who assumes the role of solo parent needs to regain not only social but emotional stability as well. Through the sharing and discussion of common problems, people often gain new insights into their own situations. They learn how others have resolved similar situations, what problems one might expect to encounter, how to avoid certain pitfalls, and gain fellowship with others.

Obvious Need

The need for such a group has been cited by A. R. Eggert of the Outagamie Department of Public Welfare. In 1964 there were 88 divorces in Outagamie county involving children under 18. From October, 1963 to October, '64, there were 178 divorces in Winnebago County. When one adds to these figures the number who became single parents through the deaths of husbands or wives, the number mounts.

Mrs. Mehlberg stresses that the group's purpose is not social, although there certainly will be social benefits. It is not intended for matchmaking.

Pair Weds In Double Ring Rite

WINNECONNE — Wedding promises were exchanged by Miss Amy Jean Jungwirth and Michael L. Nett, 6220 Oregon Street Road, Oshkosh, at 3 p.m. Saturday at First Baptist Church. Omro. The Rev. Kenneth H. Craig officiated at the double ring rite.

The bride is the daughter of Mr. and Mrs. James W. Jungwirth route 1, Winneconne. Parents of the bridegroom are Mr. and Mrs. Raymond Nett.

The bridegroom's sister, Miss Kathy Ann Nett, served as maid of honor, with Donald Jungwirth, brother of the bride, attending as best man. Guests were used by Richard Rost and Benjamin Rost.

After the ceremony a reception was held at the home of the bridegroom.

The couple will reside at 429B Algoma Blvd., Oshkosh.

The bride is employed at the Winnebago County DHA. Her husband works for the Paine Lumber Co.

rather, as a way of sharing, to give single parents friends who understand their problems and to whom they can talk.

Next Meeting

Plans are underway to contact churches and religious organizations, to inform them of the program and to enlist their approval and support.

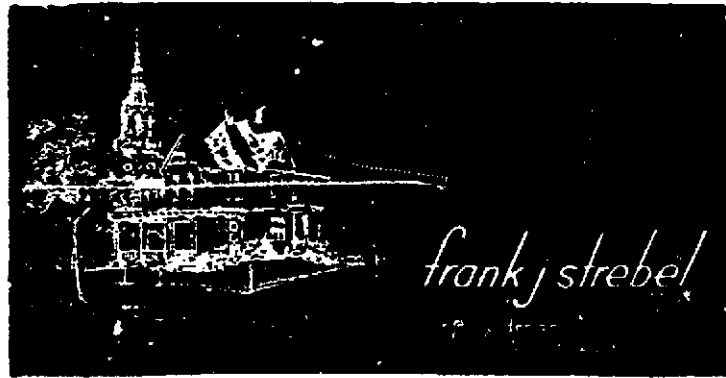

Mrs. Joseph Braun, program chairman of the YMCA, offered the Y facilities in Neenah for the March 16 meeting. Malcolm Kennedy will speak on 'Self-Confidence' and a program will be given by the Kimberlares Chapter of Sweet Adelines, Inc.

Mary Ann Schutt

Pearly Stephens of Franklin, Ohio, found a \$5 bill with part of the printing upside down. An estimate from a bank official in Akron puts the value of \$50,000 on the bill if it is the only one of its kind. The two seals, and the signatures of the secretary of the treasury and the treasurer of the United States are upside down. (AP Wirephoto)

Red Conclave Hits U. S. Action In Viet Nam

18 Parties Demand America Pull Out Of Asian Nation

MOSCOW (AP) — Representatives of 18 Communist parties today assailed the United States for "barbarous bombings" in Viet Nam and creating dangerous new international tension. They demanded an end to the raids and an immediate U.S. withdrawal from South Viet Nam.

The statement stressed Communist unity but Red China and its allies in the Communist ideological dispute did not attend the Moscow meeting. The statement did not speak for them.

The representatives were reported in disagreement on the public line to take toward Communist Chinese opposition to Kremlin policies.

Communist sources said some delegates felt a draft communique presented by the Soviet Union was too conciliatory. They reportedly wanted a clearer statement of opposition to Chinese attitudes in order to combat pro-Chinese splinter groups within their own parties, the sources said.

The delegates met for the third day today.

The sources said the disagreement was relatively mild so far.

Sterilization Biggest Problem for Man in Investigation of Outer Space

LOS ANGELES (AP) — The search for life on other planets is rapidly approaching its highest hurdle, one that man may not be able to clear with present-day technology.

That hurdle — how to avoid contaminating other worlds with earth bacteria and viruses — has cropped up frequently this week at the Unmanned Spacecraft Meeting of the American Institute of Aeronautics and Astronautics.

So tough is the problem that many scientists and engineers are bypassing it temporarily. They have no choice but to go ahead designing spacecraft that will work and assume meanwhile that someone will find a way to sterilize the vehicles before they land on, or even fly through the atmosphere of, other bodies in our solar system.

Difficult Problem

It is difficult enough to sterilize the metal spacecraft itself, simply because of the sizes planned in the next few years. Voyager, which the United States is planning to send to Mars by 1971, may be 20 to 30 feet high and weigh up to 26,000 pounds. Bidding an oven to heat such a vehicle at 300 degrees Fahrenheit for 24 hours — the sterilization standard set by the U.S. space agency — is no simple task.

But it can be done, two General Electric Co. experts, R. W. Wooten and J. B. Tenney, said in papers prepared for the spacecraft meeting. The vehicles will be of metal, and metal can withstand such heat.

Plastic Problems

The real problem, they said in an interview, is in sterilizing plastic electronic parts such as radios, batteries and tape recorders which collect and transmit information necessary before manned landings can be attempted.

Plastics are the best material for such parts because of their light weight and insulative qualities. Plastics are wrecked by high and prolonged heat. They melt, expand and even explode under temperatures the germs they contain can survive.

Plastics contain germs unlike metals, which are formed at temperatures that kill all forms of microscopic life. Many plastics are processed at little more than room temperature.

Crash Landing

Spacecraft designers thus are faced with the possibility that even if they sterilize the outer surfaces of plastic components with chemicals or radiation, a crash landing of meteorite impact might release earth germs to spread across an alien landscape.

Why worry about sterilization? First, no one wants to take the chance of infecting forms of life that may exist on other planets. Second, only by complete sterilization can scientists be sure that any microscopic life found on alien soil was not imported from earth.

Sterilization is so difficult, however, that it has been dropped from both the Ranger and the Mariner programs. Scientists blamed the failures of the early Ranger moon-impact craft on heat damage to electronics during sterilization. The last two Rangers, neither sterilized, were successful. They probably contaminated the lunar surface, but there is little likelihood of any kind of life on the moon anyway.

Mariner 4, launched Nov. 28 toward Mars, was not sterilized for two reasons: Fear of heat damage to electronic parts that must work through the fly-by next July 14; it was not aimed to impact on Mars.

See Passage of Appalachia Bill

Democrats Predict Measure Will Not Be Changed by GOP

WASHINGTON (AP) — House Democrats seemed confident today they could beat back any further efforts to alter the \$1.1-billion Appalachia aid bill. They hope to win passage by nightfall.

Already passed by the Senate, the bill would go directly to President Johnson if there are no House changes.

The administration's top priority measure is aimed at bolstering the economy of 11 states in the Appalachia area.

By overwhelming majorities, Democrats Tuesday battered down five Republican assaults on the measure first proposed by President John F. Kennedy and embraced by Johnson.

Approved Heart

At the end of the day, the House tentatively had approved the heart of the program, a provision for use of \$840 million in federal funds over a five-year period to build new highways and access roads in the Appalachia area.

Remaining for decision were sections for use of \$69 million in federal money for health facilities, \$17 million for land improvement, \$5 million for development of timberlands, \$35 million to restore coal mining areas, \$5 million for water reclamation, \$112 million to increase existing federal aid, \$5.5 million for administration of research and demonstration projects, and \$2.2 million for commission expenses.

Business Boom is Entering 5th Year

Upward Trend Will Set Record If It Continues Until May; Unprecedented Gains Reported

WASHINGTON (AP) — The astonishingly durable business boom, entering its fifth year this week, will become the longest peacetime expansion in history if it continues into May.

If that happens, only the World War II boom, 6 years and 8 months, will surpass the current expansion.

In April the present boom will have lasted 50 months — exactly the duration of the slow, low-grade 1933-37 climb from the depth of the Great Depression. That upward struggle, hardly an expansion at all, ended with 10 million still jobless.

Big Gains

By contrast, the 48 months just ended have brought unprecedented gains in production and incomes, virtually without inflation, while reducing unemployment from 67 per cent to 4.8 per cent.

By an almost equally striking contrast, the steady 1961-5 growth has been virtually free of the inflation which marred the 80-month World War II boom.

Secretary of Commerce John T. Connor Tuesday rejected the possibility of any early downturn.

The economy is marching ahead smartly, he said, paced by massive output of steel and autos.

Discounted Fears

Connor discounted fears of a slump after midyear. Many suspect this might occur if industry's massive build-up of steel inventories, as a hedge against a steel strike, is followed by a sudden halt in buying because of a quick wage settlement.

Oversized steel inventories will have less impact than in past years of strike threats, Connor said because of the rapid rate of consumption this year.

The secretary broke another bit of good news. Planned industry outlays for plant and equipment this year will be \$2 billion to \$3 billion bigger than previously estimated. A new private survey indicates a 12 to 14 per cent rise this year, Connor said, instead of the 8 per cent foreseen a few months ago.

Connor's optimism reinforced the official view that the recovery will last into 1966. Whether it also can endure through 1967, and thus erase even the wartime record for sustained growth, remains to be seen.

Indonesia Will Take Over U. S. Rubber Plants

'Management' Move Described by West As Confiscation

JAKARTA, Indonesia (AP) — Reports today from North Sumatra said the Indonesian government would formally take over American rubber plantations there valued at \$80 million.

Government officials in Jakarta described the action as a "management takeover." But Western diplomatic legal experts said it was a confiscation, and that the term was not being used so the Indonesian government could reject any claims by the American owners for compensation.

The plantations are owned by Goodyear and the U.S. Rubber Co. They have an area of about 170,000 acres and include two hospitals, a rubber mill and several other buildings.

Reports from Medan said all American management authority would be surrendered to new Indonesian managers.

Signed Decree

Foreign Minister Subandrio signed a decree Feb. 26 authorizing the takeover. U.S. Ambassador Howard P. Jones during the weekend tried to see him to get a clarification of the action, but Subandrio left Monday for Cambodia with President Sukarno without granting the ambassador an interview.

The Indonesian Communist party spearheaded the drive for seizure of the plantations, and a party leader Tuesday urged the Indonesian government to take over the American Standard Vacuum Oil Co. and to confiscate the British-Dutch Shell Co.

The official news agency Antara said the Red leader, Ruslan Kamaludin, made the recommendation in a speech in Palembang, an oil center where Standard Vacuum and Shell each have a refinery.

Has Resisted

The Indonesian government in the past has resisted Communist demands to take over the oil properties since the companies produce about \$125 million a year in hard currency for the Indonesian treasury.

Two other American oil companies, Caltex and Panam Oil, also operate in Indonesia. Under agreements worked out in late 1963, the Western oil companies operate as contractors to the Indonesian government.

Seward, who had been injured in an accident, foiled an attempt to kill Seward April 14, 1965, the night Lincoln was shot.

Two years later, Seward engineered the purchase of Alaska from Russia.

Immigration Service Gives Love Story a Happy Ending

NEW YORK (AP) — The tale of the Israeli mother who had her son jailed in a vain attempt to stop his marriage to a British-born secretary now has its own story-book ending.

The U.S. Immigration and Naturalization Service, announced Tuesday that it would not deport Haim Menasha Frenkel, 25.

His wife, Sally Diana, 26, greeted the news joyously.

"Everything is wonderful now, including mama," she exclaimed. "We're so happy. Mama's just fine, we get on quite well. You might describe us in a corny old way as quite a happy family."

Fell in Love

Frenkel came here from Israel on a tourist visa in 1962, and met and fell in love with the brunette secretary here from her native London a year earlier.

Frenkel's parents opposed his marrying the non-Jewish immigrant. His mother cut off his allowance, and when he was forced to go to work, she notified the immigration service.

The story came out when the service hauled him to jail and had a hearing on whether he should be deported for taking a job on a tourist's visa. A wealthy Jewish man who had married a Roman Catholic read the story and supplied \$1,000 bail for Frenkel.

Frenkel and Sally were married Nov. 8, despite the opposition of his mother, who had flown here to stop the wedding.

The immigration service said it had "adjusted" Frenkel's status to that of his wife, a legally immigrated permanent resident. She has applied for naturalization.

Alaskan Peak May be Named for Hero Who Saved Seward's Life

JUNEAU, Alaska (AP) — A 10,415-foot mountain in Alaska may be named for a Civil War soldier who saved the life of Secretary of State William H. Seward the night President Abraham Lincoln was assassinated.

The State Geographic Board recommended Tuesday a peak in the Chugach Mountains be named for Sgt. George F. Robinson.

Robinson, assigned to nurse

'Class' Explained as an Aura Of Confidence That Some Have

BY ANN LANDERS

DEAR ANN LANDERS: What brother-in-law, no. Is class? John F. Kennedy had it. Warren Spahn has it but Bo it. Other presidents have had it. Belinsky doesn't. Perro Como too, but with JFK it just stuck out all over.

Bernard Baruch has it. Paul Getty doesn't. Grace Kelly and Deborah Kerr have it. Jayne Mansfield and Mamie Van Doren — no. King Gustav of Sweden has it but not so King

Landers

PIN-WORMS A FAMILY AFFAIR

Fidgeting, nose-picking, a tormenting rectal itch are often telltale signs of Pin-Worms, ugly parasites that medical experts say infect 1 out of every 3 persons examined. Entire families may be victims and not know it. To get rid of Pin-Worms, they must be killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it:

First—a aseptic coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly and easily.

Don't take chances with dangerous, highly contagious Pin-Worms which infect entire families. Get genuine Jayne's P-W Vermifuge... small, easy-to-take tablets... special sizes for children and adults.

has it in abundance — Liberate. not a trace. Gary Cooper — yup. John Wayne, nope.

We talk about people who have class, yet no one seems to know what it is. What is class anyway? — E.P.B.

Dear E. P. B.: Class is an aura of confidence that comes with knowing you've got the goods. It's being sure without being cocky.

Jacob had it. Easa didn't. Symbolically we can look to Jacob's wrestling match with the angel. Those with class have wrestled with their particular angel and won a

English Churches Devotional Book

LONDON (AP) — Anglicans and Methodists are cooperating for the first time in producing a devotional book for Lent.

"Lent with John Wesley," consisting of selections from Wesley's works, is being published jointly by A. R. Mowbray and Co. and Epworth Press, the Anglican and Methodist publishing houses. The selections have been made by the Rev. Gordon Wakefield, Methodist connexional editor.

In a preface Bishop John W. C. Wand, former bishop of London, comments:

"The publication of a Methodist Lent book by a well-known Anglican firm is a happy sign of the times. It is an indication that the ecumenical movement is passing out of the conference room into the sphere of everyday life."

The Church of England and the Methodist Church in Britain

A Lovelier You By Mary Sue Miller

The 'Ideal Diet'

Most reducers expect nothing keep you trim are packed with more of a diet than a loss of weight. But a really good diet performs several other, equally valuable services.

The ideal regimen encourages sound eating habits, which in turn normalize your appetite. As a result, you stay slim and should never again have to go on a diet.

Meanwhile there is a steady improvement in your skin, hair and energy. For the foods that are studying a possible merger of the two. This will be further discussed at a meeting of the Church Assembly, the Church of England's governing body, later this year.

IDEAL DIET

Breakfast: Citrus fruit or juice; boiled egg; slice whole wheat toast, lightly buttered; coffee or skim milk.

Lunch Menu

Luncheon: Chicken bouillon; shrimp marinated in catsup, served on lettuce with fresh cucumber rings; 2 breadsticks; apple slices topped with water-thin sharp cheese; tea with lemon.

Dinner: Vegetable juice cocktail; serving of roast lamb; steamed carrots; chilled celery

hearts; thin slice pound cake; demitasse.

Now let's analyze the virtues of those menus. Surely there is nothing about them that smacks of starvation. The foods are varied and satisfying, yet well within a reducer's calorie count. Owing to their high protein and vitamin content, they make for general well-being.

You could lose ten pounds before Easter, if you patterned your menus on the samples. In the intervening weeks, you'd form the habit of eating — deliciously — for a lifetime of beauty.

Diet and Like It!

Reduce without starving! Send for my purse-sized booklet, "Diet... and Like It!" which includes: Shortcuts to dieting; a calorie calculator; simplified menu planning; your model weight. For your copy, write Mary Sue Miller in care of this of those menus. Surely there is nothing about them that smacks of starvation. The foods are varied and satisfying, yet well within a reducer's calorie count. Owing to their high protein and vitamin content, they make for general well-being.

Appointments Not Always Necessary But Appreciated

DEAR ANN LANDERS: I am a college professor who obviously does not know all the answers. Why don't newspapers report divorces only when they have been granted?

My own wife filed suit mysteriously several months ago. Of course, my colleagues and students all read about it in the paper. Within a few days my wife withdrew her suit. Our family doctor chalked it up to "the menopause." My wife said casually, "I was just trying to get your attention."

She got my attention all right. She also got the attention of dozens of people who saw the first report and missed the second and now believe I am divorced.

I repeat, why do newspapers print the names of people who file? Why don't they wait until the decree is granted? — Professor

Dear Professor: Newspapers print news. When a petition for divorce is filed it is news. It is also a matter of public record, and newspapers — as well as all citizens — have access to such records.

A wife who must file suit for divorce in order to "get attention" must be in desperate need of it. I hope she is now getting attention — the professional kind.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.

FORD REXALL DRUGS

The Ailing House Filter to Help Taste Of Water

BY ROGER C. WHITMAN

Q: We had our well water system checked and it was found to be perfectly safe for drinking. However the water has an unpleasant odor and taste. How can this be eliminated?

A: Activated carbon filters

are usually effective in removing water odors and tastes. Consult your local plumbing supplies dealers. Or have a water treating service check the system and make recommendations.

Q: We are moving to an apartment which will have a smaller kitchen so that we will have to use our dinette set in a corner of the living room. The set has chrome legs. Could we paint these a color, to make them less conspicuous in the new arrangement?

A: Easily. Wash the chrome surface to remove all trace of

wax, grease, grime, etc. Dull the gloss finish by rubbing with fine steel wool and turpentine, and wipe off all dust. Then apply a metal primer or undercoat and a top quality metal enamel.

Q: How would you remove white enamel paint spots from mahogany veneer furniture?

A: Try using a liquid floor wax (not the water or self-polishing type) to remove the spots if they are small. Or rub carefully with fine steel wool and turpentine.

Happy Birthday, Henry'

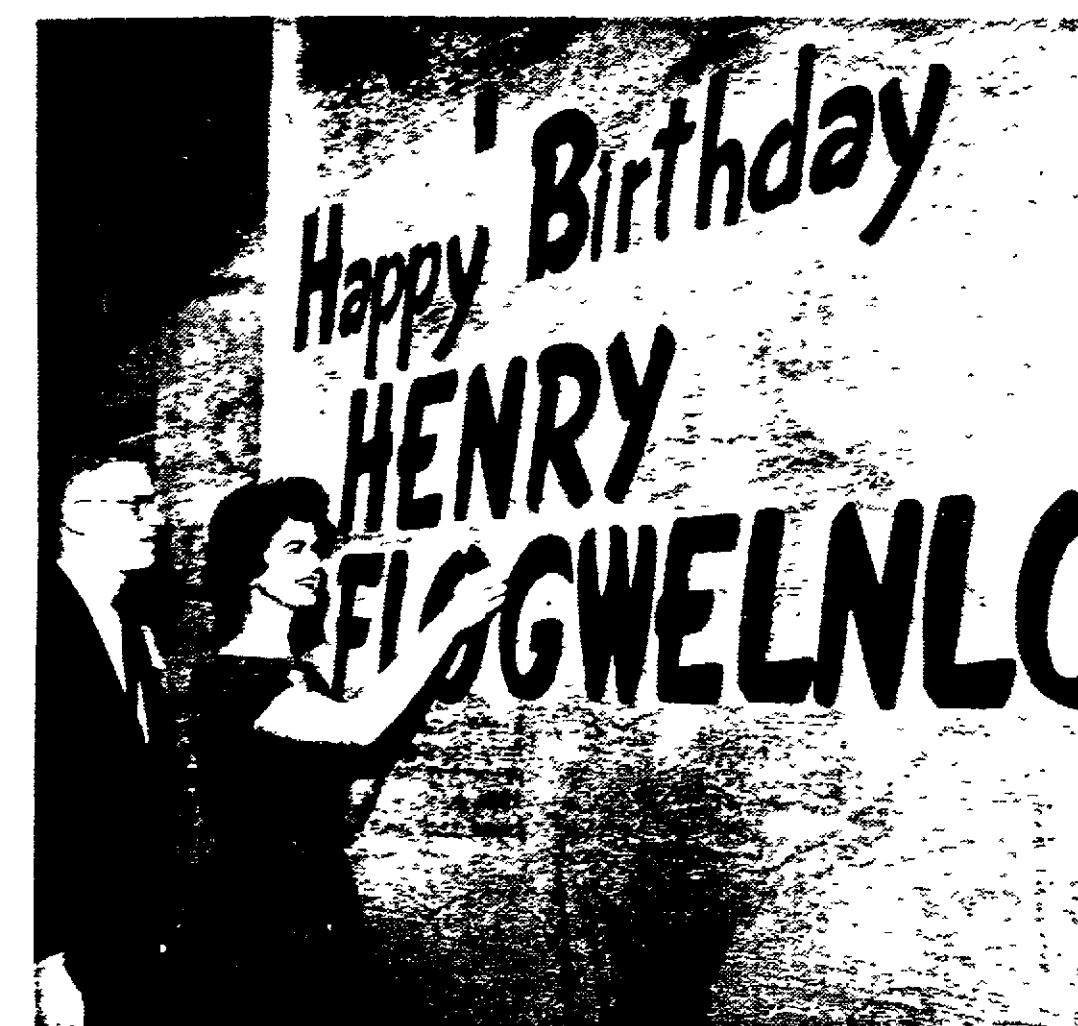

Washington, Lincoln and St. Valentine have all the best of the February observances. The Prom Club, seeking to right a long-time wrong, gave Henry Wadsworth Longfellow his due when they held a 'Happy Birthday,

Henry' party Saturday evening at the Conway Hotel. The semi-formal party began with 8:30 p.m. cocktails. Mr. and Mrs. Glenn Schilling were chairmen of the decorations committee, assisted by Mr. and Mrs. John Felker, Mr. and Mrs. Clare Phueffer, Mr. and Mrs. Howard Stacker and Mr. and Mrs. Maurice Mead. Mr. and Mrs. Dean Hewitt and Mr. and Mrs. Richard Aucter had charge of invitations for the guest night party.

Mr. and Mrs. Harry Sitzberger and Mr. and Mrs. Frank Smith made name tags. General chairmen were Mr. and Mrs. Louis Schoepel.

the Courtship of Miles Standish

If Anyone Had Doubts about whose birthday was Feb. 27, they were put straight by the huge scrambled felicitations on the wall. Above, putting the letters in proper order, are Mr. and Mrs. Frank Smith, Menasha.

Apocreas Dinner Served by Society

An Apocreas dinner was served Sunday noon at the Masonic Temple to members of the Greek Orthodox Church at the Temple.

Arrangements for the dinner were made by the Panathenaea Society at its February meeting at the home of Mrs. Philip Rouselatatos, 1331 W. Fourth St., Kimberly.

Costume prizes were awarded the children at the family affair.

Mrs. Donald Dake served as dinner chairman, assisted by Mrs. Andrew Jumes, Mrs. Michael Gostas and Mrs. Rouselatatos.

The Panathenaeans will meet March 9 at the home of Mrs. Nick Karras.

Spring Rite Planned by Engaged Pair

LITTLE CHUTE — The engagement of Miss Karen Jean Cumber to Roger W. Heindl has been announced by her mother. She is the daughter of Mrs. Frank Cumber Sr., 221 Mill St., and the late Mr. Cumber. Her fiancé's parents are Mr. and Mrs. Andrew Heindl, route 2, Kaukauna.

Mr. Heindl is self-employed in livestock raising and works for the Kaukauna Bus Line.

A May 15 wedding is planned.

Mrs. Himebaugh to Give Travelogue For Trinity Women

Mrs. Donald Himebaugh, Spanish instructor at the Appleton High School, will present a travelogue 'Our Mexican Neighbors,' at 8 p.m. Tuesday for Trinity Lutheran Church Women. The group will meet in the parish hall. Mrs. LaVerne Gallitz is program chairman. Gonzola Asofeifa, American Field Service student from Costa Rica, will tell of his country. Music representing these nations will be played and sung by Miss Mary Dahl and Miss Louise Noffke. Serving as devotional leader for the meeting is Mrs. Harold Lovdahl. Refreshments will be served by members of Ruth Circle.

Today's Etiquette

BY LOUISE DAVIS

DRESS QUANDARY

Dear Louise: The executive staff at my husband's firm will

Davis

give a party at a fashionable hotel. The invitation reads: cocktails at six, dinner at seven. There will be a floor show and dancing afterwards. I don't know any of the women who will be attending and my husband only knows some of the men, so I would like to know how to dress. I have a mink stole and a mink hat. Do I wear the hat and leave it on throughout the evening? Should I wear the stole? I am afraid the weather will be very cold in which case the stole may not be warm enough. Your help will be appreciated.

Louise Davis Answers:

I think that the party will be quite gay and dressy. I suggest that you wear a cocktail type, dress which is rather formal in look. You won't need a hat. If the weather will be cold, you'd have to wear a winter coat. I have an idea that your stole would be a problem anyway. You can be sure that the hotel will be comfortable and without drafts. You will be moving about considerably before and after dinner and wouldn't want to leave your mink on a chair.

PASSING FOOD

Dear Louise: Please settle a family argument. When passing food at a family dinner, is it to the right or to the left?

Louise Davis Answers:

Food is served or passed to the left. Within a family, such formality is rare.

Parsley Bouquet

A bunch of parsley will stay fresher and last longer if you wash it thoroughly, then stand it in a glass of water, like a bouquet, for a couple of hours. Drain it well on a paper towel before storing it in the refrigerator.

Psychology Surer Guide Than Math

When you must read an opponent's holding without any real information, psychology may be a surer guide than mathematics. It is perfectly fair to keep your eyes open and draw inferences from the way the opponents act.

When West led the seven of spades South played low from the dummy, hoping to win with the club finesse as his last hope, the jack. East won with the ace but this lost also and he was queen and returned a spade.

Declarer took the third spade. As dummies will, North ob- with dummy's ace, got to his served that declarer makes the hand with a diamond and tried contract if he takes the first the heart finesse. He was home trick with the ace of spades if he could get three hearts. The club finesse then loses, but heart finesse lost, and back the opponents cannot take their

St. Bernadette Parishioners got together for a final fling before the more somber days of Lent begin. Their first party in the new school Friday evening was sponsored by the men's and women's organizations of the parish, with Delmar Schuh and Mrs. Nicholas Kern as co-chairmen. Above, visiting

at the Mardi Gras party, are Mr. and Mrs. Francis Keuler. Mr. and Mrs. Kern and Mr. and Mrs. Norbert Scherm. Dancing below are Mr. and Mrs. Donald Theisen and Mr. and Mrs. Patrick Randerson. (Post-Crescent Photos)

Excellent Fish Recipes

CONTINUED FROM PAGE 1

Heat in 350-degree oven for 10 to 12 minutes or until heated

OCEAN PERCH FLORENTINE

2 pounds ocean perch fillets or other fish fillets, fresh or frozen
1 package (10 ounces) frozen chopped spinach
1/4 cup flour
1/2 teaspoon salt
1/2 teaspoon pepper
Dash nutmeg
1/4 cup melted fat or oil
1 1/2 cups milk
1/2 cups grated Parmesan cheese
1/2 teaspoon Worcestershire sauce
Paprika

Thaw frozen fillets. Skin fillets. Cook spinach as directed on package. Drain thoroughly. Blend flour and seasonings into fat. Add milk gradually and cook until thick and smooth, stirring constantly. Add cheese and Worcestershire sauce and stir until blended. Arrange half the fish in the bottom of a well-greased baking dish. Combine spinach with half cup of the sauce. Spread over fish. Sprinkle with paprika. Bake in 350-degree oven for 25 to 30 minutes or until fish flakes easily when tested with a fork.

CREOLE STYLE HADDOCK

2 pounds haddock fillets or other fish fillets, fresh or frozen
3 vegetable bouillon cubes
3 cups boiling water
1/4 cup chopped onion
1/4 cup chopped celery

3 small cloves garlic, finely chopped
1/4 cup melted fat or oil
1/4 cup flour
1 can (10 1/2 ounces) tomato puree
1 bay leaf
1 tablespoon Worcestershire sauce
1 1/2 teaspoons salt
1 teaspoon thyme
1/2 teaspoon sugar
1/4 teaspoon red pepper
1/4 teaspoon liquid hot

pepper sauce

3 cups hot cooked rice
1/4 cup chopped parsley

Thaw frozen fillets. Skin fillets and cut into 2-inch pieces over rice.

Dissolve bouillon in boiling water. In a 10-inch fry pan,

cook onion, celery and garlic in fat until tender. Blend in flour, bananas with brown sugar and and cook until lightly browned, a little lemon juice. Serve on a.

Add bouillon, tomato puree and pretty plate, topped with un-

seasonings. Summer, uncovered, sweetened whipped cream into for 30 minutes, stirring occa-

sionally. Add fish. Summer 10 to orange relish.

Banana Dessert

Delicious dessert idea! Bake

fat until tender. Blend in flour, bananas with brown sugar and and cook until lightly browned, a little lemon juice. Serve on a.

Add bouillon, tomato puree and pretty plate, topped with un-

seasonings. Summer, uncovered, sweetened whipped cream into for 30 minutes, stirring occa-

sionally. Add fish. Summer 10 to orange relish.

so alike...

so different

TOTAL SAVINGS PROGRAM

Can you see the difference in these two shoppers? At first glance, they look alike, but there is a big difference. If you were to examine the contents of their pocketbooks, you would find that the Treasure Island shopper on the left still has \$1.20 in her purse... the amount of change she received from a \$10 bill after buying groceries at Treasure Island. The lady on the right did not make her purchases at Treasure Island and spent her entire \$10 on the same grocery

order purchased elsewhere. The explanation is simple... food prices are lower at Treasure Island and the Tape Total makes the difference.

More and more smart shoppers in Appleton are switching to the Treasure Island Total Savings Program wherein customers enjoy the benefit of savings through volume selling, fast turnover, and efficient handling. Shouldn't you be shopping and saving at the bargain loving Treasure Island Food Department?

YOU ALWAYS GET MORE THAN YOU BARGAINED FOR

What every Fox-Cities homemaker should know about canned salmon

Valuable tips. Making meals more appealing and nutritious. New serving ideas...easy, economical.

By EMMA STATES
Noted home economist

SALMON has been one of man's favorite foods down through the ages. But its popularity has never been greater than it is today.

The reasons are many: Nutritional value, delicious flavor, appetizing color, economy, versatility and ease of preparation.

A "Who's Who" for health

Your children will probably wonder how anything that tastes so good can be so good for them. But a list of salmon's many nutritional benefits reads just like a "who's who" for better health.

There's calcium and phosphorus in the presence of Vitamin D (the sunshine vitamin) to help build strong bones and sound teeth.

There's niacin, riboflavin and other B vitamins that are needed daily in the diet.

There's Vitamin A to help build resistance to infections.

A complete protein food

Also, canned salmon is a complete protein food valuable in promoting growth and replacing worn or injured tissue. Protein is essential in the diet.

And if you're counting calories, you can count on canned salmon for low-calorie nutrition.

Here's another plus for salmon: It's a good source of poly-

unsaturated fats, which are suggested in many diets today.

What about economy?

Salmon helps you stretch your food dollar in two ways. First, it has no waste. And second, it's a great help in making use of leftovers.

When vegetables are left over at dinner, don't throw them away. Combine them with a can of salmon for an appetizing soup or casserole.

You'll find that the flavor of salmon goes well with that of almost any vegetable. I suggest you always keep canned salmon on hand for instant use as a budget stretcher.

You can make so many different easy-to-fix, high-appeal dishes with canned salmon. I'd like to share one of my favorite salmon recipes with you. I think your family will enjoy it.

Salmonburgers

1 lb. can Whitney's salmon
1/2 cup chopped onion
1/4 cup melted butter or margarine
1/2 cup salmon liquid
1/2 cup dry bread crumbs
2 eggs, beaten
1/4 cup chopped parsley
1/2 teaspoon powdered mustard
1/2 teaspoon salt
1/4 cup dry bread crumbs
6 round buttered buns
Lemon wedges

Drain salmon, reserving liquid. Flake salmon. Cook onion in butter until tender. Then add salmon liquid, crumbs, eggs, parsley, mustard, salt and salmon. Mix well.

Shape into 6 cakes and roll in crumbs. Place in heavy frying pan, with about 1/4 inch of heated fat. Fry at moderate heat.

When the cakes are brown on one side turn carefully and brown other side. Cook for about 5-8 minutes. Drain cakes and serve in buns with lemon wedges. Serves six. A real treat!

New serving ideas

Use creamed salmon as a sauce on baked potatoes. Delicious!

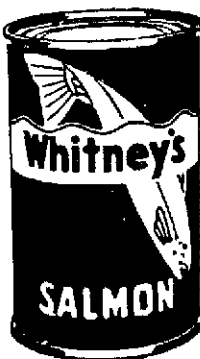

Scrambled eggs salmon style! Mash salmon and add to beaten eggs with liquid from can. Do not add salt. Scramble as usual and sprinkle with paprika or chopped chives.

Use canned salmon instead of meat to stuff green peppers or tomatoes. Here's a wonderful idea for a Friday luncheon.

Some expert advice

What brand of salmon to choose? I think you and your family deserve the best. That's why I recommend Whitney's. I've always found that quality is your best food buy.

I'd be happy to send you more of my favorite salmon recipes. Just send your name, address and ten cents for mailing costs to me, Emma States, P. O. Box 4008, Seattle, Washington 98199.

Your Money's Worth

Interstate Highways To Revolutionize Travel

BY SYLVIA PORTER

Building of our 41,000-mile financing. Among the leaders Interstate Highway System is which have sold shares to the now approaching the halfway public are Holiday Inns, Howard mark Scheduled for completion Johnson and Quality.

Porter

connect virtually every urban population center in our country. It'll cost \$47 billion or so, a hefty \$20 billion more than the original estimate.

What will this network of highways mean to you, the automobile traveler?

It'll mean you'll be able to drive from New York to California, from Boston to Miami, without stopping for a red light.

Spur to Use Car

It'll slash your auto driving time for business or pleasure travel and it surely will be a powerful spur to use your car, instead of buying plane or train space for comparatively long trips.

It'll stimulate the creation of giant "service complexes" along the 41,000-mile system which will stay open night and day and offer you one-stop services ranging from rooms and restaurants to gas, oil and major auto repairs.

It'll encourage millions of people to travel on-the-cuff, for they'll be able to use gasoline credit cards to charge expenses at the complexes.

The shape of things to come is emerging now.

Motel chains are scrambling for large plots of land surrounding the major interchanges of the interstate system. The land is by no means plentiful or cheap.

Service Complexes
Oil companies, motel and restaurant chains are affiliating to establish the service complexes. Latest to join up are Quality Courts Motels, Phillips Petroleum and Dobbs Houses. Holiday Inns and Gulf Oil preceded them, and so did Travelodge and Pure Oil.

Standard Oil of Ohio is building its own motels. In explaining the affiliation in an interview, John G. Laroock, president of Quality Courts Motels, remarked, "We believe that motorists will leave the highways only when necessary to stop for fuel, meals or lodging, or when they reach their destinations. Obviously, travelers are going to favor facilities that provide all the basic services at one stop."

Motels are becoming bigger and more luxurious. Swimming pools, wall-to-wall carpeting, ice-making machines, baby cribs, TV, radio, etc., are now standard items in the leading motel systems. Only a few years back they were promoted as extras.

Guidebooks, Tours
The linked motel and oil companies are going all out to promote each other with guidebooks, travel tour arrangements, ads.

The motels are honoring the gasoline credit cards of their company affiliate while the service stations are making reservations for travelers at their motel affiliate. Quality Courts has been honoring Phillips 66 credit cards at its 500 motels for only two months, but Laroock reports, "It already has opened up a tremendously big market. Many are discovering for the first time the convenience of traveling with only a minimum amount of cash."

The expenses of financing expansion are compelling the

Illinois College Picks Lawrence Alumnus for Public Relations Head

Grant J. Verhulst, a graduate of Lawrence University, recently was named director of public relations at Kendall College, a junior college in Evanston, Ill.

Verhulst retired in February from the Vermont Publishing House where he had been associated with for 20 years.

Man Pleads Innocent To Misconduct Charge

Vernon H. Ferron, 32, route 2, West DePere, has pleaded innocent in Outagamie County Court Branch 2 of disorderly conduct. He is in the county jail pending payment of \$100 bond and the matter is continued until March 19 when a trial date will be set.

Ferron was arrested by Outagamie County Sheriff Department authorities who answered a complaint by Ferron's wife late Sunday night, that her husband was creating a disturbance at their home.

But what will this mean to the small, independent motels? There are more than 62,000 motels in the U.S. grossing \$4.5 billion a year.

Unquestionably, many will be in a squeeze. There's no doubting the appeal of a motel which belongs to a national organization that can provide so many services at one location. There's no doubting the pressures on individually owned and operated motels, especially those some distance from a super-highway access. The motel industry is heading into a phase of transition and consolidation.

As of now, only 13,000 miles of the 41,000-mile network have been opened to traffic. But, even at this point, it is clear that the system will not only revolutionize our auto travel habits but also the organization and marketing practices of our huge, multi-billion dollar oil and motel industries.

Viewing a Display of awards at the Green Bay Diocese Catholic Scout Training Institute at Xavier High are from left Rev. James Putman, Green Bay, diocesan scout director; Fred Dorband, Green Bay district scout chairman; Warren Whitlinger, Neenah, general chairman of the institute, and

Herman Brandmiller, Chicago, deputy regional executive for region 7. Boy Scouts of America. One hundred and fifty people attended the training session Sunday which was sponsored by the Diocesan Catholic Committee for Scouting. (Post-Crescent Photo)

Combined Locks Man On Probation for Theft

William J. Bruss, 23, 15 Prospect St., Combined Locks, County Court Branch 2, was placed on probation to the

State Department of Public Welfare for six months Monday after he pleaded guilty to theft. Bruss stole money from him while they lived together. Bruss was ordered to make restitution of \$25.

Outagamie Jobs Down by 1.5 Per Cent

State Bureau Reports Decline Less Than Year Ago This Time

There was an employment decline of 1.5 per cent from mid-November 1964 to mid-January 1965. More than 50 per cent of this year among firms in Outagamie County participating in the labor market information program.

According to the labor market letter published by the Wisconsin State Employment Service, 13,863 persons were employed by 60 establishments in the county in November compared to 13,642 in January. During the same period a year ago, the decline was close to 4 per cent.

The report cited gains in nonelectrical machinery and minor increases in nonmanufacturing groups as responsible for the low seasonal decline. Term-ination of employment of sea-sonal employees in the textile and paper groups were cited as accounting for a large share of the decline.

Based on reports, anticipated gains in the textile, paper, and retail trade industries will be

offset by losses in construction and a downward adjustment in durable goods industries, the WSES report said. The opening of several new retail trade centers is expected to increase the demand for sales workers. According to the report, the demand for experienced office workers, draftsman, and mechanical and industrial engineers continues to be greater than the supply.

At the end of January, 1,118 persons were registered with the state employment service. More than 50 per cent of the applicants were in the unskilled or entry groups; about 11 per cent in the clerical and sales groups; four per cent in service; 30 per cent in the skilled and semiskilled groups, and three per cent in the professional groups.

19th Century Russian Literature to be Topic Of Talks at Lawrence
Dr. Sidney Monas, of the history department, University of Rochester, will give two public lectures on 19th century Russian literature and letters p.m. in the Memorial Union.

Monas is professor of Russian history at Rochester. He earned a Ph. D. at Harvard, and taught at Smith College. He is author of a book entitled "The Third

Drivers Fined After Accidents

KAUKAUNA — Two motorists pleaded guilty to traffic violations resulting in accidents. They were arraigned before Oscar T. Jahns, municipal justice.

Francis B. Coonen, 68, Box 2, Oneida, paid \$15 for failure to stop for an arterial. His vehicle was involved in an accident with a car driven by Harold Van Den Berg, 42, 825 Main St. Little Chute, at State Highway 55 and County Trunk OO about 6:45 p.m. Sunday. No injuries resulted.

Arvin L. Broehm Jr., 19, Collins, Wis., was fined \$10 for failure to yield right of way. His car was involved in a collision with an auto driven by Myron Bruss, 50, 511 Prospect St., Combined Locks, at Main Avenue and Tenth Street about 10:05 a.m. Saturday. No injuries were reported.

Tourism Best Economy Boost For Wisconsin

Lawmakers Told It Is Most Available Means for Expansion

MADISON—The most immediately available means for expansion of the Wisconsin economy is the encouragement of tourism in Wisconsin on a year around basis, the Wisconsin legislature was told Tuesday.

Spokesmen for tourism, led by Jack Olson of Wisconsin Dells, the former lieutenant governor, descended upon the legislature's finance committee to appeal for legislative backing for Gov. Knowles' proposal to boost the state's outlay for tourist promotion to half a million dollars a year.

The state lately has been spending \$350,000 a year for such programs in spite of its superior potential for the attraction of vacation-spending visitors from a nationwide market, resort keepers and others testified.

Cite Ski Resort

Legislators were given the example of the extraordinary growth of the winter ski resort business in Wisconsin to illustrate the potential of expanding the tourist season beyond the traditional June to September schedule.

Donald Frederickson, head of the Door County Chamber of Commerce and the Wisconsin Hotel and Resort Association, noted that the summer vacation business in Florida in recent years has overtaken the winter business in dollar volume, and suggested that Wisconsin should try to emulate that experience in reverse.

Olson got his statewide reputation originally as one of the most energetic champions of an expanding tourist business in Wisconsin, when he described himself as "unemployed" when he returned to legislative halls Tuesday after giving up his office as lieutenant governor in January following his defeat in November. He is the proprietor of a successful tourist boat sightseeing business at Wisconsin Dells.

Omro Picked For Regional 'Alice' Test

OMRO — This community has been selected as one of the Alice in Dairyland Regional contest sites.

The announcement, made today by the Wisconsin Department of Agriculture, lists Omro as the Region Six host community.

Also listed in the announcement were Darlington, Sturgeon Bay and Antigo. The quartet of communities joins five others announced earlier. They are Columbus, Waukesha, Burlington, Mauston and Woodville.

Delay in Checks Due to Lack of Proper Address

Thousands of people who are collecting social security checks do not get them as promptly as they could simply because they move and fail to notify social security offices of their new addresses, the Social Security Administration has announced.

A notice to the Post Office will not get an address changed on social security records, said Frank M. Donnick, district manager of the Appleton office. The best way of insuring the prompt and safe delivery of your social security check each month, he said, is to let the Social Security Administration know your new address as soon as you plan to move.

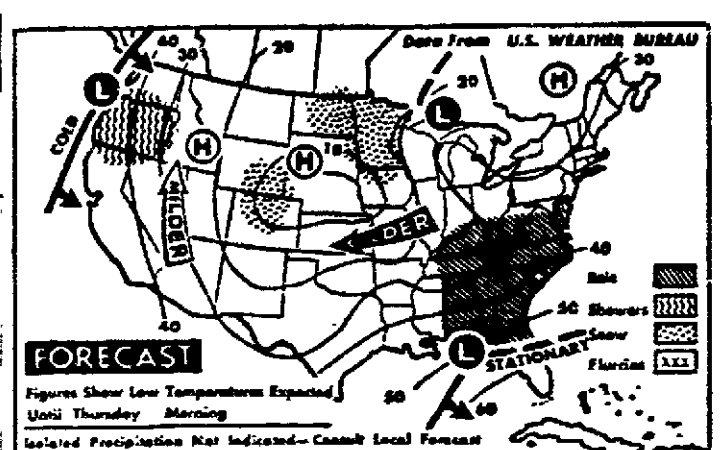

A notice to the Post Office of your change of address will take care of any checks already on their way to you, but it will not insure the prompt delivery of those to follow.

You may report your new address to the Social Security Administration by filling out and mailing the post card which is given to you when you begin receiving your checks.

Former Fremont Resort Owner Dies in Florida

FREMONT — Mrs. Albert Bergstresser, 60, operator of a Fremont Resort until this year, died Monday in Tampa, Fla.

Funeral arrangements are pending at Bauer Funeral Home, Fremont.

Rain From the Tennessee valley to the south Atlantic states, showers in the Pacific northwest and snow in the Rockies and northern Plains is the prediction for Wednesday night. It will be colder from the central and southern Plains to the Tennessee valley and milder in the Rockies and Great Basin area. (AP Wire-photo Map)

Son to Mr. and Mrs. Gary Rasmussen, Fairfax, Va. Grandparents are Mr. and Mrs. William Krueger, 919 Grignon St., Kaukauna.

Marriage Licenses

Outagamie County — Clerk Mollie Pfeiffer has issued licenses to:

Rubin A. Klug, 511 Douglas St., and Ramona Rae Roepke, 522 E. Pine St., both of New London.

David R. Hensley Jr., 206 S. Lawe St., and Lynn Ann LeDuc, 713 E. Goodall St., both of Appleton.

Winnebago County — Clerk Dorothy L. Propp has issued a marriage license to James W. Hewitt, 2206 Oregon St., Oshkosh, and Nancy E. Cornell, 9 E. New York Ave., Oshkosh.

Byrnes Says He Will Vote Against Appalachia Bill; for GOP Alternate

WASHINGTON — Rep. John W. Byrnes, R-Green Bay, today said he expected to vote today for the Republican substitute for the Appalachia Bill and against the latter measure, if passage of the substitute fails.

The substitute would extend the territory covered by the Appalachia Bill to whatever areas were economically distressed by enlarging and speeding up any redevelopment or anti-poverty programs now under consideration for those areas.

The substitute's road building program, instead of "duplicating" present highways as the Republican membership charges the original Appalachia Bill does by constructing new roads parallel to existing ones, would build highways only where needed. The states also would be required to maintain and repair them in the substitute measure.

The Republican substitute requires that all anti-poverty programs be cooperative ventures of the state, local and federal governments.

Wide Range

Byrnes said the original Appalachia Bill, passed by an overwhelming vote in the Senate last year, authorized the spending of \$1 billion a year for five years, would make federal money available for everything from crop raising to the building of a new state capitol building.

The building is scheduled for completion by January 1, 1966. It will face Elmwood Ave. near the 165,000 miles of mountainous country reaching over 12 states from New York to Alabama.

Breese and the new Evans and Stewart Halls. It will bring the total capacity of WSU-Oshkosh food service units to 3,050.

Two commons, each capable of seating 300 at a time, will be on the second floor of the 28,500 square foot building. Food will be prepared on the first floor.

The exterior will be of light brick and stone to blend with poverty-stricken areas in the country as just as the Democratic administration. No state tax funds are required for construction, which will be financed by loans repaid from food service receipts.

WSU-O Food Service Unit Work to Start

MADISON — Construction is scheduled to begin Friday on a new food service building at Wisconsin State University-Oshkosh, the Board of Regents office in Madison reports.

Contracts totaling \$767,091 have been awarded to the following firms:

Precourt Construction Co., Oshkosh, general construction, \$326,520; Peters Plumbing and Heating Co., Omro, plumbing, \$37,075; R. Wenzel Co., Appleton, heating and ventilating, \$128,963; D-K Electric Co., Oshkosh, electrical, \$62,463; H. F. Kessenich Co., Madison, food service equipment, \$199,773, and Otis Elevator Co., Chicago, \$12,297.

The building is scheduled for completion by January 1, 1966. It will face Elmwood Ave. near the 165,000 miles of mountainous country reaching over 12 states from New York to Alabama.

Breese and the new Evans and Stewart Halls. It will bring the total capacity of WSU-Oshkosh food service units to 3,050.

Two commons, each capable of seating 300 at a time, will be on the second floor of the 28,500 square foot building. Food will be prepared on the first floor.

The exterior will be of light brick and stone to blend with poverty-stricken areas in the country as just as the Democratic administration. No state tax funds are required for construction, which will be financed by loans repaid from food service receipts.

Electricity Kills Cows at Fremont

FREMONT — Nine Holstein milk cows were electrocuted about 12:30 p.m., Monday on the Kenneth Schneider farm, route 1, Fremont.

A short circuit in a wire attached to a water pipe leading to the milk house was cited as the cause. Mrs. Schneider said that all nine cattle were top milk producers in their herd of 60.

The incident occurred during a rain and thunder storm. The dead cattle were discovered a short time later when the couple went to the barn.

Race Leads Marinette To Win Over Truckers In Sub-Regional Action

Clintonville Drops 66-64 Decision To Marine Quint

PULASKI — Marinette's Dale Race was the whole show as he led the Marines to a rip-roaring 66-64 last second decision over a determined Clintonville team in the opening game of the Pulaski Sub-Regional.

Host Pulaski finished out of the money, dropping an 80-64 contest to the Shawano Indians. Clintonville will 1:15 to go.

Race, the highest scorer in the Marinette history, dropped in 41 points on 12 field goals and 17 free throws.

His one-man heroics proved, too much for the Truckers, who came from behind to take the lead momentarily in the final period before Race, with some help from Clark Boren and Paul Nast, pulled out the win.

Marinette stepped out in front of Clintonville, 19-10, in the first period thanks to 11 points from Race. The 6-7 senior pivotman stuck close to the basket and controlled both rebounds and point production.

The Truckers, opening up a more aggressive game, charged back to trail by only two, 31-29, at the half. Race had 11 of his team's 12 points in the second period.

Race opened up a 6-point third

period lead with a quick bucket and pair of free throws but Clintonville kept close and then evened the count at 40 on five points by captain Terry Dieck and Pete Korb.

Dieck put the Truckers ahead for the first time, 46-44, at 7:43 of the final period. The score saw-sawed until the Marines went ahead to stay on a pair of free throws by Race.

Korb and Ed Dahly closed the gap to 62-60 with 1:57 left and a free throw by Bob Schmidt cut the margin to one point with 1:15 to go.

Nast canned two charity tosses with :43 left and Race added four free throws in the final 26 seconds to stave off a last gasp bucket by Al Walsh-free throw.

Clintonville had a more balanced attack, but it wasn't enough to offset the one-man show. Race's teammates were more than content to feed the big man, and he justified their faith by canning shots from all over. He was also deadly from the free throw line — hitting 17 of 21 shots.

Prep Vaulter Sets New Mark

LOS ANGELES (AP) — Paul Wilson of Warren High School shattered his national prep pole vault record Tuesday when he soared 16 feet 4 3/4 inches.

The high school senior made the record leap in his first attempt, after becoming the first prep schooler to make the 16 foot mark last year. Three attempts at 16-9 failed.

Fight Results
By The Associated Press
NEW YORK — George (Kayo) Foster, 135, Cincinnati, stopped George (Baby) Eto, 135, Puerto Rico, 1.
OAKLAND, Calif. — Charles Shipes, 144, Oakland, stopped Memo Lopez, 147, Los Angeles, 6.

Stevens Point Posts Victory

Monroe Wins; Wausau Upset, 70-59

Monroe, Wisconsin's top-ranked high school basketball team survived its first tournament test Tuesday night, coming from behind to defeat sixth-rated Platteville 57-52, and will meet 1963 champion Dodgeville in its next outing.

The defeat for Platteville in the Monroe sub-regional was the club's first of the season after 16 triumphs in a row. Monroe boosted its perfect record to 18 straight.

Three other teams holding places on the Associated Press Top Ten also posted victories. Three unranked but undefeated teams were in action and one of them, Oondossagon, was beaten and sidelined Wausau was another major victim.

Nearly all of the state's 424 public high school teams saw action in Tuesday night's sub-regional or elimination games. A few teams, including five on the Top Ten, will not make tournament starts until Friday night when all of Tuesday night's winners are paired for another round.

Eight Survivors
More elimination meets are scheduled for next week before the eight survivors of sectional tests move on to Madison for the state championship tournament at the University of Wisconsin Fieldhouse March 18-20.

Five of Tuesday night's scheduled games were postponed because of bad weather but will be played before Friday.

Platteville had a 42-41 half-

Gary Bell Ends Holdout, Signs With Cleveland

TUCSON, Ariz. (AP) — Pitcher Gary Bell, one of the Cleveland Indians' last two holdouts, agreed to terms on a new contract Tuesday.

Bell reached agreement in a telephone conversation with General Manager Gabe Paul and said he would drive here from San Antonio.

The right-handed relief pitcher had an 8-6 won-lost record last year and a 4.33 earned run average.

Salary terms were not disclosed, but the 29-year-old Bell was reported to have taken a \$2,500 cut, putting him at about \$18,500.

That leaves pitcher Bud Daley as the only Indian holdout.

Tom Vanderhyden, Dribbling the basketball, is about to be fouled by Bob Dercks (14) of Kimberly High School in the top action picture from the Kimberly-Menasha sub-regional tournament game at Kimberly Tuesday night. The other identifiable player is Dick Slattery (41) of Menasha. In the bottom picture, Dick Wallace (30) of Kimberly goes high for a shot which Vanderhyden is trying to block. No. 10 is Bob Van Gompel of Kimberly. Menasha scored a 70-58 victory and will meet New London Friday. (Post-Crescent Photos)

Rated teams that were idle. Fifth-ranked Superior East boosted its record to 16-2 with a 75-65 victory over Superior North, third-listed Wauwatosa a 75-65 victory over Superior East, fourth-ranked Appleton, Central, Ninth-rated Stevens seventh-place Baraboo and Manitowish, the eighth-place team.

The night's top scorer was Juneau's Dan Buhr, who poured in 45 points in his team's 83-64 victory over Randolph. Mat Maloney hit for 41 for Arcadia, beaten 75-61 by Cochrane-Fountain City.

Scores 40 Points
Columbus' Jim Farrell scored 40 in a 71-58 decision over DeForest.

Dave Berg scored 39 for West-bye in a 85-73 triumph over Royall and Robert Greetan scored 39 for Oconto Falls in a 76-69 victory over Peshtigo.

Bill Kinziger poured in 38 in leading Lena past Suring 79-65.

'Jays Topple Papermakers, Meet New London Friday

MHS Takes 70-58 Win In Tourney

BY JIM HARP
Post-Crescent Staff Writer

KIMBERLY — A 9-point scoring burst at the outset of the fourth quarter propelled the Menasha Bluejays to a commanding lead which they protected the rest of the way in a 70-58 sub-regional tournament victory over Kimberly High School before a capacity crowd here Tuesday night.

The victory, 16th of the season for the Jays against three defeats, put the Menashians into the regional semi-finals against New London, a 70-69 winner over Waupaca last night.

Kimberly closed out the campaign with a 13-6 record.

Close Battle
It was a nip and tuck battle for three periods. The score was deadlocked on four occasions in the second quarter as the Papermakers overcame an early Menasha lead and the third period saw the count tied three different times.

With less than one minute remaining in the third stanza, Gary Van Cuyk hit on a short jump shot to bring the Papermakers within one point at 40-39. Before the horn could sound the end of the period, Dick Sorenson and Don Steffin came through with baskets to give the Bluejays a 44-39 advantage, their widest margin since winning a 15-8 lead in the first period.

Those two quick baskets proved to be a harbinger of what was to come for the

Detroit Deals Marquette '5' Another Loss

Tournament-Bound Titans Score on 53 Per Cent of Shots

MILWAUKEE (AP) — Marquette's basketball Warriors turned in one of their better performances Tuesday night, but found themselves in the familiar role of loser.

The Warriors gave tournament-bound Detroit a stiff battle before bowing to superior shooting, 90-76 before a small turnout of 4,240 fans at the Arena.

The Titans hit on 36 of 67 field goal attempts for a marksmanship of 53.7 per cent in ending their regular season with an 18-7 record. They head into the National Invitation Tournament next week.

Marquette managed 32 of 76 floor shots for 42.1 per cent, but their record dipped to 8-17 with one game left. And, although they gave away plenty of height, the scrappy Warriors were out-rebounded only 48-47.

Storm to Lead
The Warriors stormed to a 13-6 lead, but Detroit bounced back and the lead saw-sawed until the Titans took a 40-36 half-time advantage. Then the lead was exchanged several times until Detroit moved in front to stay on a pair of free throws with 11 minutes remaining. With six minutes left, the Titans pulled away from a 68-65 lead, killing Marquette's upset hopes.

The Titans' five starters each scored in double figures in a balanced attack. Dorie Murray hit for 17 points, Lou Hyatt 16, Jim Boyce and John Watson 15 each and Terry Page 14.

Marquette sophomore Bob Wolf captured individual honors with 23 points, including 10 field goals in 15 attempts. Junior Tom Flynn contributed 18 points and Paul Carbins 10.

Wolverines Down Badgers, 98-75, to Clinch Title Share

Russell, Buntin Spark Michigan; Morenz, Bohlen Star for UW '5'

ANN ARBOR (AP) — Wisconsin's hopes of spoiling Michigan's title hopes were dashed Tuesday night when the Wolverines defeated the Badgers 98-75.

The Badgers jumped out to a 10-3 lead against the nation's No. 1 college basketball team, but then were overpowered the rest of the way in dropping a 98-75 decision to All-America Cazzie Russell, Bill Buntin & Co.

Russell scored 24 points, while Buntin chipped in 20 in leading the Wolverines to their 12th straight victory in the Big Ten and their 20th in 22 outings over-all. The triumph assured the Wolverines of at least a share of the Big Ten title.

Russell, who learned before the game he had been named to the Associated Press All-America team, dominated the game with his shooting marksmanship and flashy speed. He hit for 15 points in the first half as the Wolverines took a 40-31 lead.

Grabs 20 Rebounds
Buntin, named to the AP's sive back Tommy Janik, but second All-America team, controlled the boards, grabbing 20 rebounds.

Paul Morenz, who topped Wisconsin scorers with 15 points, sparked the Badgers early in the game. However, Michigan went ahead to stay as two baskets by Russell and one by Larry Truett made the count 12-10.

Michigan outrebounded the director, later denied the swap Badgers 69-44 and shot 45 per cent from the floor. Wisconsin Janik "definitely have been dis-cussed and it is a distinct possibility that such a trade may very well materialize in the future."

Other Badgers in double figures were Jim Bohlen with 13

Len Lathrop Hits Shot at Final Buzzer

BY ROGER PITT
Post-Crescent Staff Writer

NEW LONDON — Coach Bill Beyer's New London Bulldog High School team tipped Waupaca by a narrow 70-69 margin Tuesday on their home floor on a 5-foot jump shot by Len Lathrop as the final buzzer sounded.

Waupaca led the better part of the ball game as both teams were tense in the opening moments. New London held a 12-6 lead with about 3 minutes left but was unable to take advantage of the opportunity. The lead had dwindled to 16-14 at the end of the first quarter.

Reserve forward Rick Fowler opened the game up in the second stanza by pumping in four fielders for the Comets and giving them a 31-24 lead at the intermission.

Close the Gap
The New Londoners closed the gap to 39-38 midway in the third period, but were unable to gain the upper hand and soon trailed 45-40. Waupaca held a 51-45 lead going into the final frame.

The Bulldogs played the final period with three starters in foul trouble.

Both teams picked up in their shooting in the final quarter. New London erased the Waupaca lead by holding a 25-17 edge in points. Each team had opportunities to break the game open late in the game on charity tosses but missed the chance on all occasions.

Four players went to the line in the waning seconds of the game. The Bulldog's Jerry Bleck became the only player to foul out of the game as he picked up his fifth personal with 14 seconds remaining.

Pacing the Bulldog's was Lathrop with 18, Dale Krause 16, Henry Linke 15 and Bleck with 14.

Chuck Dahlke led the Comets by dumping in 11 fielders for all of his 22 points in the game for single honors. The only other Waupaca players to hit double figures were Dave Peterson 14 and Dick Riddle with 12.

New London: (16-8-21-25-70) — Lathrop, 6 6 4, Huber 1 0 0, Bleck, 6 2 5, Krause, 8 0 3, Rugotska 2 1 2 Linke 6 3 4; 29-12-18.

Waupaca: (14-17-20-18-69) — Dahlke 11 0 2, Martin 0 0 2, Peterson, 5 4 1, Erickson, 4 1 3, Anderson, 1 2 2 Fowler 4 0 2, Riddle 4 4 2; 29-11-14.

Freedom, Weyauwega Score 1-Point Tourney Victories, Meet Friday

Hortonville Loses, 49-48; Indian '5' Upsets Winneconne

HORTONVILLE — Both Hortonville and Winneconne lost heartbreakers here last night to Freedom and Weyauwega respectively, in sub-regional play of the Wisconsin State High School Basketball Tournament.

Freedom turned back a determined Hortonville bid to edge the Polar Bears, 49-48, while Weyauwega fought from behind to top the Wolves, 61-60.

Freedom held a comfortable halftime lead of 28-14 over the Hortonville contingent, but saw it gradually whittled away by the Polar Bears in the second half behind the steady scoring of Keith Krause, who totaled 24 points during the contest.

The Irish still led at the three-quarter mark by a score of 39-28, but Hortonville gradually closed the gap and tied the game near the end at 46. A three-point play by Glen Bowers preserved the victory, for the Polar Bears had time to produce only one more basket, contributed by Krause.

Krause's total entitled him to game scoring honors, but he was the lone Polar Bear to hit double figures. Glen Bowers paced the Irish with 16, followed by Jack VanEperen with 11.

Winneconne jumped off to a first quarter lead of 20-11, but Weyauwega narrowed the margin to 33-31 at the half with the use of a press which it maintained throughout the game. The contest remained close during most of the third period, with the lead going to Weyauwega toward the close of the quarter.

The Indians stretched their lead to as much as 10 points during the final frame, but the Wolves fought back to gain a tie at 59-59.

Nick Wohlt then won the ball game with a basket which

countered the effects of a free throw scored by Winneconne's Mike Johnson.

Greg Hildebrand paced the Indians with 23 points, while the Wolves were led by Tom Nickel with 22 points. Other high scorers included Wolves Dave Baitinger and Jim Nickel with 16 and 13 points, respectively.

Weyauwega will now meet Freedom in the sub-regional finals at Hortonville Friday to determine which will go to the regional at Menasha Saturday.

FREEDOM — (10 18 11 10-49) Bowers 5 6 3, Kiefer 1 5 5, VanEperen 5 1 4, T. Carney 1 0 2, P. Carney 2 5 0, Rickert 1 2 2. Totals—15 19 16.

HORTONVILLE — (8 6 14 20-48) Krause 9 6 1, Williams 2 1 2, Huebner 0 0 2, Keller 2 2 5, Kluge 2 2 3, Mulroy 2 0 5, points during the contest.

BELLIE 1 0 3. Totals—18 12 22.

Jays Topple Papermakers In Tourney Tilt

CONTINUED FROM PAGE 1

Papermakers as the Bluejays never lost the momentum.

Tom Vanderhyden opened the final eight minutes of action with a free throw. On his second try the ball bounced off the rim and Sorenson grabbed it and dropped in a beautiful reverse layup for a 47-39 Menasha lead.

Dick Slattery stole the ball before the Papermakers could bring it across the center line and as the Jays drove for the bucket Sorenson was fouled. Sorenson missed his first try from the line but Slattery was there to pick off the rebound and sink a short jump shot.

The Papermakers again lost the ball before they could get it down court and Menasha worked Steffin into the clear for a layup and a 51-39 lead that sent the Bluejay rooters into hysterics.

With 6:41 remaining, Kimberly's 6-8 center, Chuck Meyer, fouled out and Sorenson promptly bagged a pair of charity tosses for a 55-39 Menasha lead.

The Papermakers called a time out to try and re-group Kimberly's 6-8 center, Chuck Meyer, fouled out and Sorenson promptly bagged a pair of charity tosses for a 55-39 Menasha lead.

Providence Triumphs; McCracken to Retire

Minnesota Posts 78-70 Victory Over Hawkeyes

BY TED MEIER
Dave Strack and Joe Mullaney, the basketball coaches at Michigan and Providence, respectively, enjoyed a nice Tuesday evening. It was different for Babe McCarthy, coach at Mississippi State, and for Branch McCracken, coach at Indiana.

Strack, observing his 42nd birthday, got a present of a 98-84-63. 75 victory over Wisconsin from his nationally No. 1 ranked Wolves, a triumph that cinched SWC will go to the NCAA tournament at least a tie for the Big Ten championship.

The 40-year-old Mullaney hit the 200-victory milestone of his career as his Friars, fourth-ranked in The Associated Press Poll, walloped Massachusetts 102-75.

In contrast the veteran 57-year-old McCracken, coach at Indiana for 24 years, resigned effective at the end of the season, ending a 10-year tenure at Mississippi State.

Indiana has a 17-5 record with two games left. Mississippi State ended its season last Saturday with a 10-16 mark.

Michigan now can win the Big Ten crown outright by defeating Minnesota Saturday. The Gophers lost some valuable rebounding strength for the stretch drive and Kimberly's behind Lou Hudson's 20 points.

John Reider and Bob Gompel reverted to long play and Minnesota, sixth in the AP poll, is 10-2. Walker and Dexter West-Gertch led the winners, with 14 points each, and 10 points, respectively, for Providence as the once-beat-Madison's Russell scored eight.

Providence's seventh grade basketball team scored a 54-27 victory over Madison. Pete Kliefoth and Steve Gompel were the winners, with 14 points each, and 10 points, respectively, for Providence as the once-beat-Madison's Russell scored eight.

1965 to be a Good Tourist Year, And Americans Have Better Image

BY GERALD MILLER

ROME (AP) — By most indicators 1965 should be a happy year for international tourism. Americans are expected to play a bigger part than ever in the picture — and with a better impact or "image" than they once delivered. A lot of the people who deal with tourists have decided that Americans are pretty good scouts in comparison with some visitors from other countries.

Americans are certainly less conspicuous in their travels than they used to be. Plenty of Americans who traveled in the early postwar years complained bitterly of questionable food, daily swindles, exasperating tangles with shopkeepers, indifference and even hostility.

Some Justified
Often the complaints were justified. Many countries rocked by the war were in no position to be gracious hosts, even for sorely needed hard currency. Not many other people could travel. This made Americans stand out.

The great surge of prosperity in many parts of the world has changed this. Now the U.S. tourist is just one among many. People who used to jibe at him are now drinking his drinks, wearing his kind of clothes, copying his music and dances, and generally going wild over automobiles and household appliances.

There is less talk about the loud, brash American who once was a favorite of foreign critics and caricaturists.

The growing number of tourists from other lands has provided perspective.

Other Raps
Tourists other than Americans come in for a share of knocks now — Germans accused of being overbearing, Britons called stuffy and supercilious, Frenchmen criticized as demanding and difficult to please, and Swiss censured as grasping and unfriendly.

Tourist specialists call it one of the natural, human side-effects of large-scale commercial travel.

A West German tourism official, Franz F. Schwarzenstein, said Americans are "much get at goods cut to half price. liked because they always try to get the best out of the local sales girls. It looked like any

conditions and are keen to get sweeten the air with silence for along with the local people." "If I were a hotelier," comments Akel Carroll, receptionist at New Delhi's largest hotel, "I would wish all my clients could be Americans. They treat you as equals."

Two Types
In Spain, the operator of a government guest house marked.

"We don't seem to get the old-fashioned noisy, troublesome Americans so much in Spain. Instead we have two types, the upperlevel American traveler tries less, even though they all with a good knowledge of what they want to see and do, and the money to carry out their plans. On the other hand, the Russians charge tourists the intent on learning all they can about Spain has to offer longer a novelty to see Russians and grateful for all the help around Vatican City.

Britons too speak of seeing a different kind of average American tourist today — younger, less brash, less obviously rich, fewer of the types smoking big cigars.

The general tourist outlook is not uniformly bright everywhere. High prices in Western Europe worry tourism officials, who see them driving many customers to lands where the bill cuts less deeply into the wallet.

Campaigns On
Campaigns are on for 1965 to expand and improve hotel and recreation facilities, to curb on tipping demands, to

Sales Up 40 Per Cent

Soviet Discount Store Has Booming Business

BY FRED COLEMAN

MOSCOW (AP) — "How's world business?" The director of what is probably Russia's most successful store was asked. He smiled. So far sales were running 40 per cent above normal.

Tourist specialists call it one of the natural, human side-effects of large-scale commercial travel.

A West German tourism official, Franz F. Schwarzenstein, said Americans are "much get at goods cut to half price. liked because they always try to get the best out of the local sales girls. It looked like any

normal sale in the Western business." The director of what is probably Russia's most successful store was asked. He smiled. So far sales were running 40 per cent above normal.

The people continually clamored for more and better consumer goods. By official statistics, however, about 20 per cent of goods produced last year was left unsold.

Shoppers passed up ready-made clothes, rolls of fabric, cameras, radios, footwear, and other goods. Some were old-fashioned or poorly made. Some were good quality goods, over-produced by central plans which ignored demand. Others, under the state pricing system, cost too much.

The problem of unsold goods was important enough to receive the personal attention of Premier Alexei N. Kosygin.

In his budget speech Dec. 9, Kosygin announced that a series of special stores would be opened to offer unsold goods at cut prices.

Kosygin Visit
Kosygin visited the first discount store Dec. 29 to inspect preparations for the opening, the director, Josef B. Rzhavsky, said.

The store, a half-hour ride by subway and bus from the Kremlin in central Moscow, was first opened in 1963 as department store No. 50. It was converted into a discount house in December and reopened in January.

For the first few days, Rzhavsky said, sales were 40 per cent above the average three-day period under the old system.

Sales Techniques
Several new sales techniques were introduced including —A sign over the exit saying "Thank you for your purchase." —Installment credit buying, coupled with reduced prices. —Advertising in the form of announcements in newspapers, radio and television, and posters calling attention to the price cuts.

Self-service counters where, for example, a shopper can open a drawer, pick out buttons, drop the required coins in a box, and leave.

Rzhavsky has the authority to cut prices even further if goods do not sell. But he said he is not allowed to offer gifts, two for the price of one, or other gimmicks to boost sales.

Prices High
Some prices are still high, despite markdowns of 10 to 70 per cent.

A man's one-button suit of cheap wool, for example, was reduced from \$156 to \$97.23. The

Receiving One of 21 Smoke Eater Awards presented by a Milwaukee brewery on a national basis is Thomas Lamers, left, assistant chief of the Little Chute Volunteer Unit. W. M. Croake, state manager for the brewery makes the presentation. Lamers was cited for rescuing an elderly woman from a serious fire in 1963. (Post-Crescent Photo)

suit is considered out of style seen at the discount house was but still it costs the bulk of an on sale at bargain counters.

The store also offers rolls of better quality fabric imported goods at regular prices or in from Britain, India and Red still better goods not available China, which, for some reason, at the discount house.

The commercial director of Gum, Alexei Blinov, received a reporter in his office. But when he learned the questions were about sales at bargain counters, Bargain Counters

The regular stores also have the about sales at bargain counters, main state department store on Blinov said he was too busy to stop sniffing the stuff. In addition it would be only

To Your Good Health

Glue Sniffing Can Have Harmful Aftereffects

BY JOSEPH G. MOLNER, M.D.

Dear Dr. Molner: I have a friend whose 16-year-old boy has started the habit of sniffing airplane glue.

His mother is worried but doesn't know what to do to help him. He becomes listless and doesn't want to eat or go to school or anything. I would appreciate your advice. — H. D.

I've warned against this practice more than once. Glue sniffing has become a serious menace.

It isn't as universal, happily, as such things as sneezing at the Beatles or trying to look stupid while dancing, and other such transient fads. But it is genuinely dangerous and sometimes suicidal.

Why youngsters do it is something I don't understand. They get or think they get some sort of "kick" out of it. What they really do is poison themselves.

The volatile solvents necessary for quick-drying cements do their main damage to the blood and to the liver. Once the liver is damaged in this way, it is non-reversible damage. You can't undo the harm.

Medical treatment can prevent the damage from becoming more severe, however, so this mother should, at once, put her son under a physician's care.

Must Stop Sniffing
The boy obviously must be told that he is ruining his health still has.

Her doctor will tell her this, and shortening his life. He must stop sniffing the stuff. In addition it would be only

Dr. Molner

whether such glues are harmful when used under normal conditions. You will notice that the tubes warn that they should be used only in a well-ventilated place. Under such conditions you get the odor of the solvents, but the fumes are diluted by air and will not be harmful.

But sniffing the tubes means drawing into the system lungfuls of concentrated fumes, hundreds or thousands as times as strong as merely getting the smell. This can soon be ruinous can't undo the harm.

One further word of warning to the mother of this boy and the mothers of others who have fallen into the habit: Diet is important. The liver, and especially a damaged liver, requires plenty of wholesome food if it is to maintain such strength as it still has.

Her doctor will tell her this, and shortening his life. He must stop sniffing the stuff. In addition it would be only

"must" in treatment of this kind of poisoning.

Dear Dr. Molner: I am in my middle 60's and have been told that I have nerve deafness. What causes this? Will it get worse? At present it is not too bad. Could it be that only nervous people have it? And is there any treatment? — Mrs. C. R. B.

Nerve deafness means that the nerves which conduct the sensation of hearing to the brain have become damaged. It has no connection with nervousness.

Whether it will continue to get worse is not predictable. If some further injury to the nerve occurs, then there will be further loss of hearing. But this may not happen.

As to treatment, there is no way to restore activity to the nerve once it has been lost. If the damage originally was, say, form an infection, then measures to prevent further infection would be helpful in preventing more harm.

Dr. Molner welcomes all reader mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Police Seeking Boy Who Searched Autos

Police are looking for a young boy, believed to be about 10 years old, who was seen searching through parked cars in a city parking lot about 7 p.m. Monday.

William B. Ramsey, 1341 E. Byrd St., told police he saw the youth run from the parking lot. Ramsey said he is missing a brief case from his car.

"What I said was:

Show me just one filter that won't take away the taste and I'll eat my hat!"

however, about 20 per cent of goods produced last year was left unsold.

Shoppers passed up ready-made clothes, rolls of fabric, cameras, radios, footwear, and other goods. Some were old-fashioned or poorly made. Some were good quality goods, over-produced by central plans which ignored demand. Others, under the state pricing system, cost too much.

The problem of unsold goods was important enough to receive the personal attention of Premier Alexei N. Kosygin.

In his budget speech Dec. 9, Kosygin announced that a series of special stores would be opened to offer unsold goods at cut prices.

Kosygin Visit
Kosygin visited the first discount store Dec. 29 to inspect preparations for the opening, the director, Josef B. Rzhavsky, said.

The store, a half-hour ride by subway and bus from the Kremlin in central Moscow, was first opened in 1963 as department store No. 50. It was converted into a discount house in December and reopened in January.

For the first few days, Rzhavsky said, sales were 40 per cent above the average three-day period under the old system.

Sales Techniques
Several new sales techniques were introduced including —A sign over the exit saying "Thank you for your purchase." —Installment credit buying, coupled with reduced prices. —Advertising in the form of announcements in newspapers, radio and television, and posters calling attention to the price cuts.

Self-service counters where, for example, a shopper can open a drawer, pick out buttons, drop the required coins in a box, and leave.

Rzhavsky has the authority to cut prices even further if goods do not sell. But he said he is not allowed to offer gifts, two for the price of one, or other gimmicks to boost sales.

Prices High
Some prices are still high, despite markdowns of 10 to 70 per cent.

A man's one-button suit of cheap wool, for example, was reduced from \$156 to \$97.23. The

Appleton Only Coated While Midwest Pelted By Prolonged Blizzard

Sections of Minnesota, Iowa
Paralyzed by Snow, Ice Storms

While Appleton received snow barely covering the sidewalks, sections of the Midwest today were blasted by one of winter's most prolonged and damaging storms.

Tuesday showed a 40 degree high here and low of 31, while rain and snow fell during the night. Forecast is for more rain and freezing drizzle tonight.

But previously hard hit sections of the country again are being severely stricken.

Blizzards whipped parts of Minnesota for the third straight day and lashed the eastern Dakotas. The severe snow and ice

storms virtually paralyzed some sections of Minnesota and Iowa.

Schools Closed

Hundreds of schools remained closed in the storm belt. Travelers were stranded and hundreds of cars were abandoned. Air, rail and highway travel was seriously disrupted. Colder weather eased flood conditions.

The snow covering at St. Cloud, some 70 miles north of Minneapolis, measured 28 inches, the heaviest amount throughout the storm area. The storm dumped 18 inches of snow Monday and Tuesday. Strong winds disrupted snow removal operations and scores of roads were blocked by huge drifts in many areas.

In Iowa, about 150 trucks and 400 cars jammed up on icy highways northwest of Davenport after freezing rain hit the area. Six semitrailers and several cars slipped off the shoulders of one highway and backed up traffic for four miles. Wreckers worked for three hours to untangle the tieup.

Sleet Peltings

Sleet and freezing rain pelted areas in eastern Iowa, Wisconsin, Missouri and Arkansas.

Rain fell in parts of Illinois and lower Michigan and fog shrouded sections of northern Illinois. Visibility was reduced to zero at Chicago's Midway Airport. The rain belt extended from Michigan to the Carolinas. Thunder showers were heavy in parts of Florida.

Snow fell in sections of southwestern Texas with one inch reported at Midland and San Angelo. Snow flurries flecked areas in the Rockies.

Clear skies were reported in the far Northeast and Pacific Coast with temperatures mostly above seasonal levels. Colder weather prevailed in interior sections of the West. One of the low marks was 3 below zero at Glasgow, Mont. The early morning high was 77 at Key West, Fla.

Little Change Is Forecast for State Budget

Assembly May
Settle for Tax
Extensions Posed

BY JOHN WYNGAARD

Post-Crescent Staff Writer

MADISON — Gov. Knowles record-breaking budget of \$832,000,000, under fire in many quarters as too generous, is likely to survive legislative scrutiny without significant alteration, the chairman of the legislature's finance committee says.

The forecast came from Sen. Walter Hollander of Rosendale, Republican, who said that he is prepared to make some effort to trim back the governor's proposed spending program.

Hollander said the Democrats in control of the finance committee and of the Wisconsin assembly will probably make a

Opposition Imminent

Congress Pledges To Act on Housing

WASHINGTON (AP) — Key members of Congress pledged today to get to work promptly on President Johnson's housing recommendations. Some of the proposals appear to face strong opposition.

The program will be split into two parts at the Capitol, with the housing programs going to the Banking Committees and the proposal for a new Cabinet department of housing and urban development to Government Operations.

The Senate appeared likely to take the lead on both.

Sen. Abraham A. Ribicoff, D-Conn., who will conduct the hearings on the proposed new department, said this legislation "will be given the highest priority."

Hearings Soon

Sen. John Sparkman, D-Ala., Housing subcommittee chair-

Continued Rain, Cool Temperature

Fox Cities — Cloudy with temperature steady near the freezing mark. Occasional light rain and freezing drizzle with a little snow tonight and Thursday. Light easterly winds.

Appleton — Observations at 10 a.m. today. Temperatures for the 24 hours: High, 40, low, 31. Wind: 5 miles an hour out of the northeast. Barometer: 30.10 and steady. Relative humidity: 100. Dew point: 32. Temperature: 32. Skies are cloudy. Precipitation: .06.

Road Report — The Wisconsin Highway Patrol reported at 6:30 a.m. today that about one-half inch of new snow had created hazardous driving conditions in the northern third of the state.

Fog, mist and light freezing rain in the southern part of the state made driving in that area hazardous, too. In some sections visibility was cut to 200 feet.

Interstate roads were reported in fair winter driving condition, although some were wet.

Sun sets at 5:44 p.m., rises Thursday at 6:27 a.m.

Targets of U.S. Bomber Mission Are Kept Secret

Stunned by Bombing of N. Viet Nam

Kremlin Appears 'Sitting Tight'

BY WILLIAM L. RYAN

AP Special Correspondent

American bombs that fell on North Viet Nam seem to have shaken far-off Moscow. What is happening in Viet Nam could cause new trouble inside the Kremlin.

Moscow's reaction to the bombing has been one of nervousness. Its response suggests that the present Soviet regime is trying to sit tight, watch and wait, and perhaps seize an opportunity if one presents itself, to take a hand in Southeast Asia. But the restraint of Soviet protests indicates the regime hopes it will not have to do anything desperate.

Kremlin Stunned

The Kremlin seems a little stunned by it all. The regime's notable elements of the Communist party represented by First Secretary Leonid I. Brezhnev — reflects anxiety to avoid being too deeply involved at a time when it has little control over events in Asia. Perhaps it is hoping a situation will evolve which will give the Soviet Union more control.

Moscow denounces the U.S. raids angrily. It must do so, since the attacks are against a country ruled by communism. It makes threatening noises but gives no hint of readiness to do much else at this time.

However, the developments can supply ammunition to hard-line conservatives in the Soviet party and military who disliked the idea of "peaceful coexistence" to begin with, because it implied cutbacks in military expenditures. These elements now can apply pressure to step up military outlay at the expense of Brezhnev's program to raise Soviet living standards.

18 Nations

The bombs fell while Communists from 18 nations met with Soviet party members to consider

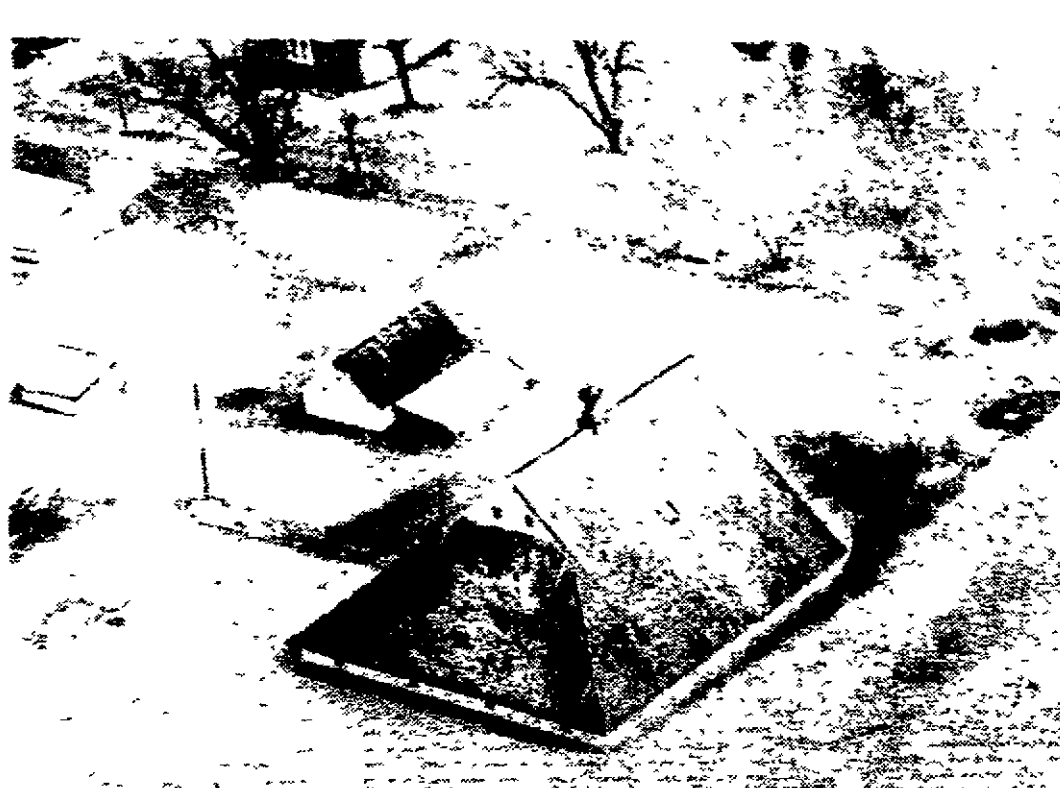

Israeli Planes
Dogfight With
Egyptian Craft

TEL AVIV, Israel (AP) — Israeli Mirage planes drove off a number of Egyptian MIGs in the Sinai border, and Israeli planes engaged them and forced them back.

The spokesman said the Egyptian planes crossed into Israeli air space at Nitzana, on the Sinai border, and Israeli planes engaged them and forced them back.

"All our planes returned safely to their base," the Israeli spokesman said.

Reports from the scene said four Egyptian planes crossed the border.

Concession to Steel Workers Union

Can Companies' Strike Talks Are Transferred to Pittsburgh

PITTSBURGH (AP) — Negotiations to settle a strike against two of the nation's largest can companies shift to Pittsburgh Thursday where they will coincide with a flurry of activity surrounding talks in the bigger, and more crucial basic steel industry.

William E. Simkin, director of the Federal Mediation and Conciliation Service, announced Tuesday the talks would be transferred from New York.

He didn't say so, but it apparently is a concession to the United Steelworkers Union which

about the same time the can negotiators meet, USW negotiators in the basic steel industry will be meeting. Later Thursday the union team is expected to meet with its industry counterpart to discuss the probable resumption of their long-delayed talks.

Cardinal Meyer's
Work Continued
By Auxiliary

CHICAGO (AP) — Albert Cardinal Meyer is hospitalized after removal of a malignant brain tumor but his work as head of the nation's largest Roman Catholic archdiocese is being carried on.

The Most Rev. Cletus F. O'Donnell, vicar general of the Chicago archdiocese, has assumed full responsibility and authority of the cardinal, spiritual leader of two million Catholics in the Chicago area.

Auxiliary Bishop O'Donnell referred to his new duties as "minding the store."

Surgeons at Mercy Hospital, where Cardinal Meyer underwent a four-hour operation last Thursday, said Tuesday a tumor removed from the cardinal's brain was cancerous.

The brief statement made no comment on the prelate's chances for recovery.

Malaysia Forces
Chase Guerrillas

KUALA LUMPUR, Malaysia (AP) — Malaysian forces were reported hot on the trail today of an Indonesian guerrilla band that gave them their worst blow to date in the hit-and-run war with Indonesia.

The band — estimated to consist of about a dozen men — ambushed a Malaysian platoon Sunday, killing eight soldiers and wounding five others, a military spokesman said. The ambush occurred in mainland Johore State, about 200 miles southeast of Kuala Lumpur.

strike have agreed to meet in Pittsburgh with federal mediators at 10 a.m. Thursday.

It will be the first session since an apparently fruitless one Monday, the day 32,000 steelworkers struck the American and Continental Can companies' plants in this country, Canada and Puerto Rico. The strike involves a dispute over pay and other benefits in a new contract.

Union Team

About the same time the can negotiators meet, USW negotiators in the basic steel industry will be meeting. Later Thursday the union team is expected to meet with its industry counterpart to discuss the probable resumption of their long-delayed talks.

Key Figure in Canadian Bribe Scandal Sought

MONTREAL (AP) — An international search was under way today for Lucien Rivard, a key figure in a bribe scandal that has rocked the Canadian government.

Rivard, 49, of Montreal, escaped Tuesday night from Boreaux jail with another prisoner. He is wanted in Texas as the alleged kingpin in a multimillion-dollar heroin smuggling ring.

Prison officials said Rivard and Andre Durocher slugged a guard and escaped through a boiler room. They commandeered a car from a passing motorist and abandoned it three miles from the prison.

Americans Arrested
In Spanish Protests

MADRID, Spain (AP) — Seven Americans were among 42 persons detained by police during student demonstrations in downtown Madrid Tuesday, official sources said today.

The seven included two tourists, four students and one accredited foreign news correspondent. All were released but in cases where photography was involved security police retained the films.

Lighting ignited the mixture of fuel and air in the No. 1 reserve fuel tank at the tip of the left wing of the Boeing 707-121, the board said. The result was an "explosive disintegration of the left outer wing and loss of control."

Miscellaneous Spending, for Example
Many Odd Facts Revealed in Senate Report

WASHINGTON (AP) — Many odd, unrelated and fascinating facts about the Senate came to light today with the publication of a six-month report by its secretary, Felton M. Johnson.

For example: The Senate spent \$2.66 million on "miscellaneous" items, which is more than the \$2,471,000 the members and the vice president draw in pay.

It costs \$58,370 to transport members from Washington to their homes twice a session. Last July the Senate bought 72 whiskbrooms for \$38.88 and spent \$11.88 having its service knives sharpened and \$25.85 repairing its sewing machine.

Unaccountably, it also invested \$27.90 in alpaca coats and \$449.05 in 25 blankets in that steaming month.

The Senate library, playing

it safe after the July Republican national convention, bought two copies each of two books about Barry Goldwater. The total outlay was \$3.50.

Last July was a busy month and the senators used up \$46,722 in long distance telephoning while paying out \$33,536 for local phone service. The bill for official telegrams, rendered in August, ran to \$62,953.

July and August often found the senators and their staffs thirsty. The Senate was billed \$479 for bottled water in July and \$686 in August.

Going social, the Senate Foreign Relations Committee put on a series of luncheons for visiting dignitaries. The layout for Chancellor Ludwig Erhard of West Germany ran \$339.78. But the committee got by with \$3.60 in party snacks

Pope Leads Catholics Into Lenten Season

Observes Ritual
Of Ash Wednesday
In Private Chapel

VATICAN CITY (AP) — Pope Paul VI marked the sign of the cross in ashes on his forehead today, leading the world's half billion Roman Catholics into the Lenten season of penitence, prayer and fasting.

The Pope's observance of the Ash Wednesday ritual, signifying human frailty and humility, occurred during a Mass he celebrated in his private chapel in the Apostolic Palace. The pontiff also marked the foreheads of his secretaries, aides and chamberlains with ashes.

Around the world Catholics stopped briefly at their churches to receive the ashes. They are made from palms from the previous Palm Sunday which are burned and mixed with chrism, or sacred oil.

The priest administering the ashes says a prayer reminding the recipients that man is made from dust and will one day return to dust, a warning for him to do penance and prepare for his end.

The 40-day Lenten period ends with the joyous Christian feast of Easter, celebrating Christ's Resurrection, April 18.

Pope Paul's Ash Wednesday schedule called for him to go later to the Church of Santa Sabina, on Rome's Aventine Hill, for Lenten devotions.

From next Monday to Saturday the Pope and many of his immediate staff, will go into spiritual retreat at the Vatican. All papal audiences that week will be canceled.

Lightning Listed as
Possible Cause of
Jet Airliner's Crash

WASHINGTON (AP) — For the first time in the history of American aviation, the government has listed lightning as the probable cause of an airliner crash.

The finding was announced today in a report by the Civil Aeronautics Board on the crash of a Pan American World Airways plane near Elkton, Md., Dec. 8, 1963. Eighty-one persons were killed.

Lightning ignited the mixture of fuel and air in the No. 1 reserve fuel tank at the tip of the left wing of the Boeing 707-121, the board said. The result was an "explosive disintegration of the left outer wing and loss of control."

Red Positions In Laos May Have Been Hit

SAIGON, South Viet Nam (AP) — More than 30 U.S. Air Force jets flew a mystery strike today from Da Nang air base. It was believed they hit at Communist positions in Laos.

Officials at Da Nang, 100 miles south of the border with Viet Nam, would not disclose the targets of the strike.

American officials in Saigon said there had been no strike against North Viet Nam today, but they refused to say whether raids had been made elsewhere outside South Viet Nam.

American jets have been hitting Communist targets in Laos fairly regularly for the past few months.

Communist Targets

A high Vietnamese source at Da Nang said the strike was against Communist targets either in North Viet Nam or in Laos. He declined to say which.

He said regular attacks against Communist targets in both countries could be expected in the future.

The American F100 and F105 fighter-bombers were heavily loaded with bombs and rockets. No Vietnamese planes took part in the mission.

President Johnson said in Washington Tuesday night that six jet planes were shot down in Tuesday's massive air raid against Red military targets in North Viet Nam and that five of the pilots had been rescued.

U.S. officials in Saigon said four Americans and one Vietnamese were rescued and one American pilot was still missing. A U.S. spokesman refused to say whether he was down in North Viet Nam.

Moscow radio said "one pilot

Egypt Appears Mounting New Anti-U. S. Attack

CAIRO (AP) — The Egyptian government appeared today to be mounting a new anti-American campaign because of the possibility that the United States may supply arms to Israel.

Cairo's government-controlled press and radio swung their verbal guns from Bonn, target of most of their attacks in the last few weeks, to Washington.

Editorials and commentaries attacked W. Averell Harriman, who Monday concluded five days of talks in Jerusalem as a special envoy from President Johnson. Johnson sent him there after West Germany stopped shipments of arms to Israel in a vain attempt to get U.A.R. President Gamal Abdel Nasser to cancel East German President Walter Ulbricht's visit to Cairo.

The Waupaca Fire Department worked for over five hours in the downpour Monday night in an effort to keep the rising waters away from the interior of homes in the King area but were unsuccessful. A fire department pumper was on the scene Tuesday pumping water away from the homes before cold weather returned, freezing the water and causing further damage. (Post-Crescent Photo)

In King Area

Waupaca Firemen Aid Flood Victims

WAUPACA — The Waupaca fire department was kept busy Monday night trying to remove water that had seeped into the basements of several homes of the King area. Department pumps were kept going most of Tuesday in an attempt to drain basements so that heating units could be put back into operation.

An elderly King couple, Mr. and Mrs. Ernest Larson, King Road, had to be evacuated from their home when water surrounded their home and finally reached several inches in depth inside the home.

Mrs. Larson, who was the victim of a broken hip last year, was taken to the Riverside Hospital and Larson was taken to a Waupaca Hotel until the water subsides and they can return to their home.

Waupaca County Highway Department crews worked throughout the day Tuesday, in an effort to open ice clogged culverts and ditches so that water could drain into nearby streams and lakes.

Lamers, who rescued a woman from a burning home in August, 1963, received the national award from a Milwaukee brewing company, one of 21 such presentations made in the nation.

Lester Sanders, fire chief, was presented a gold watch by other members of the department to commemorate his 37 years with the department. A sitting judge would be obliged to run against his own record.

Justice Heffernan stated that on the average only a small percentage of the voters bother to get out in a judicial primary and that the effect of this low vote was to give the active voters many times the weight which they would normally be accorded.

Minority Vote Justice Heffernan stated, "The fact that there is a judicial primary election next Tuesday is one of the best kept secrets in Wisconsin and the fact that those who are nominated will be nominated by a small minority of the voters will be used as proof that the public has no interest in the election of their judges and as an argument that 'experts should nominate judges'."

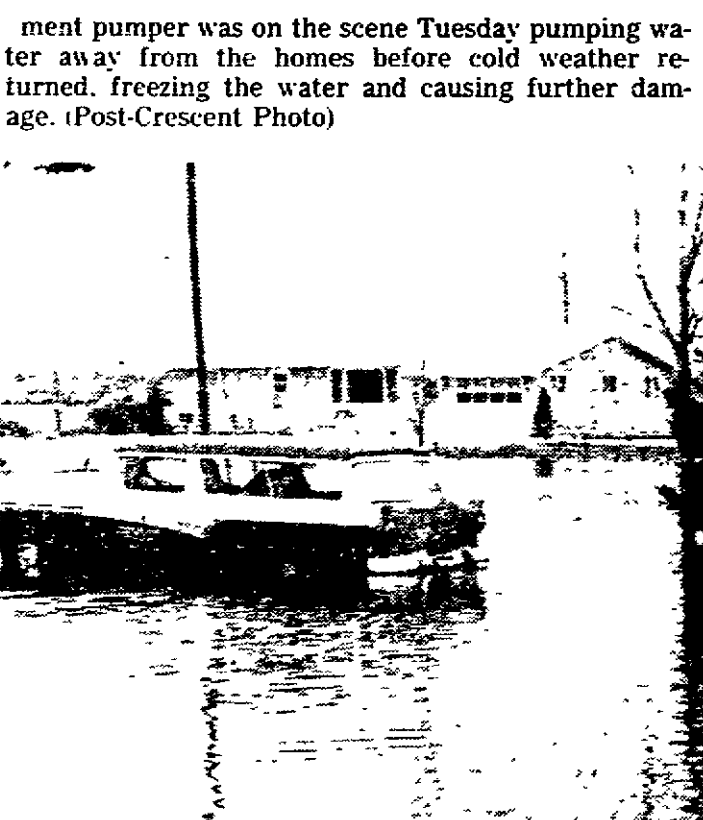

The press and radio and TV on the whole have been firm believers in the elective system of judicial selection, and I urge that they continue to assume the responsibility of alerting the public that this election is coming up so soon I urge the press and radio as a public service to give greater attention and publicity to this rapidly approaching and important judicial election."

Although the bar associations in general had shown themselves to be alert to the problems inherent in the selection of judges, that they too as officers of the courts had a special responsibility to dispel the public apathy and to be sure that there was a reasonably representative vote on March 9, he concluded.

Winnebago State Chief Engineer to Give Talk MENASHA — Karl Knudsen, chief engineer of Winnebago State Hospital, will be speaker for the educational program of the National Association of Power Engineers at Nicolet Hall at 8:30 p.m. Monday.

The subject will be "The Modern Trend in Automation as Applied to Power Plants."

Athletic Director Robert Wolk, left, presents the Seymour Regional Wrestling tournament trophy to high school wrestling coach Richard Tepp. The Seymour grapplers outdistanced a field of nine teams with four championships. Hortonville was second. (Post-Crescent Photo)

The Ernest Larson Home at King, west of Waupaca, was flooded as rains in western portions of Waupaca County caused considerable flooding of highways and home basements. Basement flooding caused the failures of several furnaces. The Larsons were evacuated from their home which suffered extensive damage. Water had risen to 10 inches. (Post-Crescent Photo)

Low Vote May Force Changes

Heffernan Calls for Greater Response In Judicial Primary

Justice Nathan S. Heffernan, speaking at the Brown County Bar Association in Green Bay on Tuesday, advised that unless there is more wide spread participation in judicial elections particularly the primary, the adoption of the Missouri Plan or one of its modifications was almost inevitable.

The Missouri Plan, he explained, contemplates that the governor make his appointment only from a small list prepared by the bar and other experts.

Justice Heffernan stated that on the average only a small percentage of the voters bother to get out in a judicial primary and that the effect of this low vote was to give the active voters many times the weight which they would normally be accorded.

Minority Vote Justice Heffernan stated, "The fact that there is a judicial primary election next Tuesday is one of the best kept secrets in Wisconsin and the fact that those who are nominated will be nominated by a small minority of the voters will be used as proof that the public has no interest in the election of their judges and as an argument that 'experts should nominate judges'."

The press and radio and TV on the whole have been firm believers in the elective system of judicial selection, and I urge that they continue to assume the responsibility of alerting the public that this election is coming up so soon I urge the press and radio as a public service to give greater attention and publicity to this rapidly approaching and important judicial election."

Although the bar associations in general had shown themselves to be alert to the problems inherent in the selection of judges, that they too as officers of the courts had a special responsibility to dispel the public apathy and to be sure that there was a reasonably representative vote on March 9, he concluded.

Winnebago State Chief Engineer to Give Talk MENASHA — Karl Knudsen, chief engineer of Winnebago State Hospital, will be speaker for the educational program of the National Association of Power Engineers at Nicolet Hall at 8:30 p.m. Monday.

The subject will be "The Modern Trend in Automation as Applied to Power Plants."

Nine-County Area

Surplus Food Distribution Totals 229,000 Pounds to 12,500 Persons

NEW LONDON — United Counties Distributors, distributors of surplus foods in nine counties, delivered 229,911 pounds of commodities to 12,531 persons. The figures for February do not include the Oconto County deliveries.

Outagamie County was the top participant in the program with 2,456 persons receiving 40,045 pounds of food. In Winnebago County delivery of 37,397 pounds of food was made to 2,108 people.

Waupaca County residents received 24,922 pounds of surplus products for 1,420 participants. Shawano County had 1,337 persons receive 24,897 pounds; Waushara, 594 persons and 11,498 pounds; Fond du Lac, 1,449 participants and 28,477 pounds; Portage, 1,471 persons and 28,446 pounds; and Marathon had 1,696 persons receive 34,229 pounds.

The Marathon total is considered surprising as it is the county's second month of participation in the program.

March Schedule Theodore Thomas, director of the program, announced the following Fox Valley schedule:

Friday — South Oshkosh, 8:30 a.m. to 3:30 p.m.
Monday and Tuesday — Oshkosh, northside, 8:30 a.m. to 3:30 p.m.
March 10 — Neenah, 8:30 a.m. to 3:30 p.m.

March 11 — Menasha, 8:30 a.m. to 3:30 p.m.
March 12 — Winneconne, 8:30 a.m. to 3:30 p.m. and Omro 10:30 a.m. to 12 noon.
March 15 — New London, Waupaca County, 9 a.m. to 4:30 p.m.; Waupaca, 8 a.m. to 2 p.m.; Fremont, 2:30 to 3 p.m. and Readfield, 3:15 to 3:45 p.m.
March 16 — Northport, 7:30 to 7:45 a.m.; Royalton, 8 to 9 a.m.; Manawa, 9:15 a.m. to 12 noon and Weyauwega, 12:30 to 3 p.m.

March 17 — Ogdensburg, 8:30 to 11 a.m.; Scandinavia, 11:15 a.m. to 2 p.m. and Iola, 12:30 to 2:45 p.m.
March 18 — Clintonville, 8 a.m. to 1 p.m. and Marion 1:30 to 2:30 p.m.

Pierce Park March 23 — New London, Waupaca County, 9 a.m. to 1 p.m. and Pierce Park, Appleton, 8:30 a.m. to 3:30 p.m.
March 25 — Outagamie Air-Port, Appleton, 8:30 a.m. to 1:30 p.m. and Hortonville, 2 to 3 p.m.
March 26 — Kaukauna, 8 a.m. to 1 p.m. and Freedom, 1:30 to 2:30 p.m.

March 29 — Oneida, 8 a.m. to 12 noon; Seymour, 12:30 to 1:30 p.m. and Black Creek, 2 to 3 p.m.
March 30 — Bear Creek, 8:30 a.m. to 10 a.m. and Shocott, 10:30 a.m. to 12 noon.

Opolka was arrested Saturday night by Clintonville police after he had allegedly parked his car in front of the fire department. He refused to move it when a fire alarm was sounded, will face trial on three charges stemming from the incident.

Mike S. Opolka, 42, Norway, Mich., posted bonds of \$91.70 Monday after pleading innocent to disorderly conduct, abusive language and parking in front of the fire department doors. Date p.m. and Hortonville, 2 to 3 p.m. has not been set for his next p.m. court appearance.

Opolka was arrested Saturday night by Clintonville police after he had allegedly parked his car in front of the fire department. He refused to move it when a fire alarm was sounded, will face trial on three charges stemming from the incident.

Stockbridge Set for Fish Festival

STOCKBRIDGE—Some 123 sturgeon, weighing in at 6,152 pounds, were hauled from Lake Winnebago and registered in the fifth annual Sturgeon Contest sponsored by the Chamber of Commerce here.

Local spearing champion, Chester Laux, route 3, Appleton, whose 111-pound sturgeon was registered at Schoen's Harbor Bar, will be crowned at the annual Sturgeon festival Sunday at the high school gym.

Laux will receive \$10 in "sturgeon money" redeemable at area business establishments which are chamber members, a permanent trophy and a traveling trophy to hold for a year.

Retains Trophy The trophy Laux retains is donated by the George Walter Brewing Co., Appleton. The firm also is donating two trophies for the winners of the Pike Derby. They are Jeffrey Jentsch, Hilbert and Wally Fisher, Brillion.

A 96-pound fish speared by Mark Heimbach, Stockbridge, took the prize for the first week of the contest and a 110-pounder registered by Fred Popp, route 2, Hilbert, took the second week prize. Laux captured the prize money for the final week. Heimbach registered his fish at Gib Schoen's and Popp's was checked in at Wally Krug's.

Sunday Event All cash and trophies will be presented Sunday afternoon. In addition to the awards, the program will include an art showing by a village art group and a ceramic display by Duane Bass, Chilton, and students from Stockbridge. Sonje Johnson, Appleton, dance instructor and Donna Benna, baton teacher, Chilton, will entertain, and a film on sturgeon and pike fishing on Lake Winnebago will be shown. The program begins at 2:15 p.m.

CHILTON — City aldermen Tuesday night decided to file a petition for federal aid for the resurfacing of the city portion of U. S. 151. A representative of the State Highway Commission recommended the action when he met this week with Mayor Harry Thompson and City Clerk Arthur Pohland. Because it might take several years for federal aid to be approved, b-1 spots in the road will be patched in the interim.

Walter Muehl, director of public works, reported that he has discussed bids on the drilling of test wells with three local firms and hopes to enter into a contract within a few days. He also said options are pending with farmers for drilling sites.

First Step These are the first steps in Chilton's quest for a water supply out of the city limits. At the Feb. 16 council meeting, Muehl pointed out the necessity for this action.

Despite the opening of a fifth operating well, No. 6, last month, a water shortage exists in the city. Officials discovered that the newest well was drawing its water from the same vein as well No. 5, and as a result, the capacity of both has been affected.

Sewage Plant The council approved inclusion of an incubator in the proposed purchase of new roofing and heater for the sewage plant. The roofing and heater had been approved earlier. The incubator, costing \$567, will be used for laboratory tests at the plant.

If approved, federal aid will cover approximately one-third of the costs. An automatic oiler for the sludge pump will be purchased and installed by sewage plant workers in an effort to cut down on costs. It was decided not to purchase a new gas meter for the sewage department. Muehl felt this was not an immediate necessity considering the cost of approximately \$360.

Leo Laughlin, proprietor of a local liquor store, asked council action restricting the number of beer licenses which could be issued. He said most towns of similar size had laws limiting the number of licenses. The Turn to Page 3, Col. 7

CHILTON — A Chilton Metal Products Co. employee, Lawrence Zulke, 22, route 1, Brillion, suffered second degree burns in a gas explosion at the plant about 7:30 p.m. Tuesday.

Zulke was filling the fuel tank of a lift truck at the west side of the main plant when an engine spark is believed to have ignited the gasoline, causing the explosion.

The city fire department was called to the scene by a city policeman who had been parked close to the plant and spotted the blaze.

The fire was extinguished within an hour. Zulke was treated at Calumet Memorial Hospital for burns to his face and arms and released.

The explosion and fire occurred near the metal fabricating firm's propane gas torch division. No damage estimates have been given.

Housewives Happy With Choice of Mayor CITRINA, Italy (AP) — Housewives in this central Italian town are convinced that they made the right choice in electing a woman. Flora Volpini, as mayor.

Her first official act Tuesday was to install four new washing machines in a public site free to all. Many of Citrina's housewives have done their washing along the banks of streams.

A warrant on the two charges was issued Monday by District Attorney Gerald Engeldinger on a complaint of Harold Danks, Winnebago County nunane officer.

According to the complaint, the carcasses of one pig, five cows, two calves and two horses were involved. An investigation at the Gibson farm was conducted Saturday by Danks.

No bond was ordered by Judge Sitter

OSHKOSH — John Gibson, 73, County Trunk G, Town of Vinland, will appear in Winnebago County Court at 10 a.m. March 18 to answer charges of cruelty to animals and failure to remove dead animal carcasses within 48 hours.

He was originally scheduled to appear before Judge James Sitter this morning but Gibson's attorney, Thomas Hughes, Oshkosh, requested a two-week adjournment.

Wildcats, Bonduel Post Tourney Wins

Wittenberg Logs 61-52 Victory Over Marion, Meet Bears Friday

BONDUEL — Wittenberg's Mustangs cut the deficit to 40-38. Wildcats and Bonduel advanced into the finals of WIAA State High School tournament sub-regional play here last night. Wittenberg topped Marion, 61-52, while the host Bonduel contingent erased Manawa, 79-61.

The two victors battle it out in the sub-regional final here Friday for a berth in the regional final at Marion Saturday.

Wittenberg led throughout the whole contest, enjoying a 30-23 lead at the half, but Marion made a determined bid for the lead in the third quarter. Working with a press and benefitting from the scoring of Ken Frailing and Tom Jolin, the

Chilton Upsets Kiel, 81-62, in Subregional Tilt

Tigers Clash With New Holstein in Next Tourney Tilt

CHILTON — The Chilton High School basketball team opened subregional tournament play at Kiel by upsetting the host Raiders, 81-62, Tuesday night.

Eastern Wisconsin Conference champion New Holstein whipped the Sheboygan Falls Falcons 87-58.

Chilton scored eight straight points to take an 8-4 lead after trailing 4-0.

Five Tigers scored in double figures. Al Whitby had 24, Don Jagd and Don McHugh each had 14 with McHugh's coming in a reserve role, Paul Juckem collected 13 and Leroy Schmidtkofer added 10.

For Kiel Jim Duerst led with 26 points while Barry Theiler added 17.

The Tigers will play New Holstein Friday night in the second game. The first game pits the two Tuesday losers, Chilton and Sheboygan Falls.

The winner of the New Holstein-Chilton game will play the winner of the Kohler subregional at Kiel Saturday night for the regional title.

The box score: CHILTON: 16 19 19 27 — 81; Schmidtkofer, 4 2 5; Wilson, 0 0 1; Casper, 0 2 1; Juckem, 5 3 3; Whitby, 10 4 4; Wagner, 1 0 0; Hauser, 0 2 4; Pregel, 6 2 1; McHugh, 4 6 0; Totals: 30-21-19. KIEL: 11 10 22 19 — 62; Daus, 0 1 1; Duerst, 11 4 3; Wedge, 2 0 0; Theiler, 8 11 2; Meiselwitz, 1 1 1; Kissinger, 0 0 1; Stumpf, 0 0 1; Wusterbarth, 0 0 3; Totals: 18-6-62.

Mildred Daun Fires 'High Single 207 in Chilton Major League

CHILTON — Mildred Daun, bowling for the Hedrich Construction team in the Monday night Major League, fired a 207, the high individual game for the evening.

Beulah Hawig came up with the top series of 531 and a 202 game, bowling for the El Toro team.

Other 500 series bowlers were: Florence Bruckner, 525; Irene Viten, 522, and Rose Propson, 501.

The Manorette team rolled the high single game of 817, name of the shop will not be divulged. The high 3-game total of 2-289.

The State Bank leads the league with a 44-22 record. El Toro is in second place with Waupaca until its sale two years ago.

The Blue-Gold Banquet of the Fremont Cub Scouts, who have been sponsored by the Wolf River American Legion Post for more than 15 years, was combined with a review of the activities throughout the year. Viewing some of the projects, from left, are Andrew Mead, John Krablien, commander of the Legion Post; Gregg Oehlke; Dick Mathwig and James Biddison, den chiefs, and Robert Stevens. (Schmidt Photo)

Parent Organization Is Nucleus

Clintonville Hospital Auxiliary to Open Membership to Individuals

CLINTONVILLE — The Clintonville Community Hospital Auxiliary at a meeting Monday night voted to change its membership structure.

Present membership includes Barker, and nursery pictures, Mrs. R. I. Reichle.

Report April 19 The committees will report to the auxiliary at its annual meeting April 19.

Mrs. Davis thanked the women who helped at the telephones for the last Bloodmobile visit and asked for volunteers to again call April 12 for the next Bloodmobile visit.

The auxiliary will allow individual memberships together with the present 18-parent organizations.

Area Auxiliaries Mrs. Davis reported on the activities of area auxiliaries including New London, Shawano and Waupaca. She told of the group's regular meeting, ways they make money to carry out various projects for the hospital.

Ideas suggested for the Clintonville auxiliary were a gift cart, hospital tours, the five-year-olds' annual party, safety school for five-year-olds, a Maxwell Street booth, nursery pictures, toy chest, tray favors, baby bibs and a "Professions in Medicine Day."

Committees were established to study the projects. Heading the gift cart study will be Mrs. Clarence Quall; membership and constitution, Mrs. Louis Kort, Jr.; Mrs. Charles Middle; and Mrs. Dale Leander. "Career Days and Hospital

Waupaca High Seniors To Fly to Washington For Graduation Trip

WAUPACA — Some 47 high school seniors have signed up for the annual Washington, D.C. trip from April 13 to 16, according to Supt. George Hendrickson.

This year the Waupaca students will join with another group from Stevens Point and travel by chartered plane instead of by train. The Waupaca students will be accompanied by four chaperons.

The group will leave from Stevens Point.

Clintonville Curlers Host to Visiting Rinks

CLINTONVILLE — Four out-of-town rinks were guests of the Broomettes at a "Fun Day" Tuesday at the Clintonville Curling Club.

They were the Waupaca Lochs, Wausau Highlanders, Green Bay Bonnies and Appleton Tam O'Shanter.

A coffee hour opened the activities followed by curling both in the morning and afternoon. A luncheon was served at noon by the Broomettes. Mrs. F. H. Schafer was general chairman.

In the morning curling, Waupaca defeated Green Bay and Friday; Wausau defeated Appleton. The afternoon, Waupaca defeated Wausau and Appleton defeated Green Bay.

Clintonville OES Unit Plans Dessert-Coffee

CLINTONVILLE — The regular meeting of the Order of Eastern Star will be at 8 p.m. Tuesday. There will be a dessert-coffee at 7 p.m. at the Masonic Temple.

Bridge and canasta will be played during the social hour. Hostesses will be Mrs. Clarence Quall, chairman, Mrs. Victor Anderson, Mrs. Robert Anderson, Dr. and Mrs. R. E. Knieser, and Mrs. Howard Aches.

Embarrass Dog Law Changed

Canines Now Must Be Controlled All 12 Months of Year

EMBARRASS — The Embarrass Village board at its meeting Monday night amended its dog ordinance so that all dogs in the village must be kept on the owner's premises or under his direct control 12 months of the year.

This formerly was necessary only from March 1 to November 1.

Roman Gipp, chairman of the public property committee, was instructed to contact a roofing contractor about repairs, and to report back to the board at its next meeting.

The fire department was granted its request for new equipment costing \$147.

Robert Olson, clerk, was authorized to purchase an adding machine at a price not to exceed \$130.

President Henry Gipp explained the Uniform Signs manual, presented by the State Highway department through the County Highway department.

School Group Will Donate \$100 to Library

CLINTONVILLE — The St. Martin Lutheran School auxiliary voted to donate \$100 to the school library at its meeting Monday night in the school gym.

Mrs. Esther Heidke spoke on "Loving Through Witnessing" moved with his wife to Clintonville.

Projects suggested for the organization were the buying of the film strips and records for the music program and also picture study prints for social studies.

Mari Stenvag, the AFS ex-possible calls to fill the vacancy change student from Sweden at St. Martin and the congregation attending Clintonville Senior Center voted to call a pastor.

Hostesses Monday night were Mrs. William Ebert, Mrs. Her- to vote on this matter.

Rev. William Christian is the associate pastor at St. Martin.

Rev. Donald Biester, who has been associate pastor since 1960, has accepted a call to Tipton, Ind., and will preach his farewell sermon here Sunday.

The Rev. Mr. Krueger is a retired Lutheran minister who has accepted a call to Tipton, Ind., and will preach his farewell sermon here Sunday.

Waupaca Has About 326 Retarded Children

County Association Told 3 Per Cent of Youngsters Have I.Q. That Is Below Normal

MANAWA — The Waupaca County Association for Retarded Children met Monday night at the high school to hear Frank DiCristina, guidance director of Clintonville Junior High School, and head of the association's research committee.

Figures from the National Association for Retarded Children show that an estimated 3 per cent of the total enrollment in school has below normal I.Q., he said.

DiCristina said from the total of 10,884 pupils in both public and parochial school in Waupaca County, an estimated 326 pupils are mentally retarded.

Special Classes Special education classes in Waupaca County have a total enrollment of 68 pupils. There are nine enrolled in the trainable special education class at Manawa. In the educable special education classes at Clintonville, 16 are enrolled; New London, 11; Northport, eight; Iowa, 12, and Waupaca, 12.

From the figures compiled, there are an estimated 258 mentally retarded children in Waupaca County not enrolled in special education classes.

Parents don't accept the fact from the teachers that their children have below a normal I.Q. and that it is for the good of the child to be placed in special education rather than moved from grade to grade.

DiCristina said. There are possibly 35 more pupils in the Clintonville school systems that should be in a special class, he added.

Parents' Acceptance Until the parents recognize it or accept it, nothing can be done. Any parent in doubt about his child can contact a member of the Waupaca County Association about his problems, he said.

The next meeting will be held jointly with the Shawano association at St. Mary Catholic Church, Marion. Ed Phiefer, senior supervisor, State Board of Vocational and Adult Education, Rehabilitation Division, will speak on workshops for the mentally and physically handicapped.

Hostesses Monday night were Mrs. Matt Dahm, Mrs. Max Munderfeld, and Mrs. Clement Tyrrell.

Brillion Holds on for 71-69 Win Over Casco

CASCO — Brillion High School scored 15 field goals and a pair saw an 11-point lead disappear of free throws to lead both teams with 32 points.

John Lindner and Keith Winkler had enough to preserve a narrow 71-69 victory over Casco and J Ross added 17.

BRILLION — (12-24-14-20-71) Ross 8 1 1; Haum 2 0 3; Lidner 9 1 3; Haberman 1 1 2; Winkler 7 5 2; Hempel 3 3 4. Totals 20-11-15-15-69.

CASCO — (15-18-17-19-69) Briether 4 4 4; Jorgenson 15 2 4; Al Jorgenson of Casco went on Landwehr 6 3 4; Thirby 2 3 5; a scoring spree and brought the Kozlowski 0 0 1; Riedy 0 3 1. losers without reach. Jorgenson Totals 27-15-19.

Clintonville Curlers Host to Visiting Rinks

CLINTONVILLE — Four out-of-town rinks were guests of the Broomettes at a "Fun Day" Tuesday at the Clintonville Curling Club.

They were the Waupaca Lochs, Wausau Highlanders, Green Bay Bonnies and Appleton Tam O'Shanter.

A coffee hour opened the activities followed by curling both in the morning and afternoon. A luncheon was served at noon by the Broomettes. Mrs. F. H. Schafer was general chairman.

In the morning curling, Waupaca defeated Green Bay and Friday; Wausau defeated Appleton. The afternoon, Waupaca defeated Wausau and Appleton defeated Green Bay.

Clintonville OES Unit Plans Dessert-Coffee

CLINTONVILLE — The regular meeting of the Order of Eastern Star will be at 8 p.m. Tuesday. There will be a dessert-coffee at 7 p.m. at the Masonic Temple.

Bridge and canasta will be played during the social hour. Hostesses will be Mrs. Clarence Quall, chairman, Mrs. Victor Anderson, Mrs. Robert Anderson, Dr. and Mrs. R. E. Knieser, and Mrs. Howard Aches.

Waupaca City Meeting Cancelled by Illnesses

WAUPACA — Due to the illness of several members of the Waupaca City Council, the group's regular meeting, was cancelled Tuesday night.

Mayor Lloyd Matheson said because only a small amount of business was on the agenda for the meeting, it will not be rescheduled and the business will be handled at the next regular meeting March 16.

Archery Firm Is Sold To Hortonville Man

CLINTONVILLE — The Stalker Archer Co., 147 Eighth St., has been sold to Milton Collar, 333 Pine St., Hortonville, according to John Schoenike.

The archery stock has been moved to Hortonville and the business will be operated there as Collar's Stalker Archery Co.

New London City Clerk Returns to Duty After Operation in Madison

NEW LONDON — City Clerk Melva Rickaby returned to work Tuesday after a leave during which she underwent surgery to her left hip for an arthritic condition at University Hospital, Madison. She had been off since Jan. 14 and expects to have an operation to her right hip in the future.

Handling the clerk's duties during her absence were M. J. Stewart, deputy clerk, and Vicki Visocky.

Clintonville Man Pays \$25 for Drunkenness

CLINTONVILLE — Duane B. Parczick, 24, Parkview Hotel, Clintonville, forfeited \$25 and costs on a drunkenness charge Monday when he failed to appear before Municipal Justice Nathan Wiese.

Parczick was arrested by the Clintonville police Saturday night.

Communion Services

CLINTONVILLE — Communion services will be at 6:30 today to begin the Monday before Municipal Lenten season at Christus Lutheran Church. A previous announcement gave the first service as 6 p.m.

11-Point Lead Fades

CASCO — Brillion High School scored 15 field goals and a pair saw an 11-point lead disappear of free throws to lead both teams with 32 points.

John Lindner and Keith Winkler had enough to preserve a narrow 71-69 victory over Casco and J Ross added 17.

BRILLION — (12-24-14-20-71) Ross 8 1 1; Haum 2 0 3; Lidner 9 1 3; Haberman 1 1 2; Winkler 7 5 2; Hempel 3 3 4. Totals 20-11-15-15-69.

West Germany Ends Boycott of Fair at Leipzig

Industrial Giants Return With Displays Of Various Wares

LEIPZIG, East Germany (AP) — West Germany's industrial giants have ended their boycott of the Leipzig fair. East Germany's commercial showpiece.

The big names of the Ruhr — Krupp, Mannesmann, Thyssen, Hoesch and Rhein Stahl — came back to the fair this year, which opened Sunday, with huge displays of their latest heavy machinery.

The electrical equipment firms of AEG and Siemens again are displaying their wares, ready to do business with all comers from East or West.

Chemical Industry

West Germany's chemical industry has also returned. Bayer, Hoechst, BASF — Badische Anilin und Soda Fabriken — Dynamit Nobel and Degussa have prominent displays.

All these firms heeded the West German government's call for a boycott three years ago to retaliate against the building of the Red Berlin wall.

The boycott was largely a symbolic gesture, although it may have cost West German firms some orders. West German exports to East Germany totaled \$298 million last year, and \$277.5 million worth of East German exports came to West Germany.

At official receptions, West German businessmen hovered around Soviet Premier Alexei N. Kosygin, Polish Premier Jozef Cyrankiewicz and top East German officials.

Ernst Wolf Mommensen, board chairman of Phoenix Rheinrohr, said after a talk with Kosygin that he was "personally very proud" to have good relations with the Soviets.

The largest Western exhibitor at the fair is France, showing automobiles and machinery. Britain, Italy and Sweden also have large exhibits.

Little Change Is Forecast for State Budget

CONTINUED FROM PAGE 1

caucus policy decision to back the Republican governor's appropriations recommendations in spite of some early grumbling about the prospectively burdensome tax increases that will accompany the expenditures proposed.

Pay Increases
In an interview, Hollander also commented that:

1. His own intention is to try to cut back some of the pay increase plans for state-employed teachers and civil servants in the Knowles budget, and to trim departmental requests for new employee hiring authorizations wherever possible.

2. The legislature is likely to settle for a combination of extended sales taxes and higher personal income tax rates, when the time comes to bridge the deficit that is regarded as likely to reach at least \$110,000,000, and very likely will be higher.

3. There is no serious chance of a legislative proposal to top 10 per cent from recommended appropriations for all services, across the board, as some disgruntled Republicans in the assembly have reportedly discussed in their caucus recently.

Education Costs
4. The legislature should try to extract more of the rapidly rising costs of higher education from the direct beneficiaries of those services through a further boost in student fee schedules than the governor has proposed. Hollander said the 1963 legislature was very generous in authorizing salary boosts for state university faculty members, and that he will oppose granting more than a five per cent further increase during each of the next two years.

Hollander noted that his committee has not yet held executive sessions to make recommendations on particular appropriations, because the Democratic majority has not yet consented to such meetings. He speculated that the reason is that the Democratic legislators

King to Deliver Eulogy at Rites For Slain Youth

SELMA, Ala. (AP) — Two funeral services today for a Negro who lost his life in Alabama's black belt civil rights drive underscore the intense struggle over voting power in this predominantly Negro area. Civil rights leaders called for mass turnouts by Negroes at services here and in nearby Marion where Jimmie Lee Jackson, 26, a Negro laborer, was shot Feb. 18 in an outbreak of racial violence. He died eight days later in a Selma hospital.

Dr. Martin Luther King Jr., returning to Alabama after a speaking trip, planned to deliver the eulogy at Marion following a funeral service in Selma. Jackson was the first victim of violence in a new drive aimed at breaking the white political monopoly in the black belt — named for its fertile soil.

Twins Found On Mudbank

DAYTON, Ohio (AP) — The twin daughters of a Dayton physician, found on a mudbank in the Stillwater River, remained in critical condition early today. Police said they were unable to question 15-year-old Linda and Barbara Baker as to how they got to the mudbank.

A city rescue unit had to be called to remove the girls after a moving van driver saw them on the mudbank early Tuesday. They had been reported missing from their home in suburban Oakwood Monday by their parents, Dr. and Mrs. Lynne Baker.

Police said the girls were treated for exposure and that they had been under medical care before they were reported missing.

Congresswoman Just 'One of the Boys'

WASHINGTON (AP) — After 25 years in the House, Rep. Frances E. P. Bolton says she no longer is thought of by her colleagues as a congresswoman "but as just one of the boys." That, she said in response to anniversary tributes Tuesday, is what she appreciates most. It makes for "good statesmanship, good sense and the marvelous camaraderie we have in this House," said the Ohio Republican.

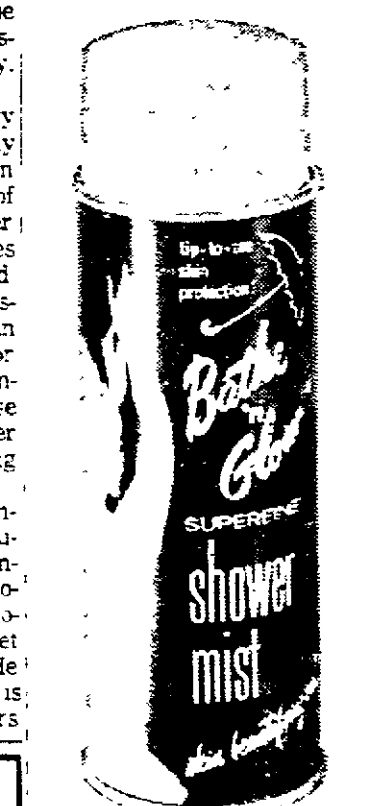

have not yet evolved their basic strategy in dealing with the state's financial problem and with the budget presented by the Republican administration.

Needed Spending
But in the end the Democrats will conclude that they will prefer to support the Knowles definition of the state's needed expenditures to working for reductions, as some individual Democrats have suggested may be desirable, he said.

The veteran senate leader said his public hearings on the appropriation recommendations of the governor will end in about three weeks and: "Then we'll get down to some real weed-picking."

Appointment Criticism

Democrats Ready to Rap Tax Bill Delay

MADISON (AP) — Republican shanship purposes far behind the Gov. Warren P. Knowles has realm of reasonableness. "We Democrats do not have trust and confidence in him," Risser said.

Knowles appointed Keliher to a new six-year term in the \$17,000 a year post he has held since its creation in 1947. He has remained in office the last four years because the Senate's majority Republicans refused to confirm a successor named by Democratic governors.

Sen. Robert Knowles of New Richmond, the majority leader, defended Keliher. Before the debate began, the Senate confirmed 18 other appointments without discussion. To the State Personnel Board: William Ahrens of Muskego and Charles F. Brecher of Janesville.

To the Coordinating Committee for Higher Education: Thomas M. Cheeks of Milwaukee and Arthur E. Wegner of Madison.

To the State Board of Health:

Name Added to State Road Toll

BY THE ASSOCIATED PRESS

The 1965 Wisconsin highway toll has reached 135 with the death of a Clark County man. The total on this date a year ago was 155.

Ronald F. Glenzer, 48, of Stanley died in a hospital here Tuesday of injuries received Sunday in a three-car crash on Highway 29 near Stanley.

Dr. Frank E. Drew of Whitefish Bay and Dr. Byron D. Ising of Oshkosh.

To the Mental Health Advisory Committee: Kirby Hendee of Stevens Point and Thomas N. Tuttle of Milwaukee.

To the Savings and Loan Advisory Committee: Paul C. Kehr of Watertown and Henry Wozniak of Milwaukee.

To the State Aeronautics Commission: Gordon D. Leonard of Milwaukee. To the State of Wisconsin Investment Board: John D. Naber of Shawano.

To the Board of Regents of the University of Wisconsin: James W. Nellen of De Pere.

In the Assembly, preliminary approval was granted to several bills, including a measure that would increase the number of foreign doctors allowed to practice in the state from 25 to 50.

Red Positions In Laos May Have Been Hit

CONTINUED FROM PAGE 1

balled out in a jungle area and a search has been organized" by the North Vietnamese. The broadcast said the plane went down near Quang Khe, a North Vietnamese navy base about 60 miles north of the border and one of the raid's prime targets.

A North Vietnamese army communique reported by the Soviet news agency Tass said nine American and South Vietnamese planes were shot down Tuesday.

More than 160 land-based U.S. and Vietnamese planes attacked Quang Khe and a munitions depot at Xom Bang, 15 miles north of the border.

Planes of the U.S. 7th Fleet did not participate in the raid, but took part in the protection and recovery of several of the downed fliers.

Seven Navy propeller-driven Skyraider fighter-bombers from a U.S. aircraft carrier buzzed a line of North Vietnamese boats near one downed American flier, Lt. James A. Cullen, 28, of Winchester, Mass., until an amphibious plane landed and rescued him.

South Viet Nam said three unidentified planes made a "timid attempt" to intercept Vietnamese fighter-bombers returning from the raid but were scared off.

The official Viet Nam Press Agency said its pilots spotted the three strange planes coming from the east, "obviously intending to head off the Skyraiders." It quoted the Air Force Command as saying the larger number of South Vietnamese planes "apparently frightened them away."

No Communist air activity has been reported during any of the previous American or South Vietnamese air strikes against the Communist north.

North Viet Nam's air force is outdated and small. But the U.S. Defense Department has said MIG jet fighters manned by Red Chinese pilots are now based in North Viet Nam.

The loss of six planes was the heaviest yet in the raids on North Viet Nam.

Find 28 Bodies In Apartment

MONTREAL (AP) — Twenty-eight bodies have been recovered from the wreckage of the apartment house that exploded Monday, and police say all known occupants of the building have been accounted for.

A search of the ruins continued today, however, in case any passersby were killed in the blast. Of 15 children killed in the explosion, three did not live in the building but were waiting in a doorway for a school bus.

Another 27 persons are in hospitals with injuries.

Lost Throne For Love, Has Power Now

GABERONES, Bechuanaaland

(AP) — For the love of a white woman, Seretse Khama lost the throne of an African dynasty. Now, 15 years later, Khama is on the threshold of more power than he would have enjoyed with the crown he lost.

His conservative Bechuanaaland Democratic party won a landslide victory last Sunday in the first parliamentary elections held in this British protectorate in southern Africa. The Democrats won at least 23 of the 31 Assembly seats, and Khama, 43, returning from the raid but is slated to become prime minister.

Khama was born heir to the chieftainship of the Bamangwato tribe, the most important in Bechuanaaland. To prepare him for the day when he would become Chief Khama IV, he was sent to England in 1946 to study at Oxford.

At a students' dance in London he met a red-haired stenographer, Ruth Williams, 23.

Soon afterwards, she took Seretse home to meet the family. They were married in 1948. The wedding produced an explosion of wrath 6,000 miles away in Seretse's homeland.

The tribal elders considered that marrying a white woman meant diluting royal African blood. Seretse's uncle Tshekedi, acting regent of the tribe, was the heaviest yet in the raids on North Viet Nam.

Kremlin May Be Stunned By Bombing

CONTINUED FROM PAGE 1

er the split bedeviling the Red world. The Chinese scorned the meeting and now will have a chance to claim they were right all along, that peaceful coexistence is impossible.

The Soviet regime has tried to deflect some of the enormous expense of heavy industry — which builds military power — into consumer channels. The Chinese denounce this as leading toward capitalism. As the Viet Nam situation grows tenser, the Soviet course becomes more difficult to maintain.

Despite the steady rise of tension in Southeast Asia, Premier Alexei N. Kosygin said Monday a visit by President Johnson would be "very pleasant" and repeated his avowed hope for better relations with the United States.

Now Kosygin and Brezhnev are in an uncomfortable position. The notion of a pleasant Johnson visit and improved Soviet-American relations will further enrage the Chinese and those who sympathize with them.

Kosygin Reluctant
Kosygin gives the impression that he moved rather reluctantly toward supporting contacts with Washington, perhaps pushed by the Brezhnev wing of the party. Brezhnev has been concentrating on a program for the internal economy for which relative peace with the United States is necessary.

Moscow already looks foolish to some Communists for having become involved in an international meeting of party leaders which is highly unlikely to produce anything but a worsening of the world schism.

With the extension of the Indochina war, the position of reluctant diluting royal African blood. Seretse's uncle Tshekedi, acting regent of the tribe, was the heaviest yet in the raids on North Viet Nam.

consult him.

Smaller Parish Considered by Diocese Official

If Bishop Grellinger Left Oshkosh, He Would Keep Position

OSHKOSH — Most Rev. John B. Grellinger, auxiliary bishop of the Green Bay Diocese and pastor of St. Mary Catholic

Church here, announced today he is contemplating a transfer to a smaller parish in June. This does not involve a change in his duties as auxiliary bishop of the Green Bay Catholic Diocese, he added.

Bishop Grellinger, who is 65 years old, came to St. Mary Church here 11 years ago to serve one of the largest parishes in the diocese. He said today he would like the opportunity to serve a smaller parish.

Milwaukee Native
A native of Milwaukee, Bishop Grellinger came here from Oconto where he had served St. Joseph's parish for five years. He was at St. Francis Seminary, Milwaukee, before the Oconto appointment. He attended St. Francis Seminary in Milwaukee for two years before going to American College in Rome for eight years. He then returned in 1932 to St. Francis Seminary as an instructor and went from there to Oconto. Bishop Grellinger is in his 36th year in the priesthood.

Contracts Set For Kimberly Street Project

Blacktopping, Curb And Gutter to Cost Total of \$17,784

KIMBERLY—The village board Monday night awarded contracts for installation of 2,210 feet of curb and gutter and street resurfacing at a total cost of \$17,784. Work is to be started on Railroad Street improvement as soon as weather permits. The blacktopping contract was awarded Badger Highway Corporation with a bid of \$9,965. Other bids received were \$10,600 from Landwehr Construction and \$11,885 from Murphy Construction. The bid for curb and gutter was awarded to Bloy Construction, Appleton, with a bid of \$7,819.

Other curb and gutter bids included Sommers Construction \$8,112.50; J. N. Daul \$8,117.50; Weiseler Construction \$8,662.50; Klitzke and Felton \$9,911; Landwehr \$9,990; Fred Holz \$10,282.50 and Henry Verbruggen and Sons \$11,122. Board members accepted the resignation of William Courchaine as fire chief effective April 5 and Leonard Romanesko as assistant chief April 9. Both men have reached retirement age.

Underground Blast Planned

NEVADA TEST SITE, Nev. (AP) — The Atomic Energy Commission planned today to touch off the largest underground nuclear explosion ever fired in the United States. Officials described the test as one of "intermediate yield," meaning between 200 and 1,000 kilotons. The largest previous underground test in this country was a hydrogen bomb detonated Sept. 13, 1963 with a yield of 200 kilotons, the AEC reported.

Milwaukee Livestock

MILWAUKEE (AP)—The Cattle market closed steady Tuesday: good to choice steers 20.00-23.00; good to choice heifers 19.00-22.00; standards to low good Holstein steers 16.00-18.00; standard dairy heifers 14.00-16.50; utility cows 13.00 - 14.00; canners and cutters 11.50-13.00; commercial bulls 18.00 - 19.00; common to utility 13.50-17.50. Calves: Tuesday's market steady: good to choice calves 22.00 - 330.00; top 32.00; common 14.00-22.00; culls 11.00-14.00. Hogs: Tuesday's market steady to 25 lows; lightweight butchers 16.50 - 17.50; top 18.25; heavyweights 15.50 - 16.50; light sows 14.50 - 15.50; heavyweights 13.00-14.00; boars 10.00-11.50. Sheep and lambs: Tuesday's market steady; good to choice 20.00 - 24.00; common to utility 16.00; ewes 5.00-6.00; bucks 4.00-5.00.

Martin Bankert, Seated left, and Gordon Aebischer, also seated, were honored at the Chilton Kiwanis Club's 35th anniversary banquet Sunday. Standing, from left, are William Engler Jr., club president; Russell Williams, Oshkosh, Wisconsin Upper Michigan district governor, and Fred Eggers, vice president and toastmaster. (Youngsteadt Photo)

Kaukauna to Take Bids On Paving Two Streets

KAUKAUNA — Council members Tuesday night authorized bids for paving of Kenneth Avenue from Third Street to 10th Street and E. 14th Street from Crooks Avenue to the east end of the street, work on both projects and assessment billing to be completed by Sept. 30.

A request from Donald Mayo to rezone four lots near the proposed new junior high school elementary school building from single family to multiple family residential was referred to the planning commission. Approval was given to James Gertz and Victor Luedtke to attend the park and recreation conference at Green Bay March 10 through 12. A request was received from a store owner in Little Chute, near the Kaukauna line, to have an alarm buzzer installed in the Kaukauna police station, enabling that department to notify the sheriff's office in event of trouble in the store. The request was referred to the public protection and safety committee.

He indicated alternate bids might be accepted on future street improvement projects. A copy of a letter from the state highway commission recommending the county install flasher lights on County Trunk OO and State 55 was filed. Aldermen agreed if five residents of the Town of Buchanan seek annexation to the city and the annexation completed, the city would attempt to secure easements from property owners for proposed sanitary sewer installation. A special assessment of \$2.50 per running foot would be made. The city would agree to remove septic tanks on the properties and connect the homes to the sanitary sewer. The city would also agree to place properties in condition. The city engineer was instructed to replace a motor in the large rubbish truck and to have a non-skid plate installed on the rear of the rubbish truck body to prevent men from slipping during inclement weather. The finance committee reported discussions on a proposed 14 Swedish Students Killed in Avalanche.

SALZBURG, Austria (AP) — Fourteen Swedish students were killed and 10 others injured Tuesday when an avalanche crushed a tourist bus on a mountain road near Obertauern. Fifteen other passengers escaped injury as did two other bus loads of their party who were warned in time. They were stranded in a remote village when the road was closed because of further avalanche dangers. **Correction** Ash Wednesday services with communion will be at 7 p.m. San Fran. clear 69 53 today at Riverview Lutheran Church (Wisconsin Synod), 136 W. Seymour St., rather than Washington, Wis. 50 37. 7:30 p.m. as stated in Tuesday's Post-Crescent. (M-Missing) (T-Trace)

Science Fair Scheduled at Fox Valley High

10th Annual Event Set March 12, 13 in Building's New Wing

The 10th annual science fair at the Fox Valley Lutheran High School will be held from 6 to 10 p.m. Friday, March 12, and from 10 a.m. to 9 p.m. Saturday, March 13.

This year the exhibits will be displayed throughout the newly constructed science facilities on the north end of the school. Visitors will be able to tour the laboratories, science lecture room, the observatory, and the plant and animal room.

The club's president, senior James Koschmann of Neenah, will display the unusual collection of animals he has mounted with a taxidermist's skill acquired as a project last year. Other individual exhibits will vary from regeneration studies in animals to plant growth stimulators. Various sections of the club will display their projects and also recruit for more members to share in the completing of the projects.

Teaching Aids
The science teacher section in the building. The astronomy section showing will be dependent on the weather. The four students who will State of Wisconsin for aids to the Menominee County. Trees For Tomorrow Camp will be announced. The scholarships Appalachia bill which will be declared.

are made possible by the Wisconsin Michigan Power Co. **Luncheon Guests**
To give recognition to the 10th anniversary, a luncheon will be held Saturday noon for the exhibitors, past and present officers of the FVL Science Club, and alumni fair winners. This year the judges are FVL graduates who were outstanding science students. Both are now employed in the area. Students will give their research reports in the science lecture room during the fair on March 13.

Menominee Aid Bill Set

Congressman Laird, Sen. Nelson to Join On Fund Proposal

WASHINGTON — Legislation have developed to aid Menominee County. Laird also explained that the efforts of the Office of Economic Opportunity in sending a team to Menominee County this week to assist the county board in submitting a formal application for federal assistance through the poverty program was a "beginning," but that the development of legislation didn't touch the "heart of the problem which the citizens of Menominee County face." In addition to whatever help can be obtained from the Office of Economic Opportunity, there Co. is a definite need for Congress City Atty. William Engler said to enact legislation to provide that he was still working out the funds for improving health and option for purchase of land for the education in the county." Laird the No. 6 well site with the Chilton Millworks.

Chilton Seeks Federal Aid for U. S. 151 Project

CONTINUED FROM PAGE 1 spring. The matter was referred to the public affairs committee, headed by Henry Koch. **Water Losses**
Clerk Arthur Pohland reported that the sewer department had a net income of \$18,140 in 1964. The water department operated with a loss of \$6,843 which compared with losses of \$3,014 in 1963 and \$2,438 in 1962. The reason for the increased loss could not be pinpointed without investigation. Purchase date for a new city police car was changed from July 1 to March 1 to take advantage of a better resale market. The fire committee reported that fire contracts with the Towns of Brothertown, Chilton, and Charlestown were still pending. Chief Norbert Sturm was expected to make some recommendation soon. The present contracts expire May 1. **Welcome Signs**
No decision was made concerning new welcome signs for the city. Ald. Henry Koch said he would discuss the matter at the next Chamber of Commerce meeting and bring a recommendation. The public property committee had been considering two bids from the Standard Sign Co. City Atty. William Engler said he was still working out the funds for improving health and option for purchase of land for the education in the county." Laird the No. 6 well site with the Chilton Millworks.

Port Strike Has Hit India in Breadbasket

Vast Imports of American Wheat Held Up in U. S.

BY DAN COGGIN

NEW DELHI, India (AP) — The U.S. dock strike has dealt a hard blow at India's empty stomach. It will be felt this month and next, when vast im-

This mammoth operation un-ports provided little or no help der the U.S. Food for Peace to the Indian food problem. program, involving dozens of ships every month, was one of the biggest long-distance move- out reached the market places ment of food from one country to another the world had ever known.

Pushed to Limit India's primitive port facil- ities were pushed to the limit, and the precious cargo went straight to market in a virtual ship-to-mouth shuttle.

In mid-February, after arriv- al of the last freighters to lift anchor before the Atlantic and Gulf ports strike, the huge im- ports from America stopped. Bombay, Calcutta and other Indian ports were comparative- ly inactive. The only wheat they could handle was a trickle of a May. By then it is hoped U.S. grain shipments will have re- sumed.

West Coast ports and an emer- gency purchase of 125,000 tons from Australia.

Wheat Imports Almost all India's imports of American wheat are loaded at once on exceedingly slim sup- plies of home-grown wheat. No famine is expected, but men's return to work at Atlantic millions of stomachs will be

Parting Shot

Burch Spreads Blame For GOP Loss Widely

BY JAMES MARLOW

WASHINGTON (AP) — Dean Burch, retiring chairman of the Republican National Commit- tee, has fired a parting shot with recommendations for im- proving his party's image and explanations for its loss of the 1964 election.

He spread the blame for the loss generously: The memory of President John F. Kennedy; the way President Johnson used his presidential power; criticism of Sen. Barry Goldwater by Re- publicans; loss of the Negro vote; big business support of Johnson; and a few newspaper "pundits."

He never once conceded that perhaps the voters themselves, and on their own, decided they wanted no part of Goldwater after listening to him and exam- ining what he stood for.

21-Page Review Burch, in a 21-page review of the past and survey of the fu- ture, concentrated almost en- tirely on suggesting how the Republicans could set up ma- chinery to regain public confi- dence.

But, while he didn't offer pro- grams or suggest new positions for the party to recapture that confidence, he did go into detail in telling Republicans various fields and problems in which they can criticize Johnson.

The closest he came to pro- posing a fresh Republican role was to restate Goldwater posi- tions which, he said, were Re- publican positions.

GOP Positions The government is too big; it has too much power; it spends too much on welfare programs; there are too many restrictions on business; and "we need a firmer stand against commu- nism everywhere in the world."

Burch, handpicked last year by Goldwater as GOP chair- man, has not always been a good prophet, as he showed election night when, with John- son far ahead, he declared hopefully the picture would brighten as the sun moved west.

After the election, when Re- publicans made it clear they didn't want him running their committee any more, Burch agreed to step out next month in favor of Ray Bliss of Ohio.

It was to Bliss that Burch di- rected his recommendations in a document widely distributed late Tuesday. He admitted the party had been badly beaten in 1964. To get it back on its feet, he proposed:

Year-round campaigning; in- tensive research to provide in- formation for party spokesmen; task forces to study problems and come up with programs; a lot of opinion research and poll- ing; an "enormous" public relations and "propaganda" job; a staff of full-time, paid professionals to go around the country instructing Republicans in the "art of political organiza- tion."

Burch said Republicans had "lost the confidence of the American people in our ability to govern" many years before Goldwater suffered one of the worst defeats in American his- tory.

What Happened This is how Burch saw what happened in 1964:

"We started the race impos- sibly behind. We were never a united party." Kennedy's as- sassination forced Goldwater to run against the "Kennedy lega- cy and the Kennedy myth, plus ty-

a busy new president, massive sympathy for the whole Kenne- dy-Johnson Era." Johnson was a "practical political craftsman of enormous skill and ruthlessness."

Negro Vote The only reason Burch seemed to see for the loss of the Negro vote was Goldwater's vote against the 1964 Civil Rights Act. Among other things he listed "threats and prom- ises" as part of the instruments that went with the presidency and he said Johnson "used ev- ery one right up to the hilt."

And Burch complained about a "handful of influential" news- paper "pundits" for a "running critique barely within the bounds of responsible and objec- tive journalism."

At the same time, apparently without feeling any incon- sistency in his concern for newspaper objectivity, Burch complained that the "press corps" wasn't sufficiently inter- ested in "the welfare of our par- ty and the Kennedy myth, plus ty-

Superb suede in elegantly rich styles. Broken sizes.
- Fur Trimmed Suede Coats 109⁹⁹
Superior quality suede in magnificent styles & shades. Broken sizes.

THE POST-CRESCENT

Wednesday, March 3, 1965

The Sales Tax Issue Again

Governor Knowles has been attempting to avoid a deadlock with Democratic legislators as well as some within his own party over a revenue program to finance his budget for the next biennium. Additional taxes ranging from \$110 million to \$140 million must be raised to meet the requirements of that budget.

The Joint Finance Committee is now holding detailed hearings on the budget, and as much as some Republicans would like to cut it, the prospect is that the state's spending level will not be materially reduced over what the Governor has recommended. In fact the pressure is already on to restore cuts the Governor himself made in departmental fund requests, notably by the University of Wisconsin.

Meanwhile the Governor has been meeting behind closed doors with legislators of both parties in an attempt to iron out a compromise on a tax program before he sticks his neck out and tells the legislature how he recommends the problem be solved. But he's getting nowhere with the Democratic leadership in control of the Assembly.

It leaked out of a meeting he held with Republicans that he was thinking of a combination of broadening of the selective sales tax and a raise in income taxes. And

it's the sales tax issue which again is complicating the state's fiscal problem.

If some of the additional taxes have to come from a broadening of the sales tax, the Democrats want the Governor to make this recommendation. They want him on the record in public for future campaign purposes. The Democrats are generally opposed to any raise or extension of sales taxes; the Republicans don't want any increase in income taxes.

The Department of Taxation has prepared a number of alternate plans for raising new revenues. A one per cent hike in income tax rates would do the job. The trial balloon put out by Knowles proposes an income tax rate boost of one-fifth of one per cent plus an extension of the sales tax to all purchases except food, drugs and clothing. The sales tax rate could be dropped under such a plan from 3 to 2½ per cent and raise sufficient revenue. This might mollify some Democrats.

Best guess at the moment is that Governor Knowles will not be able to get any commitments of support in advance from the opposition party, that he will be forced to address the legislature and submit his own tax program, and that only then will the real behind-the-scenes bargaining begin which hopefully will lead to a solution before the next biennium begins July 1. But there is one thing for certain—state taxes are going up!

Purchasing Foreign Drugs

Legislation to prohibit the federal government from buying drugs manufactured by foreign countries and made from stolen United States patents has been introduced in both the Senate and House.

The Defense Department purchases some of these drugs which have been pirated from patent secrets. The House bill proposes the government should buy a foreign product stolen from an American patent only when the national security is involved.

Senator Harrison Williams (D-N. J.) says the foreign firms have no investment in research, often do not manufacture under the strict controls used by American firms, and pay wages far lower than American rates. He called this "unfair competition."

Pharmaceutical houses in the United States have been under fire in the Congress for several years because of their pricing policies. They have defended themselves with the argument that labor and research costs are high and in order to make a profit they must charge present prices.

But let's face it, drug research, even though it is costly, has brought us a long way toward defeating many dread diseases. Good examples are the Salk and Sabin vaccines.

We are inclined to agree that purchasing drugs made from stolen patents and placing them in competition with the original patent holder is indeed unfair competition.

New Jet Set in the U.N.?

Anyone who thinks of the Vietnamese as backward or lacking in enterprise or originality should have another think. These people may have changed the entire pattern of future history.

Their marvelous invention came as it usually does because of necessity. General Nguyen Khanh was unpopular with a lot of people but he also had a considerable number of well-armed followers. His successors didn't want to split the country even more with another assassination. So they simply appointed General Khanh to be a roving ambassador and the South Vietnamese representative at the United Nations. No matter that South Viet Nam is not a member of the U.N.; Khanh will be an observer and present some information about the periphery of the Viet Cong.

This may of course open the way to debates if Hanoi also sends an observer to tell about attacks upon North Viet Nam. And the General Assembly will have to get back in session somehow although probably that little matter of back assessments is going to be conveniently forgotten by next September.

But of even more importance is the precedent South Viet Nam has set by appointing its deposed leader as a delegate to the U.N. If the United Nations could somehow be sort of a casting off place for the has-beens, a society for the preservation of old regimes, a haven for the old generals who neither die nor fade away,

what an opportunity for history! Nikita Khrushchev, Lord Home, King Farouk, Peron, Batista, Goulart, Ibn Saud and Adoula could meet in endless and pointless discussions with the Duke of Windsor, Richard Nixon, Inonu and even Barry Goldwater. No longer would there be tension in nations over no-confidence votes, national elections or the threat of revolution. Leaders would look with envy at the social gatherings on the East River, the afternoon cocktail parties and the evening theaters; they would step down with alacrity. Revolutions in fact might be abolished altogether with some sort of an international compulsory retirement age coupled of course with Social Security. The whole thing could be a damaging blow to the sort of communism Mao Tse Tung encourages. In fact, if Mao is looking for a place to retire, he could become a U.N. observer too without going through all the arguments about admitting Red China to actual membership.

This indeed could be a very select organization with perhaps an alternate winter location in the Bahamas or Palm Springs and lower echelons for such people as Charles Halleck, Patrick Gordon Walker, Pierre Salinger and retired Cabinet members. Adlai Stevenson of course would be a charter member. The only requirement would be that a prospective member be removed or lose out in a bid to lead a nation. And of course that he bring his own small change.

Looking Backward

'Where Are Men to Come From?'

100 YEARS AGO

Quoted from the Appleton Crescent for March 4, 1865.

We are indebted to Department Provost Marshall Ming for the list of victims required from our already almost depopulated list of enrolled men.

Osborn, for instance, is called on to furnish six men, and the last two or three liable enlisted this week. Freedom must furnish 19 and we are informed that there is not a single man left in the town liable Buchanan, 10 required, was swindled out of two men on the last draft, having paid for them, they were finally credited back to Ellington. If the town does not fill the quota, this call will take the last man.

Grand Chute is modestly asked for 24, and has but 10 liable. We do not think that Bravina has enough men to fill her quota of five. Ellington will be cleaned out thoroughly and more so.

Already in Army

Greenville, ditto. Dale also. We do not know how it will be with Horton, but we imagine that "many will be called" but few found.

Liberty and Maple Creek will have to substitute the women to satisfy the rapacious maw of Father Abraham. Their men already are in the war—most of them credited to other towns.

So that of the 182 wanted we see but little prospect of more than 12 (from Appleton) responding to the call.

No Men Left

We verily believe that sufficient men have gone into the army from Outagamie to have filled all the demands, but from the wretched construction put upon the conscription act by that unmitigated Fry, allowing men to credit themselves where paid the best bounties, has of course left our County in the lurch and the men cobbled up by the richer localities south and west of us.

Where are the men to come from now, and also for next Spring's draft?

Echo answers: "Where?"

25 YEARS AGO

Wednesday, Feb. 23, 1940.

William Pickett was one of the speakers at the meeting of the newly organized Badger Hi-Y Club at the YMCA. He discussed coaching as a voca-

tion. Two members also talked on hobbies. John Noffke on archery and Orvil Shebilske on model airplane building.

Officers of the Fox River Valley Guernsey Breeders Association were A. B. Kassilke, route 4, Appleton, president; Emory Melz, route 1, vice president, and O. H. Breitrick, route 1, Appleton, treasurer.

Miss Josephine Engel, Appleton, presented a lecture and cooking demonstration at the organizational meeting of the Kimberly Homemakers Club. Miss Marguerite Birong of Kimberly High School outlined plans for organizing the group.

Members of the Waupaca High School Drama Club presented a short play, "Sunset by Slansky," at the meeting of the Monday Night Club. Taking part were Hollis Deuel, William Vroman, Everett Doerfler, Dorothy Minton and Dorothy Godfrey.

Parents Need a 'Teen Code' More Than Some of Our Teen-Agers Do

Editor, Post-Crescent:

With the formation of a committee at Roosevelt Junior High on the revision of the so-called "teen code," "We Believe," I consider it appropriate to raise a few points concerning the code.

This code is and will be a set of rules, trying to establish a norm for teenagers. They will probably run into trouble, because there is no "normal" or "average" child. These terms are far too relative for acceptable use.

The code tells what age groups may do this and that.

Government Sometimes Gets Our Big Fish, Too

From Exchanges

Radio Moscow the other day told the details of Marini Mansurova's fish story. She was on a beach when she noticed one of the nets in the sea jerking violently and switched on the haul-in gear. In the net was a big fish, the size of a man, the radio said. She tried to hit it, but missed, and in the process got a powerful blow on the head that knocked her into the sea.

"Luckily, she was rescued by people nearby," the announcer said, "and the fish was captured and sent to the local (collective) factory."

That's just the trouble with Communism. A fellow gets a chance to tell a fish story like that and the government seizes the fish.

Student Protests Ban On Summer Park Dances

Editor, Post-Crescent:

I have just read your article about the ban on summer dances in all but one of Appleton's parks. The park board took this action last week after reviewing complaints from residents who "complained of noise and loudness of public address systems."

Although I am a resident of Menasha and rarely attend a park dance in Appleton, I'll bet even odds that these complainants are the same few who holler loudest about teenagers having nothing to do during the summer.

It seems to escape these people that these park dances are one of the few summer activities at which teens can

have so much safe, harmless, and well-supervised fun for so little hard earned cash.

It should be obvious to all that very few teens want to sit at home on a warm Friday or Saturday night during the summer. Is it not better to have these young people at an enjoyable, well-chaperoned dance than to have them roaming around the city looking for "something else" to do?

Norman Braatz, non-original orations; Judy Hildebrandt, 4-minute speech; Pat DeBaker and Nancy Fuchs, serious declamations; Libbie Brunner, extemporaneous reading. Two new members of Quill and Scroll Society at Appleton High School were Margaret Mullen and William Dohr. Mary Root was president and Janet McBain secretary of the honorary journalism society.

Dick Hamilton, son of Mr. and Mrs. Max Hamilton, Appleton, was named the outstanding speaker in the Bolton-Roth extemporaneous recital at Appleton High School. His speech was titled "Playing with Fire in Asia." Other contestants were Peter Davis, Bill Mielke, Wally Rugland and Roy Stohlman. Hamilton's name will go on the school's Hall of Fame.

There's No Horseplay On Neenah Pistol Range

Editor, Post-Crescent:

I hope you will give me equal space to clear up any misunderstanding about the conduct of the pistol match between the Boys Brigade Pistol Club and the Brigade leaders. I was there that night and fired in the match. In addition to myself there were four other leaders who are not only members of the National Rifle Association but have also been certified by that organization as Rifle and Pistol

Instructors, one who is certified as an N.R.A. Referee, and three members of the Neenah and Menasha Police Departments.

If my memory is correct, twelve leaders and an equal number of boys each fired 20 shots and each shot hit the target at which it was aimed. No skylights were shot out and no basketballs were punctured. I hope that everyone who saw the picture will realize that the caption under it was a product of a reporter who had space to fill and did not even see the pistol match in question.

In reply to Dave Hartmann's question, "Are these the kind of men that are instructing the youth today?" I think he should know that we have over twenty men and women who spend one or more evenings a week teaching the "youth of today" to handle firearms safely. If I'll contact me I'm sure I can arrange a rifle match between our Brigade Rifle Club and the boys and girls he is working with so he can see for himself how little horseplay we have on our

Wisconsin Report

Providing Airplane for Governor Would Seem To Make Much Sense

BY JOHN WYNGAARD

MADISON—The little flurry about Gov. Knowles' habit of accepting the use of privately owned aircraft on trips around the state as a means of conserving time for executive office work that would otherwise be devoted to slower highway travel illustrates the often contradictory aspects of Wisconsin politics.

Wyngaard

The governor came into office resolved to handle the inevitable speechmaking and ceremonial chores of his office as expeditiously as possible. There is simply no way, for a man who has a decent regard for the good will of his constituents and remembers the efforts of his friends on his behalf during the campaign season, to hole up in Madison for the duration of his term. The speechmaking aspects of the office are profoundly burdensome. The Knowles problem was particularly acute because the Republican constituency of the state had not had a governor in office for six years.

Hence he started accepting speaking engagements in distant places with the proviso that the sponsoring group provide air transport. Not surprisingly, most of them are willing enough to do so. Now comes the question of the propriety. As one Democrat on a legislative committee has already grumbled, this tends to limit the governor's engagements to those who can provide an airplane and to those who hold their meetings conveniently near an airport.

BUT MORE

Underlying these comments, moreover, is the thinly disguised suggestion that there may be an ethical question involved. Sensitive persons, indeed, might wonder about the matter. To the extent that a governor, any governor, may make votes or reinforce his personal political organization against the next election cam-

paign, the transportation gratuity may represent a political contribution to him by the airplane owner, typically a corporation. And the corporation under Wisconsin law, as everyone remembers, is strictly forbidden to contribute for political purposes.

Such suggestions, however obliquely made, will appear to many persons to be unfair. The governor has discussed his practices with complete candor. There has been no slightest effort to suppress information. In fact, the first public disclosure of the governor's travel under the condition that he is provided fast transportation came from the volunteered explanation of his own staff officer.

Yet Democrats are sensitive about the censorious attitude of Republicans toward their governors during the last six years. What would a Republican publicist say if a Democrat governor had been accepting air transportation provided by friendly labor organizations for example?

THE SOLUTION

The simple and obvious solution is for the state to provide an airplane for the official travel of its chief officials, as everybody knows.

If the hard-headed auditors of the larger corporations of Wisconsin can justify airplane travel for their top men, there can be very little doubt that the state, the largest corporation of all within Wisconsin, can do so also.

This is where the contradictory nature of the political posture of Wisconsin is shown. Govs. Nelson and Reynolds wanted the state to buy an airplane. But their proposals were blandly ignored in the legislature. Instead, they ran up substantial contingent expense account bills by chartering private craft for frequent flights. Gov. Knowles is now getting some oblique criticism because he is saving the state some money by accepting private transportation when it is offered. He says he would prefer that the state buy an airplane that would serve all future governors. But as surely as anything can be predicted in state politics, the legislature will again ignore the proposition. To buy an airplane would possibly appear wasteful to some of the constituents of those legislative politicians.

Why Does Right Wing Buck Mental Health?

BY SYDNEY J. HARRIS

What is really alarming about the right-wing movement is not its political or economic positions—which may or may not be valid—but its obsessive quality of thinking.

Harris

What passes for "communism" in the world today is doubtless an evil thing; but the right-wing mentality converts this proposition into the dangerously absurd one: "whatever is evil in the world today is communism."

More depressing evidence of this kind of paranoid thinking came in a letter from Pittsburgh today. A woman, outraged by my recent column on homosexuals and the way I think society should regard them, wrote that after reading the column with disgust, "I finally realize that I must have been reading socialistic-filled bilge for years in your column."

Now, my attitude toward the homosexual problem may be wise or stupid; but what it has to do with socialism, or any politicalism, quite eludes me. In point of fact, the Russian rulers are much more moralistic than we are about sexual matters, and treat all "deviations" and immoralities with a harshness that our Puritan

forebears would find enviable. In certain sections of the West and Southwest, I have found in my travels that mental health programs are violently opposed and attacked by right-wing groups as subversive forerunners of the communist revolution. They seem to believe that the mental health movement is a covert way of railroad into mental institutions all red-blooded patriotic Americans who will not go along with the "socialist conspiracy."

Again, in point of fact, the communists are extremely cool toward mental health concepts, and especially toward Freudianism, which is officially banned in the Soviet Union. There are no psychoanalysts in Russia, just as they were forbidden to practice in Nazi Germany.

(Even weirder is the fact that some right-wing groups oppose the teaching of General Semantics as part of a plot to "confuse people about the meanings of words," when the whole point of General Semantics is to help people think more clearly and define terms more accurately.)

In the 1930s and 40s, the American communists took over, ruled and ruined the liberal movement, because the genuine liberals were too naive or lazy to drive them out. The same is happening today in the conservative movement, which is being damaged and perverted by the assorted kooks who are convinced that the Reds are poisoning our "precious bodily fluids." As the man said, "I can take care of my enemies, but God preserve me from my friends!"

Potomac Fever— by Jack Wilson

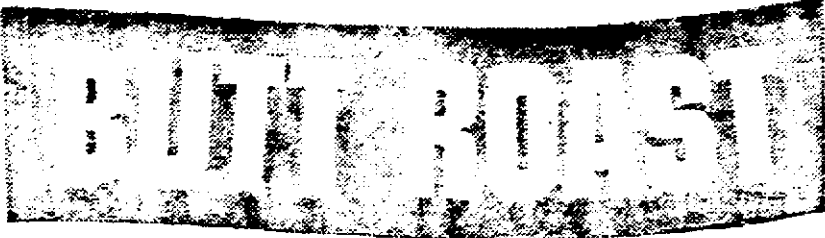

New York police call Rep. Adam Clayton Powell a liar. Typical white man's reaction when a Negro doesn't tell the truth.

Sen. Robert F. Kennedy says political jobs in New York should be awarded on merit, not patronage. Translation: some of Bobby's boys need work.

Now, for the first time, the federal government would be participating directly and in an unprecedented way in the educational process itself in elementary and secondary schools. The pending legislation calls for \$1.2 billion to be distributed to state and local areas. Of this amount, \$1 billion will go for grants to school districts allocated on the basis of the number of children from families having less than \$2,000-a-year income.

The obligation of state aid to the school districts, on the other hand, has been well established for many years, though the amounts and methods of allocation vary from state to state.

Virginia Grants

Virginia, for instance, granted to different localities in the state a total of \$120.4 million during the school year 1962-63. Of this sum, 63.5 per cent, or \$76.5 million, went to pay teachers' salaries, and \$27.6 million was supplied to local schools in order to bring expenditure levels up to \$255 per pupil. The state, moreover, paid \$6.5 million for pupil transportation, and there are state-grant programs for such things as sick leave for teachers, public-school-library funds, special funds for handicapped children, and other needs of the local districts. So President Johnson's program is apparently aimed at the same city and county services that the state governments have been helping for many years.

Why, therefore, should the states suddenly be subsidized and their educational systems subjected to any measure of federal control? No convincing answer has been made as yet, though it is suspected that politics and the pressure of organized groups and unions seeking higher pay for teachers may be largely responsible. Members of Congress have always been anxious to get more money for their respective districts.

Change System

All this, however, can only lead to more and more federal control of state functions, and in time it could transform the whole American governmental system.

The theory now is that, since federal money will be furnished for a worthy purpose like education, criticism will vanish, so that an abundance of federal money will flow to states and cities. This could eventually relieve them in where the families of persons in large part of their obligation to the military or civilian services take care of additional expenses of the national government for education and enable them to turn their own funds to other uses. This can mean more and more money will be available for the "pork barrel" purposes of education program.

Incidentally, the spending of that the House education and labor committee voted "to government — federal, state, make an additional 237,000 and local — is increasing at a rapid rate. It may exceed the \$200-billion level by June 30, aid plan to satisfy demands of 1965, according to figures recently announced by Tax Foundation Inc., a private, non-profit research organization. It is estimated that this over-all expenditure represents a burden of \$3,336 per U.S. family.

The whole economic picture is growing more and more complex. Unfortunately, neither in Congress nor in the states and cities is there much attention being given to the impact of excessive spending and, particularly, to the increasing flow of federal funds into states and

Lawrence

called "poverty-stricken" districts. Yet these already are being financed by and constitute a continuing responsibility of the states, counties and cities themselves.

Most people do not realize that total expenditures for elementary and secondary education in the public schools of America amounted to \$18.3 billion in the 1961-62 school year, the latest for which detailed figures are available. State funds supplied 37 per cent of the total, while local funds made up 58.8 per cent. Thus, the federal government was paying only 4.2 per cent of the total educational expense. If this was essential aid, it is being asked why the states or local units could not afford this small percentage of additional cost, which amounted to less than \$1 billion a year.

Federal funds in relatively small amounts have been allotted heretofore to federally affected areas and for school lunch and special milk programs. A federal relationship to school problems has been recognized, for example, in areas where the families of persons in the military or civilian services take care of additional expenses of the national government for education and enable them to turn their own funds to other uses. This can mean more and more money will be available for the "pork barrel" purposes of education program.

Incidentally, the spending of that the House education and labor committee voted "to government — federal, state, make an additional 237,000 and local — is increasing at a rapid rate. It may exceed the \$200-billion level by June 30, aid plan to satisfy demands of 1965, according to figures recently announced by Tax Foundation Inc., a private, non-profit research organization. It is estimated that this over-all expenditure represents a burden of \$3,336 per U.S. family.

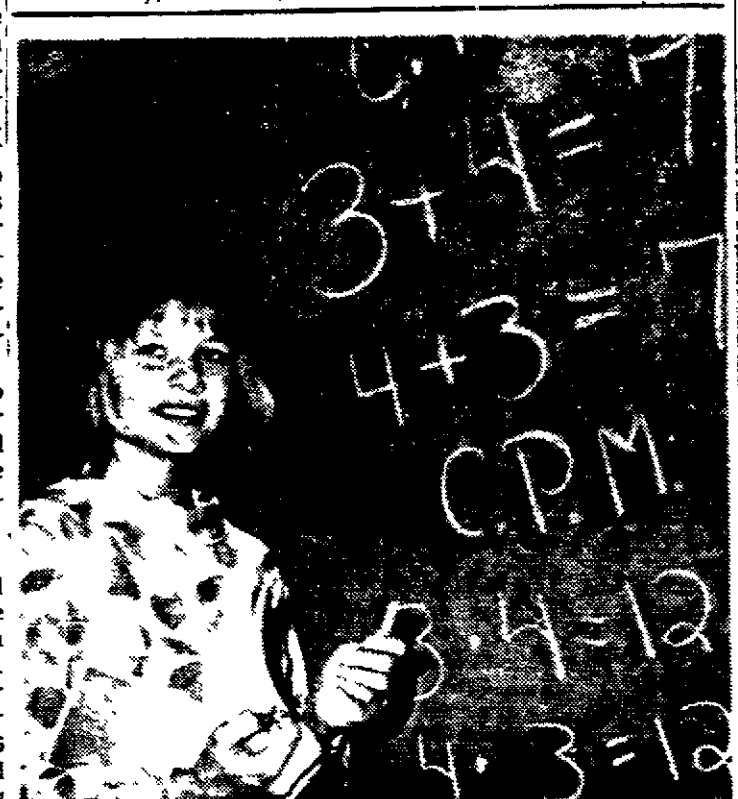

The whole economic picture is growing more and more complex. Unfortunately, neither in Congress nor in the states and cities is there much attention being given to the impact of excessive spending and, particularly, to the increasing flow of federal funds into states and

No such limitation is applied now, however, in the proposed aid-to-education program. A UPI dispatch last Saturday said that the House education and labor committee voted "to government — federal, state, make an additional 237,000 and local — is increasing at a rapid rate. It may exceed the \$200-billion level by June 30, aid plan to satisfy demands of 1965, according to figures recently announced by Tax Foundation Inc., a private, non-profit research organization. It is estimated that this over-all expenditure represents a burden of \$3,336 per U.S. family.

The whole economic picture is growing more and more complex. Unfortunately, neither in Congress nor in the states and cities is there much attention being given to the impact of excessive spending and, particularly, to the increasing flow of federal funds into states and

Get **FASTTEETH** at drug counters everywhere.

Katie Mueller Shows on a blackboard examples of the commutative principles of "new math." Miss Mueller, 14, in her third year of studying the new way, says the old way just explained how, not why. (AP Wirephoto)

Today's Class 'Real Numbers' Topic Of New Math Lesson

EDITOR'S NOTE — We'll numbers being on a line, and wager you didn't know there every number corresponding to were such things as "real a point on the line.

Count Back

By counting back 5 spaces from plus 4, you arrive at —4. Similarly, by subtracting 6 from plus 3, you get —3. In the same way, if you add 5 to —4, you get the sum of plus 1. But if you add only 2 to —4, you still have a negative number, —2.

That shows you how you add and subtract with plus and minus numbers. Multiplication and division of real numbers is not hard, either. You just multiply and divide as you normally would.

The following rules must be kept in mind, however:

1. A Negative number multiplied by a Positive number always produces a negative number. For example, —4 times 2 equals —8.
2. A Negative number divided by a Positive number, or a Positive number divided by a Negative number, always produces a Negative number. For example, —4 divided by 2 equals —2, and 4 divided by —2 equals —2.
3. A Negative number multiplied by a Negative number always produces a Positive number. For example, —2 times —2 equals 4.
4. A Negative number divided by a Negative number always produces a Positive number. For example, —4 divided by —2 equals 2.

And, of course, we know that a Positive number multiplied or divided by another Positive number always produces a Positive number. That's just 2 times 2 equals 4.

Explain Why

It wouldn't be fair to just give you these facts without trying to explain WHY these are facts. You may recall earlier in this series I said the importance of the new math is that it teaches the "why" as well as the "how."

Next The "pump theory."

When I first heard the term "real number," I thought to myself, "I suppose next we'll have to learn what 'false numbers' are."

And then I learned there is no such thing in the new math as a false number. Wherever they got the term real number beats me!

Real numbers are very important in the world of the modern math. But they can be defined very simply: A real number is any number, whether it is positive, negative, or zero.

Of course, that definition won't help much if you don't understand what a positive or a negative number is. I'll try to explain it.

Four Apples

If Billy has four apples, he has a Positive number of apples, or plus four. If he gives these apples away to four friends, he will have no apples, or zero.

But let's suppose that a big bully comes along and demands that Billy give him an apple, too. Billy is now in the hole one apple. You might say he has a Negative 1 apple, or minus 1.

How Billy gets out of this mess doesn't matter. What does matter is the fact that Billy went from a plus 4 to a minus 1. This can best be illustrated by drawing a "number line," in which you think of all the real

cities which have hitherto financed their own local obligations. (Copyright, 1965)

Next The "pump theory."

500,000 Children Swallow Some Poisonous Substance Every Year

BY J. W. DAVIS March 14-20 as National Poison father was using for his lawn mower. The child died.

WASHINGTON (AP) — Every year, more than 500,000 American children swallow such poisonous substances as lye, bleach, gasoline, furniture polish and too much aspirin.

Every year more children under the age of 5 die from poisoning than from diphtheria, polio, typhoid, measles and scarlet fever combined.

Tragedies like these have combined to spur a common effort by private and public agencies to get parents to tighten up on their household practices to keep children from poisoning themselves.

To that end, the nation is being asked by President John F. Kennedy to observe the week of she drank was the gasoline her

Youngsters tend to imitate adults.

—Don't speak of medicine as candy.

—Clean out your medicine cabinet regularly. Flush old medicines down the drain, rinse the container, and then discard it.

Children Explore

The authorities recognize that it is only natural for a child, as he matures, to explore what's around him. As he begins to walk, he is going to be able to reach into cabinets and onto shelves. As he begins to climb, he can get to things stored above the normal reach.

If he does get poison into his system, here is what is officially recommended:

First, call your physician. If you don't have one, go to the emergency room of your hospital and take with you the container from which the product was swallowed. Often the label will give first aid instructions.

If you suspect your child has swallowed a poisonous substance, he should be made to vomit.

Don't Force

But do not force vomiting if the product contains a petroleum distillate, often found in some furniture polishes, some waxes and lighter fluid. Like forced if the product is a corrosive substance such as bowl or drain cleaners. And if the child is unconscious or convulsing, vomiting is definitely to be avoided.

The United States now has a network of more than 500 poison control centers at which information is available on the characteristics of various commercial products, and on when those products are accidentally taken into the body. This information is for the benefit of physicians who obviously could not individually maintain a list.

Cleaning House

The information is fed to the network by a clearing house in the United States Public Health Service.

The founder of poison prevention week is a pharmacist, Homer A. George of Cape Girardeau, Mo., who persuaded his mayor to proclaim the first week, in 1958.

"I told him," George recalled, "that there was a National Poison Week and a National Mother's Day. He said, 'Well, I'll do it.'"

—Always turn on the light when giving or taking medicine. Many containers look alike and are in the dark. know neither had ever killed.

—Avoid taking medications anyone, but poisons were going in the presence of children at it every day."
